Report on “BrewUp 2 CodeXpress”

- Event Date: **Week 1: 8th February 2021 - 14th February 2021**
Week 2: 15th February 2021 - 21st February 2021
- Time: **2 hours (10:00 am -12:00 am)**
- Venue: **Online (Google meet)**
- No. of Registered Students: **50**
- Resource Person: **Mr. Ansel Dsouza , Mr. Prasad Kamath**

A. Description:

- **Objective of the Session:**
- To provide the attendees with practice and prepare them for the upcoming event CodeXpress 4.0
- To provide the attendees insights into competitive programming and to make them comfortable with the competitive programming environment.
- To provide beginners and learners to competitive coding an insight in the competitive coding world.
- To Share various resources to help participants get started with Competitive programming .
- To challenge and improve the fundamental programming concepts of the participants
- To educate the participants on various topics in programming and algorithms like Arrays, series and sequences, searching and sorting etc.
- To provide the attendees with practice and prepare them for the upcoming event CodeXpress 4.0
- To test the analytical skills of the participants with challenging problem statements of varying levels
- To enable the participants to benchmark their performance with respect to coding.
- To help students become better problem solvers which would go a long way in learning as well as in their career development.
- To develop students into proficient technical experts who would be ready for the new technical revolution in the years to come

- BrewUp 2 CodeXpress was a 2 week exciting series that was organized with the sole intention of preparing the participants of CodeXpress for CodeXpress 4.0 .The entire session was divided into 2 weeks . At the beginning of each week we mailed the resources to the participants on their registered Email Ids and on the WhatsApp groups created for this purpose . At the end of the week participants were tested primarily on the concepts learnt throughout the week. Winners were declared after the end of the test on our Instagram handles. The platform used for the competition was CodeChef . There were a total of 12 participants for the session.

Week 01:

- **Topics Covered:**
 - Following are the topics that were covered in the first week
 - **Arrays**
 - **Mathematics**
(Biginteger ,Gcd Euclidean Algorithm, Extended Euclidean Algorithm, Modulo arithmetic, Modulo exponentiation and Modulo inverse ,Series and Sequences ,Sieve of Eratosthenes and Segmented Sieve ,Catalan numbers ,Lucas Theorem ,Chinese Remainder Theorem ,Pigeonhole Principle, Chinese Remainder Theorem)
 - **Searching**
(Linear Search, Binary Search ,Ternary Search ,Jump Search ,Interpolation Search)
 - **Sorting**
(Bubble sort ,Insertion sort ,Selection sort ,Merge sort ,Quick sort ,Radix sort, Heap sort ,Shell sort)
 - **Strings**
-
- The CODEX team formulated a list of credible resources on the above topics for the participants. This was done so that the participants could prepare at ease without any hassles. The document was sent to the participants on their registered email ids. At the weekend test consisting of 5 problems were formulated by the CODEX team. Appropriate care was taken to ensure that the participants would be forced to think out of the box and would not plagiarize the code. The test was conducted on CodeChef website and the results were declared later on our Instagram handle.
-
- **Summary:**
 - Resources circulated on : 8th February 2021 (Monday)
 - Test conducted on : 13th February 2021 (Saturday)
 - **Winners:**
 - **First Place :** Mr. Rahul Bhatt from St. Francis Institute of Technology
 - **Second Place:** Mr. Deepanshu Yadav from Shree LR Tiwari College Of Engineering
 - **Third Place :** Mr. Amey Bhavsar from Shree LR Tiwari College Of Engineering

Week 02:

- **Topics Covered:**

- Following are the topics that were covered in the second week:

- **Queue**

(Introduction ,Types of Queues :(Circular Queue, Priority Queue, Deque))

- **Stack**

- **Linked Lists**

(Introduction ,Types of Linked List: (Circular Linked List, Doubly Linked List, Stack using Linked List, Queue using Linked List))

- **Recursion**

- **Matrix**

- Similarly for the second week too a list of credible resources on the above topics was prepared by our team for the participants. This was done so that the participants could prepare at ease without any trouble . The document was sent to the participants on their registered email ids. At the weekend test consisting of 5 problems were formulated by the CODEX team. Appropriate care was taken to ensure that the participants would be forced to think out of the box and would not plagiarize the code. The test was conducted on CodeChef website and the results were declared later on our Instagram handle.

- **Summary:**

- Resources circulated on : 15th February 2021 (Monday)
- Test conducted on : 21st February 2021 (Saturday)

- **Winners:**

- **First Place :** Mr. Vikas Pathak from St. Francis Institute Of Technology
- **Second Place:** Mr. Amey Bhavsar from Shree LR Tiwari College Of Engineering
- **Third Place :** Mr. Raj from Dwarkadas Jivanlal Sanghvi College

Report on “CODE CATALYST : Stairway to Web Development”

- Event Date: **17th April, 18th April, 24th April**
- Time: **Day 01: 11:00 am -01:00 pm**
Day 02: 11:00 am -01:00 pm
Day 03: 11:00 am - 01:000 om
- Venue: **Online (Google Meet)**
- No of Registered Students: **Day 01: 119**
Day 02: 68
Day 03: 11:00 am - 01:000 om
- Resource Person: **Mr. Harsh Rai**

