You can see the latest addition to the Library by choosing this option. This search goes through the entire database for the search hence it may take little more time than normal searches.

On clicking Submit, the query condition is passed through a search engine to yield the search result. The result of all the searches can be either refined or printed. The matching documents are displayed on the screen. You may view further details of the document by selecting a particular document. If the document is part of a Multi-part collection, the Collection name is displayed next to the Accession Number in italics. If there is a Multimedia file attached to this document you may view the same by clicking on the icon. Please make sure that the appropriate viewer or application is loaded before viewing the multimedia file.

The screenshot shows the WebOPAC Online Public Access Catalogue interface. The browser window title is 'WebOPAC - Windows Internet Explorer'. The address bar shows the URL: http://192.168.0.6/webopac/opac_s.asp?m_memchk_flg=8m_summary=Y. The page features a navigation menu on the left with items: New Arrivals, C.A.S., S.D.I., Subject List, Journal List, Software List, Latest Issues, Online Journals, Popular Documents, List Reservation, Outstanding Documents, Procurement Request, Approve Document, Feedback, About, Help, and Logout. The main content area includes a 'Welcome to WebOPAC Guest' message, a 'Bulletin' section with contact information for sftlibrary@gmail.com, a search section with a text input field and 'Submit' and 'Reset' buttons, and a 'Selection Criteria' section with radio buttons for Global, Title, Author, Subject, Series, Keyword, Abstract, and Conference. There are also dropdown menus for 'Media' (set to ALL) and 'Match' (set to Embedded). A footer note states: 'WebOPAC (c) 2000 Soft-AID Computers Pvt. Ltd India.' The browser's status bar at the bottom indicates 'Internet | Protected Mode: On' and a zoom level of 125%.
