I would like to take this opportunity to thank and also appreciate the work that was put in by Nilanjan Choudhury, student of the Dept. of Electronics and Telecommunication at St. Francis Institute of Tech., during his internship with us (June 22nd 2020 - 30th August 2020).

As an intern in the marketing department he was tasked with:

1. Analyzing market space for products of our interest
2. Collate data
3. Present it with their observations and suggestions

For us points one and two were important and he delivered on those. With the third point we wanted to test his critical thinking based on market data. He did quite well despite not being formally trained in this space. Some of his observations were close to industry standards. He was a part of a team and has demonstrated a strong ability to work with remote team members.

All the very best Nilanjan, in your future endeavors.