A. Description:

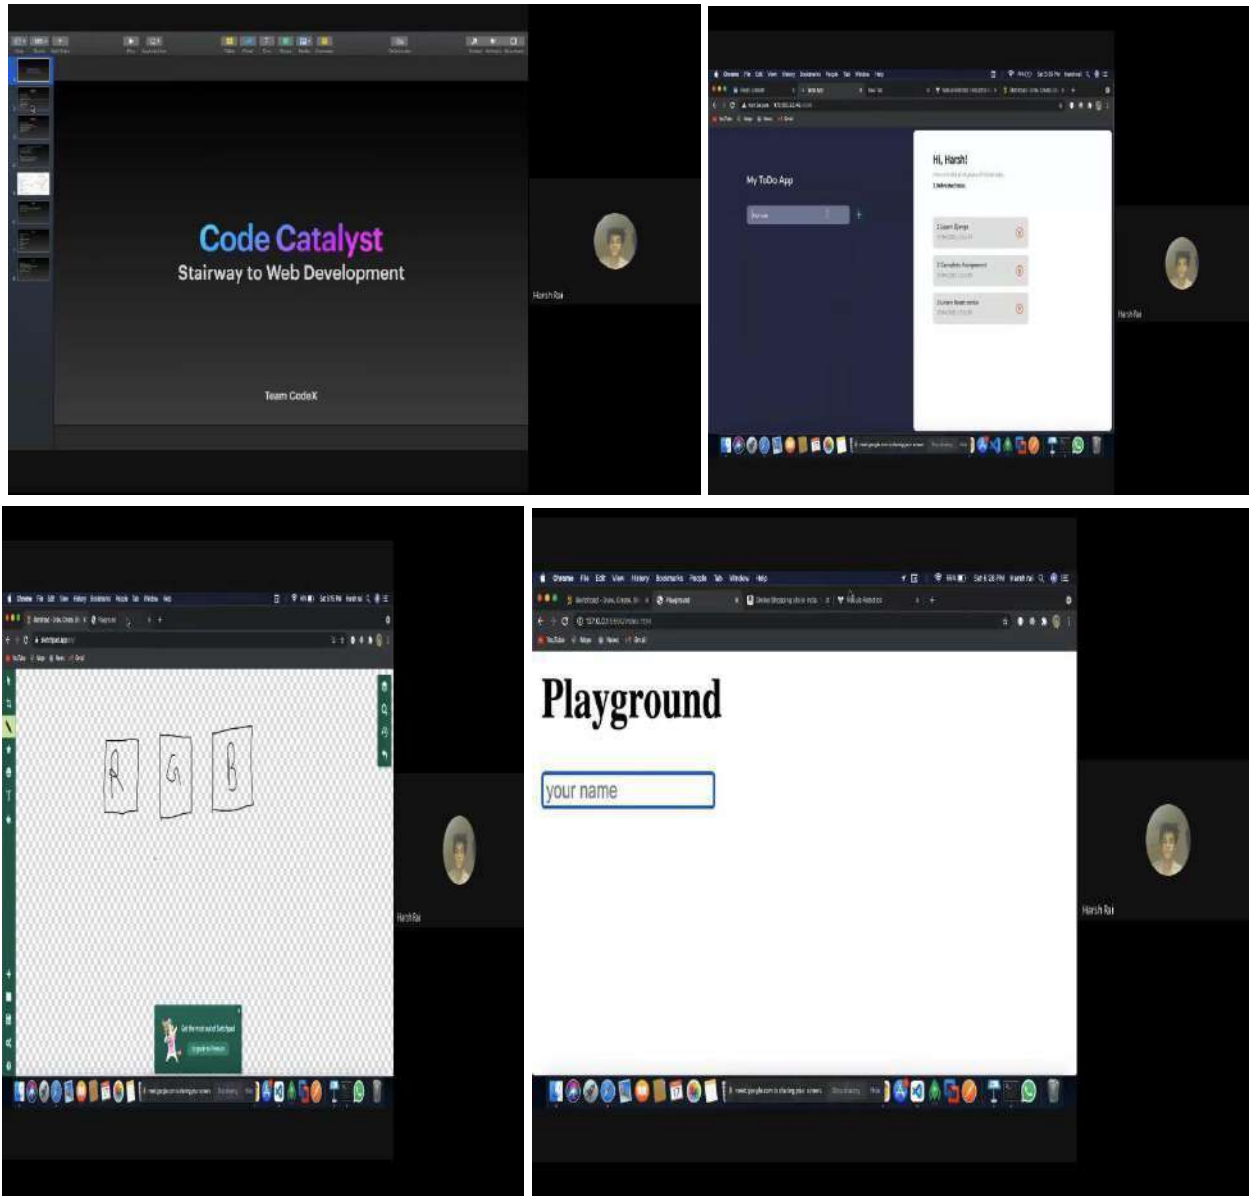

- Stairway to Web Development was a series of sessions of Code Catalyst, a first of its kind initiative for the year 2020-2021 organized by the Code-X team for the students of our college and others in general. It aimed at helping beginners gain the basic knowledge required for Web Development. The workshop was conducted on Google Meet , the invite for the same was sent on their registered email ids and the WhatsApp group created for this event . The workshop was organized in such a manner that the speakers first provided insights to the topic then guided the participants to have hands-on experience by means of building a project. The CODE-X team was actively and promptly helping all the participants throughout the course.
- **Day 01:**
- We began the session with our CODEX team introducing the theme and the objective for the day. Participants were provided an insight as to what they can expect from today’s event and as to how it would add to their skill set. We issued basic instructions to the audience and ensured them full support from the CODE-X team in case of any doubts.
- Our speaker for the series Mr. Harsh Rai began the session by introducing the base of the session: Web development to the audience. He provided a brief yet accurate insight on what web development is and how relevant it is in the industry. He moved forward to introduce the participants to the current technology landscape of web development. Periodically all the doubts and the queries were addressed by the speaker and the CODE-X team.

- Harsh then continued by introducing the fundamental concepts of HTML to the audience. This was done by means of insight, full theory and lucid yet accurate examples. Every detail was taken care to be brought forward in front of the audience. Audience's skills were honed and polished by means of an implementation session related to the topic.
- CSS was the next topic brought in front of the audience. The speaker began by introducing the topic. He then continued to address all the fundamental queries one could have related to the same. The resource person taught about various elements of CSS and gave knowledge about the use of each element in detail. All of the knowledge gained was practically being implemented. During the break the CODEX team conducted a fun brain teaser session to refresh and entertain the participants with simple yet tricky questions
- It was an excellent opportunity for the participants as they gained the experience of important skills of HTML and CSS also they increased their confidence in applying them
- **Day 02:**
- Our speaker for the series Mr. Harsh Rai began the session by introducing the base of the session: JavaScript to the audience. He provided a brief yet accurate insight on what JavaScript is and how it is useful in the industry. He moved forward to introduce the participants to JavaScript and what it is all about. Periodically all the doubts and the queries were addressed by the speaker and the CODE-X team.
- Harsh then continued by introducing the fundamental concepts of JavaScript to the audience. This was done by means of insightful theory and lucid yet accurate examples. Next the concept of log statement was introduced, every detail was taken care to be brought forward in front of the audience. Audience's skills were honed and polished by means of an implementation session related to the topic.
- Dynamic variables (data types) was the next concept brought in front of the audience. The speaker began by introducing the topic. He then continued to address all the fundamental queries one could have related to the same. The resource person taught about various data types used in JavaScript and gave knowledge about the properties of the data type in detail. All of the knowledge gained was practically being implemented. During the break the CODEX team conducted a fun brain teaser session to refresh and entertain the participants with simple yet tricky questions
- Strings, arrays , objects, Date and time, non-blocking were the next topics introduced. This was done by means of insightful theory and lucid yet accurate examples. All of the knowledge gained was practically being implemented. We then moved on to Higher order functions and maps. He then continued to address all the basic questions one could have related to the topic . Event listeners and dom manipulation Reading inputs, Form were the last topics covered. Periodically all the doubts and the queries were addressed by the speaker and the CODE-X team.
- **Day 03:**
- Mr. Harsh Rai began the session by introducing the base of the session: React to the audience. He provided a brief yet accurate insight on what React is and how it is useful in the industry. He moved forward to introduce the participants to React and what it is all about. Periodically all the doubts and the queries were addressed by the speaker and the CODE-X team.
- Harsh then continued by introducing the fundamental concepts of React to the audience. This was done by means of insightful theory and lucid yet accurate examples. He then moved forward to introduce the project for the session "login page" using React and we began designing the same. HTTP API concept was introduced to the audience as we progressed ahead. The speaker began by introducing the topic. He then continued to address all the fundamental queries one could have related to the same.
- Session authentication was the next topic introduced as we were continuing with our project. All of the knowledge gained was practically being implemented. Knowledge about using the

various technologies used was imparted to the audience by the speaker. During the break, the CODEX team conducted a fun brain teaser session to refresh and entertain the participants with simple yet tricky questions. As we concluded completing the project Harsh touched upon the basic concepts learnt which are required to design and style a webpage.

- It was an excellent opportunity for the participants as they gained the experience of important skills of React and also they increased their confidence in applying them

CSI SFIT STUDENT CHAPTER

ST. FRANCIS INSTITUTE OF TECHNOLOGY

Mt. Painsur, Borivali (W).

The Career Toolkit : Expert session on Placement Prep 101

REPORT

Event Date: Saturday, 17th April '21

Time: 4pm - 6pm

Venue: Online (Google meet)

No. of Registered Students: 112

Instructor: Mr. [Subodh Kar](#), from Interview Buddy.

Workshop Description:

A workshop on Placement Preparation was organized by the Computer Society of India - SFIT on the Saturday, 17th April '21 from 4pm - 6pm. This event was held in collaboration with Interview Buddy, an Online face-to-face mock interviews platform providing help from experts for training & preparation for job interviews in a no pressure, stress-free environment simulating a real job interview. Our guest instructor for this session, Mr. [Subodh Kar - General Manager - Product Management, Power Products - Schneider Electric | LinkedIn](#). We closed registrations at 112 students due to platform restrictions and garnered over 80+ attendees. A report for the same is as follows:

We began with a warm welcome by Delicia Fernandes (Chairperson CSI SFIT) and Nipun (Joint PR Head CSI SFIT). Next our instructor Mr. Subodh Kar started with the session introducing himself and a brief introduction of the workshop. The workshop explained the following topics in detail – Soft Skills for Engineers, How to ace Interviews, Resumes / CVs making, GDs & Aptitude Pro Tips. An intensive QnA after each topic was routinely conducted. The session ended with a vote of thanks by Niharika Pattabhi (Vice Chairperson CSI SFIT) and Nipun (Joint PR Head CSI SFIT).

All the participants were provided with useful links for reference about the content taught in the workshop. The links which would definitely help the students to apply the concepts learned in the workshop in interesting ways.

Find all the workshop content here: [The Career Toolkit](#)

Images of the Session:

Anant Maheshwari - Following
Empowering every person and every organization to...

When India went into a pandemic lockdown last year, Haimantika Mitra went online. Isolated for months at her home in the shadow of the Himalayas, she entered a self-learn skills program from Microsoft, taught herself how to code and much more. From no coding experience a year ago, today she's a support engineer intern at Microsoft.

I'm truly inspired by Haimantika and thousands of others like her, who're leveraging Microsoft's skilling initiatives for acquiring in-demand **#DigitalSkills** during the pandemic to pursue their dreams and gain better career opportunities.

From the Himalayas to hi-tech: Self-learning opens a path to a new career

INTERVIEW BUDDY

A few unconventional ways

- Write a relevant post/idea/proposal and tag a senior leader/founder or decision maker of a MNC/startup.
- Participate in skillathons, hackathons & talentathons.

The road not taken 🤔

Report on “LITERATURE REVIEW”

Event Date: 9th and 11th February 2021

Time: 3:00 pm to 5:00 pm(2hrs)

Venue: **Online (Google meet)**

No. of Registered Students: **118 (TEITA/B)**

Resource Person: Dr. Prachi Raut

A. Description:

As a part of Project Activity of the INFT Department, a series of sessions to facilitate students for project work is underway for the third-year students of INFT Department of 2020-2021 batch.

A session on “How to do literature review ” was conducted on 9th and 11th February 2021 for TEITA and TE ITB students respectively from 3:00 pm to 5:00 pm during their mini-project slots in online mode using google meet.

As a part of session students were also given with a activity by resource person as listed below:

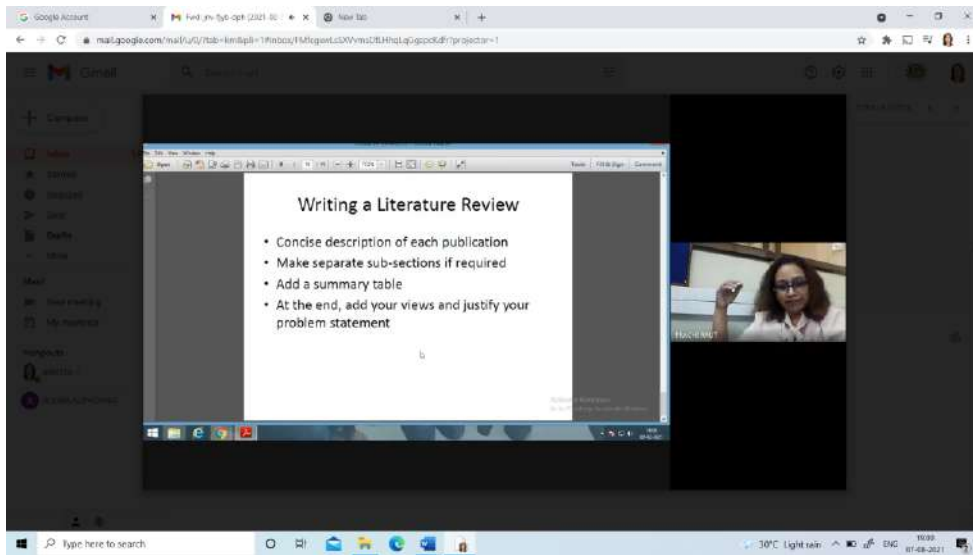

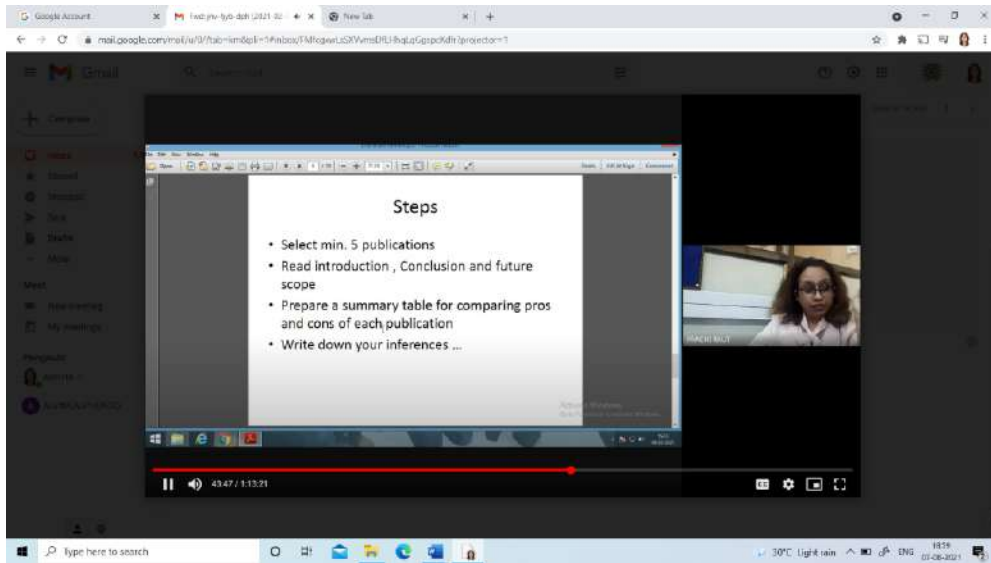

Select a research topic of your choice. Find 5 most recent and relevant publications on the chosen topic. The publications should be as per the following list.

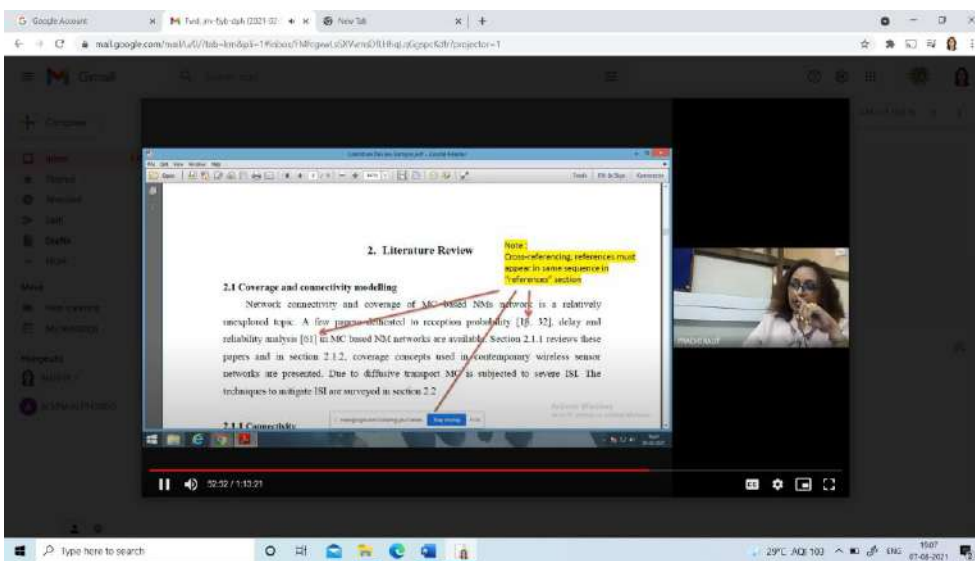

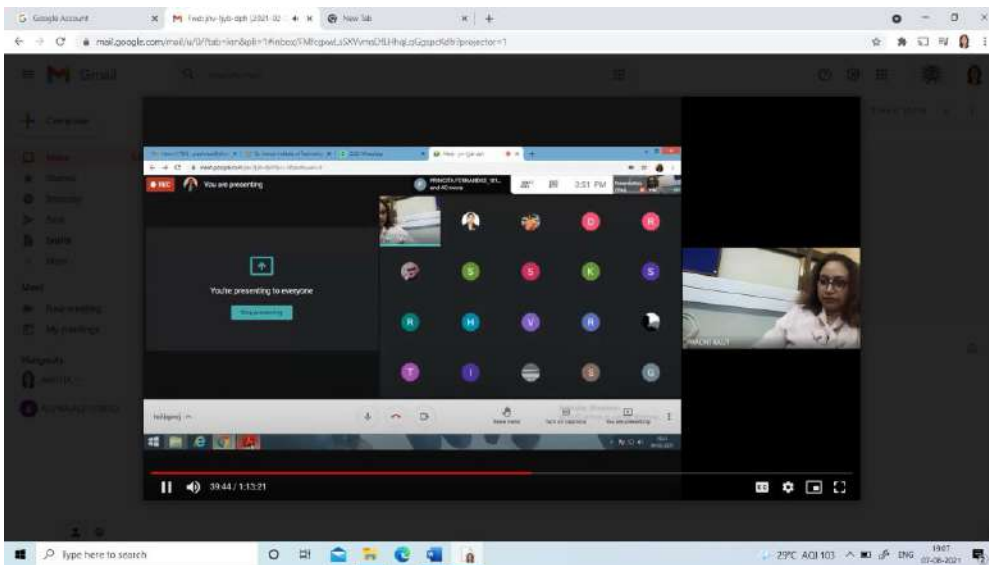

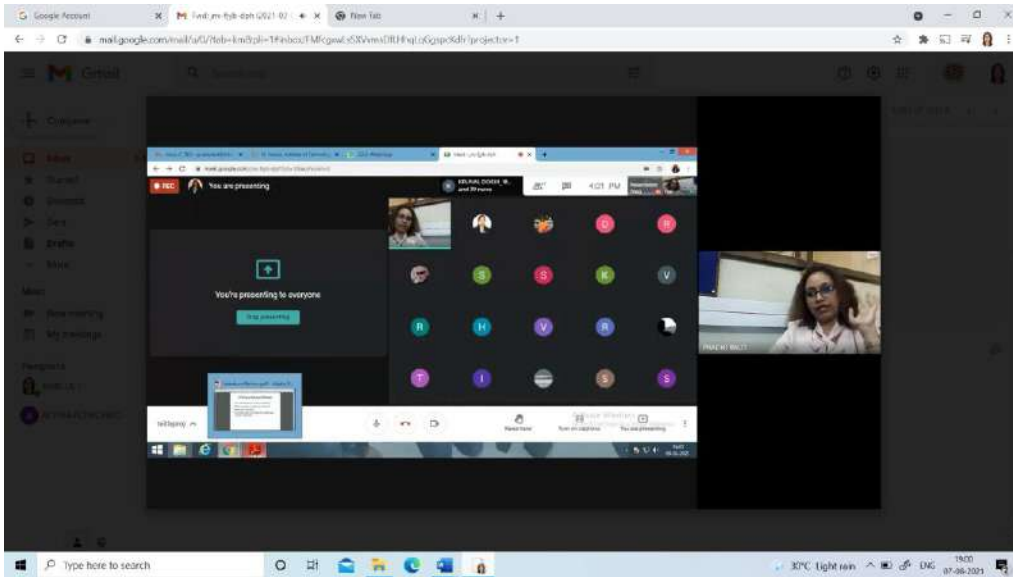

- Paper published in reputed conference
- Journal or transactions paper
- White paper
- Book/Master’s or PhD thesis
- Online article

Prepare a document summarizing “future scope” mentioned in these publications.

The session concluded by vote of thanks to resource person by project coordinator.

Report on “Ethics in Technical Paper Writing”

Event Date: **24th April 2021**

Time: **10:00 am to 12:00 pm (2 Hrs)**

Venue: **Online (Google meet)**

No. of Registered Students: **50 (BEITA/B)**

Resource Person: **Dr. Prachi Raut**

A. Description:

As a part of Project Activity of the INFT Department, a series of sessions to facilitate students for project work are conducted for the Final-year students of INFT Department of 2020-2021 batch.

A session on “Technical Paper Writing” was conducted on 24th April 2021 for BEITA and BE ITB students respectively from 10:00 am to 12:00 am in online mode using google meet.

Following topics were covered by resource person:

- Motivation
- Format of Research paper
- Where to publish research paper?
- Indexing of Journals

The session was concluded by vote of thanks by project coordinator.

B. Images of the Session:

This screenshot shows a Google Meet session in progress. The main window displays a presentation slide with the following content:

- Title:** Publishing Your First Technical Paper: All you want to know !!
- Author:** Dr. Prachi Raut, Professor, Department of Information Technology
- Image:** An illustration of a person sitting at a desk with a computer, wearing a red cap and a blue jacket.

The slide also lists several authors and their IDs, including: Anjali Barmet_181010, Sushmi Banerjee, Prachi Banerjee_181012, Laxmi Banerjee_171017, and Anshu Kumar_181019. A 'Stop sharing' button is visible at the bottom of the slide.

The meeting interface includes a 'REC' indicator, a 'PRACHI RAUT is presenting' notification, a video thumbnail of the presenter, and a list of participants with their initials (S, L, D, C, V, S, M, C, B). The chat window on the right shows messages from participants like MALCOLM D'SOUZA and SHIVANI PANDIT.

This screenshot shows a Google Meet session in progress. The main window displays a presentation slide with the following content:

- Title:** What to choose ?
- Image:** A small graphic of a person sitting at a desk.
- Text:** Conference + Journal. Papers accepted and presented in a conference are invited to submit an extended version in an associated journal.

The slide also lists several authors and their IDs, including: Mallesh Kulkarni_191122, Nisha Acharya_181012, Sarika Acharya_181013, Mani Agarwal_181014, Mani Agarwal_181015, Ailish Aquino_181028, Prashant Arora_181027, Nishu Arora_181029, Rajeev Arora_181030, David Joseph Sureshwar Edward Arndt, Divyanshu Arora_181031, Sapana Bhatnagar_181032, Anshu Bhatnagar_181033, Anjali Barmet_181010, Sushmi Banerjee, Prachi Banerjee_181012, Laxmi Banerjee_171017, and Anshu Kumar_181019. A 'Stop sharing' button is visible at the bottom of the slide.

The meeting interface includes a 'REC' indicator, a 'PRACHI RAUT is presenting' notification, a video thumbnail of the presenter, and a list of participants with their initials (S, L, D, B, L, S, M, C, P). The chat window on the right shows messages from participants like SHIVANI PANDIT and BHAGYA DOSHI.

ICOSSEC 2021
7-9, October 2021

IEEE
Kongradu College of Engineering and Technology

ABOUT THE CONFERENCE

Smart Electronics and Communication Technology is essential and instrumental to reality in the today's context of technology driven world. In particular, these technologies leverage unique & innovative and creative opportunities to improve our quality of life. The increasing coverage of Electrical, electronics and communication technologies is driven by growth and to integrate, analyze, visualize and transform new novel engineering ideas. This International Conference on Smart Electronics and Communication (ICOSSEC 2021) organized on 07-09 October, 2021 by Kongradu College of Engineering and Technology, Itchy, is solely dedicated to create a concentration

Report on “PROJECT ORIENTATION”

Event Date: 28/12/2020

Time: 1:00 pm to 3:00 pm (2hrs)

Venue: **Online (Google meet)**

No. of Registered Students: **128 (TEITA/B)**

Resource Person: Dr. Joanne Gomes (HOD, IT)

Mrs. Amrita Mathur, Ms. Purnima Kubde (Project Coordinator)

A. Description:

As a part of Academic Activity of the INFT Department, a series of sessions on BE Project is underway for the third-year students of INFT Department of 2020-2021 batch. Project Orientation. was conducted on 28/12/2020 for TEITA and TEITB students in online mode using google meet.

The major objective of the session was to familiarize students with “Project process” and “How to write project proposal and finding problem statement”

The following topics were covered during the session:

1. Why good project?
2. Course outcomes of Project work.
3. Project selection process and guide allocation.
4. Procedure of project evaluation.
5. How to write project proposal?
6. Literature review

B. Images of the Session:

The screenshot shows a Google Meet window with a presentation slide titled "Why Project Work??" displayed in the center. The slide content includes:

- Boosts creativity and encourage self learning
- Improves innovative spirit
- Transformation of Theoretical knowledge into Application
- Improves Team leading and problem solving
- Ensures responsibility towards society
- Enriches knowledge on Renewing Technologies

The presentation is being shared by AMRITA MATHUR. The bottom of the screen shows a list of participants: JOANNE GO..., AMRITA MAT..., Siddharth SAN..., JILSON CORR..., CYRUS FERR..., ANVIKSHA DL..., IGNATIUS FR..., and SELINA GER... The right sidebar shows a list of 16 participants in the chat area.

The screenshot shows a Google Meet window with a presentation slide titled "How to start??" displayed in the center. The slide content includes:

- Form a group of size 4 (Step 1)
- Do survey of real life problems (Step 2)
- Select domain and Topic (Step 3)
- Do literature survey (Step 4)
- Frame one page project proposal (Step 5)

The presentation is being shared by AMRITA MATHUR. The bottom of the screen shows a list of participants: JOANNE GO..., AMRITA MAT..., Siddharth SAN..., JILSON CORR..., CYRUS FERR..., ANVIKSHA DL..., IGNATIUS FR..., and BRUNO COLA... The right sidebar shows a list of 16 participants in the chat area.

18th March 2021

Report on “Intra-Department Debate Competition”

Date : 4th and 5th March 2021 (2 DAYS)

Time : 4.00 pm onwards

Venue: Online (Google Meet)

No of Participants : 24

Groups :12 Teams of 2 (Total 24)

Rounds : 4 rounds per day

The Judges for the competition:

Day 1

Day 2

Session 1 - DrPrachiRaut

Dr .PrachiRaut

Session 2 - Mr. Praveen Kurien

Mr Praveen Kurien

MrsNehaAgnihotri

Results of the competition:

Winners :

Runnerup:

1.PiyushSurkar

1.Nikhil lobo

2.Shivam

2.Roxannkadam

The winners prizes (first prize Rs.500 and second prize Rs.300) and certificates

A. Details:

ITSA had organized an Intra-Department Debate Competition for all the students of the SFIT.

Day 1 began with president Joshua welcoming and introducing our respected judges and fellow participants. The rules for the debate and the assessment style were explained to the participants.

The rules and regulations of the competition were as follows:

- One speaker, from each team, gives an introductory clause regarding the topic being debated. (1 minute each)
- In the Rebuttal round the speaker from each group present further arguments in support of their stand, identifies areas of conflict, and answers questions that may have been raised by the opposition speaker. (5 minutes)
- Conclusion clause is presented by each team in the end (1 minute each)
- Your mic and video should always be on during the duration of the debate. In the case of noise in your background, only unmute when you have to speak.
- The debate will be for 10 mins, a hand will be raised by the moderator when the last 2 mins are left. The participants must conclude their given topic once the hand is raised from the moderator.
- The use of cell phones is not allowed during the debate, you can use them to prepare for it within the time given.
- Make sure you have proper internet connectivity. The participant's audio must be clear.
- Your mic and video should always be on during the duration of the debate. In the case of noise in your background, only unmute when you have to speak.

The topics for Day 1 were as follows;

1. Should human cloning be legalized?
2. All students should be provided with an after-school job or internship.
3. Traditional schooling is effective than homeschooling considering social values.
4. Does technology prevent more crime or does it enable more people to commit crimes?
5. Are Android devices better and cheaper than Apple?
6. Juveniles making tiktoks and other trending dance videos is detrimental to society.
7. Humans should invest in technology to explore and colonize other planets.
8. Bitcoin and other cryptocurrencies should be encouraged or banned.
9. Is GST good or bad?
10. Should online schools go for 4 days a week, instead of 5 days a week work schedule?
11. There is a need to restore internet neutrality.

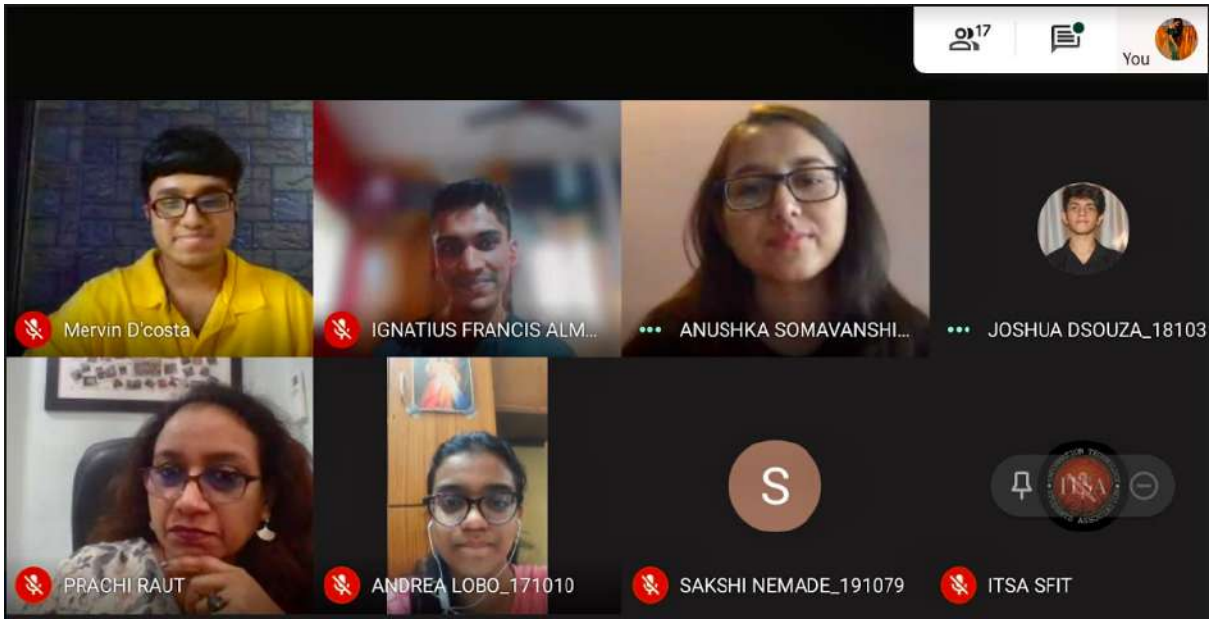

12. Technology will be man's downfall.
13. Vaccination should be mandatory for COVID19.
14. Should potential employers consider an applicant's social media during a job application?
15. Are electric cars actually better for the environment?

The topics for Day 2 were as follows:

1. The academic merit of one is influenced by their gender.
2. The Theory of Evolution is not true.
3. Should driverless vehicles be allowed on the same road as manual drivers?
4. Should more governments incentivize their citizens to use renewable energy resources in their homes like solar, wind, etc.?
5. Kids' mental disorders are caused only by wrong role models in the family
6. Can we have free education around the world?

**Report on “OPPORTUNITIES FOR HIGHER
EDUCATION IN GERMANY”**

Event Date: **18th June 2021**

Time: **04:00 pm to 05:00 pm (1 Hr.)**

Venue: **Online (Google meet)**

No. of Registered Students: **68 (T.E.& B.E. Mech. Engg)**

Resource Person: **Mr. Parbat Singh and Ms. Divolka Sawant**

A. Description:

As a part of Activities of the MESA, many seminars are arranged every semester to bridge the gap in the syllabus. This semester for the 2nd and 3rd year students of Mechanical Department, a Special Topic Seminar on **“OPPORTUNITIES FOR HIGHER EDUCATION IN GERMANY”** was conducted on 18/06/2021 in online mode using google meet.

The major objective of the session was to familiarize the attendees with the **“OPPORTUNITIES IN GERMANY”**

The following topics were covered during the session:

1. Speakers Experience
2. Why to choose Germany?
3. Demographics of international students in Germany
4. Mechanical Engineering companies in Germany
5. Self-evaluation
6. How to start the preparation?
7. Time-Management and resources.
8. Concerns of Parents
9. Points to take under consideration.
10. How to Fund your Education
11. Scope of Mechanical Branch in Germany
12. Covid Situation in Germany

The session was a big success, as all the participants had shown keen interest in knowing more about education in Germany and asked many questions related to the topic. The Resource Persons delivered an excellent session giving insights in the application process using their own experience. The response and feedback from the participants, about the session was magnificent and as per the feedbacks, they would want to attend more sessions like this in future.

Report on “TIME MANAGEMENT WORKSHOP”

Event Date: **27th March 2021**

Time: **05:00 pm to 07:00 pm (2 Hrs.)**

Venue: **Online (Google meet)**

No. of Registered Students: **116 (S.E. Mech. Engg.)**

Resource Person: **Mr. Vikram V. Shete**

A. Description:

As a part of Activities of the MESA, many seminars are arranged every semester to bridge the gap in the syllabus. This semester for the students of Mechanical Department, a Special Topic Seminar on **“Time Management Workshop”** was conducted on 27/03/2021 in online mode using google meet.

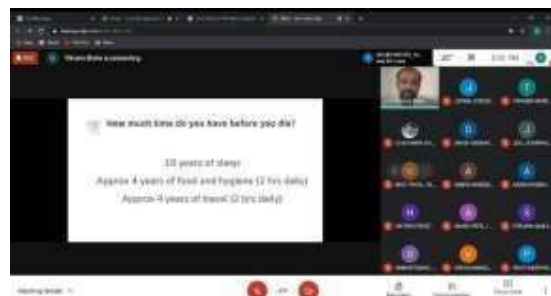

The major objective of the session was to familiarize the attendees with the concept of effective **“TIME MANAGEMENT.”**

The following topics were covered during the session:

1. What is Time?
2. How much time we have?
3. Calculate total life time to achieve our dreams
4. How to invest time?
5. Where to invest time?
6. Importance of schedules.
7. Time-Management and resources.
8. Few exercises to improve time management skills

The session was a big success, as all the participants had shown keen interest in knowing more about time management and asked many questions related to the topic. The Resource Persons delivered an excellent session giving insights in tricks to master time game. The response and feedback from the participants, about the session was excellent and as per the feedbacks, they would want to attend more sessions like this in future.

**Report on “GUIDANCE FOR CSWP/CSWA
CERTIFICATION EXAM”**

Event Date: **12th September 2020**

Time: **03:30 pm to 04:30 pm (1 Hr.)**

Venue: **Online (Google meet)**

No. of Registered Students: **120 (S.E & T.E Mech.Engg.)**

Resource Person: **Mr. Ravindra Garmode, Mr. Ameya Sardesai, and Mr. Glenn David Tharayil**

A. Description:

As a part of Activities of the MESA, many seminars are arranged every semester to bridge the gap in the syllabus. This semester for the students of Mechanical Department, a Special Topic Seminar on **“CSWP/CSWA CERTIFICATION EXAM”** was conducted on 12/09/2020 in online mode using google meet.

The major objective of the session was to familiarize the attendees with the **“CSWP/CSWA EXAMINATION”**

The following topics were covered during the session:

1. What is SolidWorks?
2. Where it is used?
3. Basics of SolidWorks
4. Importance of SolidWorks Certification
5. Certification for SolidWorks Professional
6. Certification for SolidWorks Associate
7. How to Prepare?
8. What are the steps to follow during Exam?
9. What to expect in your exam?
10. Some Tips and Tricks to save time in exam.
11. Resources to use to prepare for exam.

The session was a big success, as all the participants had shown keen interest in knowing about SolidWorks software and asked many questions related to the certification exam. The Resource Persons delivered an excellent session giving insights in the importance and usage of software. They also gave few tricks to crack the exam. The response and feedback from the participants, about the session was magnificent and as per the feedbacks, they would want to attend more sessions like this in future.

Report on “Git and GitHub Webinar”

- Event Date: **10th October 2020**
- Time: **05:30 pm- 07:30 pm (02 hours)**
- Venue: **Online (Google Meet)**
- No. of Registered Students: **81**
- Resource Person: **Mr. Siddhant Mishra, Mr. Alan D’silva**

A. Description:

Git and GitHub Webinar was one of the first webinars for the year 2020-2021 organized by the Code-X team in association with Static.Int.Educare for the students of our college and others in general. The webinar was conducted on 10th October 2020 from 05:30 pm to 07: 30 pm. The webinar was conducted on Google Meet, the invite for the same was sent on their registered email ids. The webinar was structured in such a manner that the speakers first provided insights to the topic then guided the attendees to have hands-on experience and provided them guidance for the way ahead. We also gave them assignment to be done during or after the session to test their understanding of the topic covered There were a total of 81 participants for this webinar

We began the session by issuing general instructions to the attendees for the meet and introducing the speaker to the audience by asking him a few questions about himself, his academic and professional life at Static.Int.Educare. The speaker Siddhant Mishra began by providing an overview of the learning outcomes of the session. and what one could expect to master after a webinar. He then carried on by giving a brief introduction of Static.Int.Educare. The speaker aimed to cover introduction to Git and GitHub, installation, guide to contribute to repositories, all about Hacktober fest, use of Git ahead and share some of his tips on the best practices in collaborating on open source projects. The audience was instructed to begin with installations of the pre requisites.

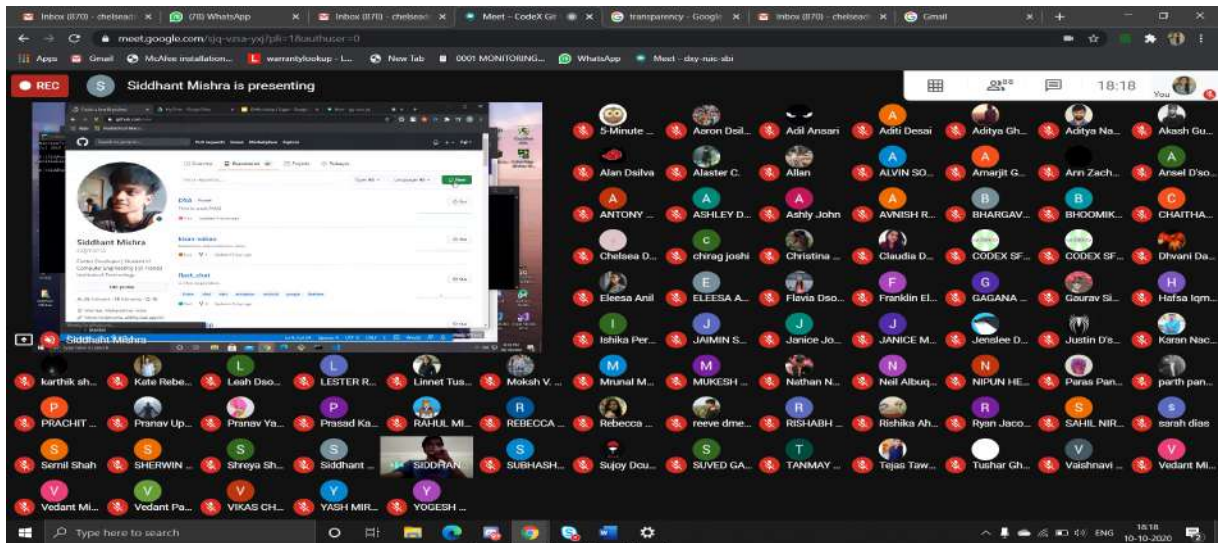

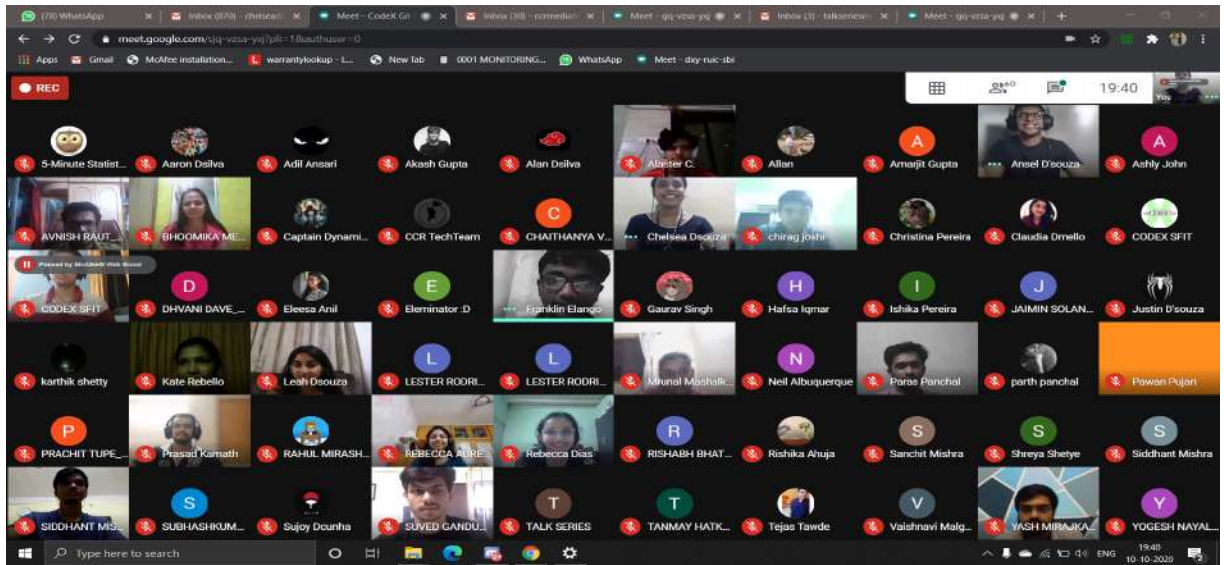

Siddhant explained what is open source, why, how and when was it started and how it is useful for us. He then carried on by introducing us to version control, various platforms used and what is Git and Github. The audience learnt what is forking and cloning a repository the difference between them. The audience was then enlightened on how to edit code content, adding content to remote repositories, creating a pull request ,submitting a pull request and a variety of other topics.

D. Seminar Feedback & Impact Analysis:

- **Student Feedback:**

FEEDBACK FORM:

- The feedback form was evaluated on the following parameters:

- Overall Ratings

- **Topic :**

- Relevance of content
- Advantage to skill set

- **Seminar Logistics:**

- Speaker content assignments engagement

- **Post Seminar Relevance :**

- post seminar interest

- The summary of the Mean ratings(out of 5) are below :

● Topic :	4.16
● Relevance of content	4.32
● Advantage to skill set	4.37
● Seminar Logistics:	
● Speaker	3.79
● Content	4.1
● Assignments Done	3.7
● Engagement	3.84
● Post Seminar Relevance :	
● post seminar interest	4.31

Question 1:

- **Please Rate the seminar Over all**

Please rate the seminar over all

19 responses

Question 2:

How relevant do you think the content was for you?

19 responses

Question 3:

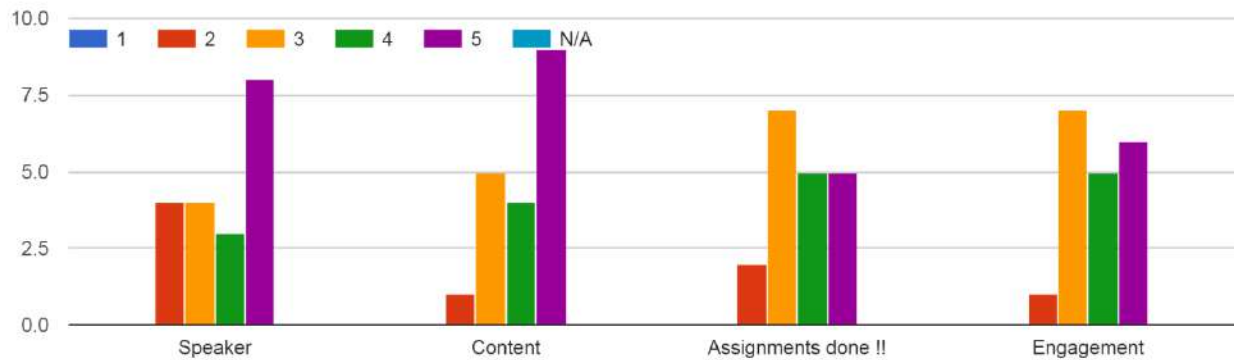

Did this seminar prove to be an added advantage to your skill set?

19 responses

Question 4:

How satisfied were you with the logistics?

Question 5:

Did this session increase your interest in learning more about the topics covered?

19 responses

Q. What would you like us to do next? Please tell us the topics you would love to learn!!!

Responses Received:

- Web development and java frameworks
- Animation
- Competitive Programming
- Database management
- Data Science
- Web Development
- Web development
- Web development , PHP SQL, JavaFX or other java frameworks
- Web projects development
- Data science
- Cryptography

Q. Feedback Received:

The attendees found the session relevant and helpful and were in appreciation of the content ,speaker and the committee. They have highlighted the fact that the seminar was organized nicely.

Some of the issues Faced:

The attendees found that the speaker's audio was having issue at times. Some felt that the pace had a little bit of variations and scaled up fast in between. Some felt that network issues were a bit of a turndown . But have appreciated that the new speaker covered it well. Keeping the technical issues aside, attendees said that it was a very good workshop

Suggestions:

We could send the download links for the pre-requisites before the session to make things easier .

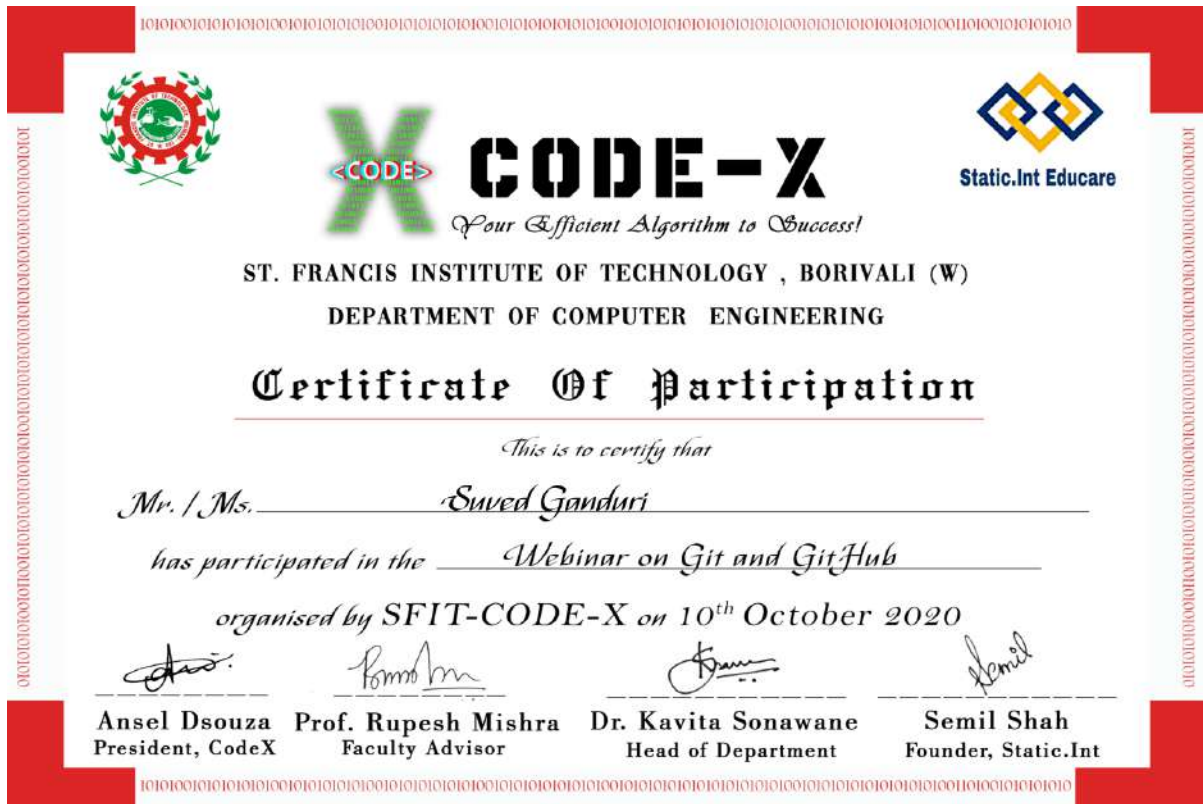

We could have separate tab or window in presentation to display command or important instructions

Q. Skills you learnt during lockdown and you would like us to help you out with!!! Let us know!

The topics people are interested to learn about and have some knowledge of is:

1. JS(ongoing),
2. AI(ongoing),
3. Python,
4. Java,
5. Html 5,
6. git
7. Web development and java frameworks
8. Animation
9. Competitive Programming

E. Certificate:

Mr. Ansel Dsouza
(CodeX President)

Mr. Rupesh Mishra
(Coordinator)

Dr Kavita S.
(HOD-COMP)

(Dean Academics)

Department of Computer Engineering

Report on “Learning Sprint Webinar”

- Event Date: **Week 1: 8th February 2021 - 14th February 2021**
Week 2: 15th February 2021 - 21st February 2021
- Time: **02 hours (10:00 am -12:00 am)**
- Venue: **Online (Google meet)**
- No. of Registered Students: **50**
- Resource Person: **Mr. Ansel Dsouza, Mr. Prasad Kamath**

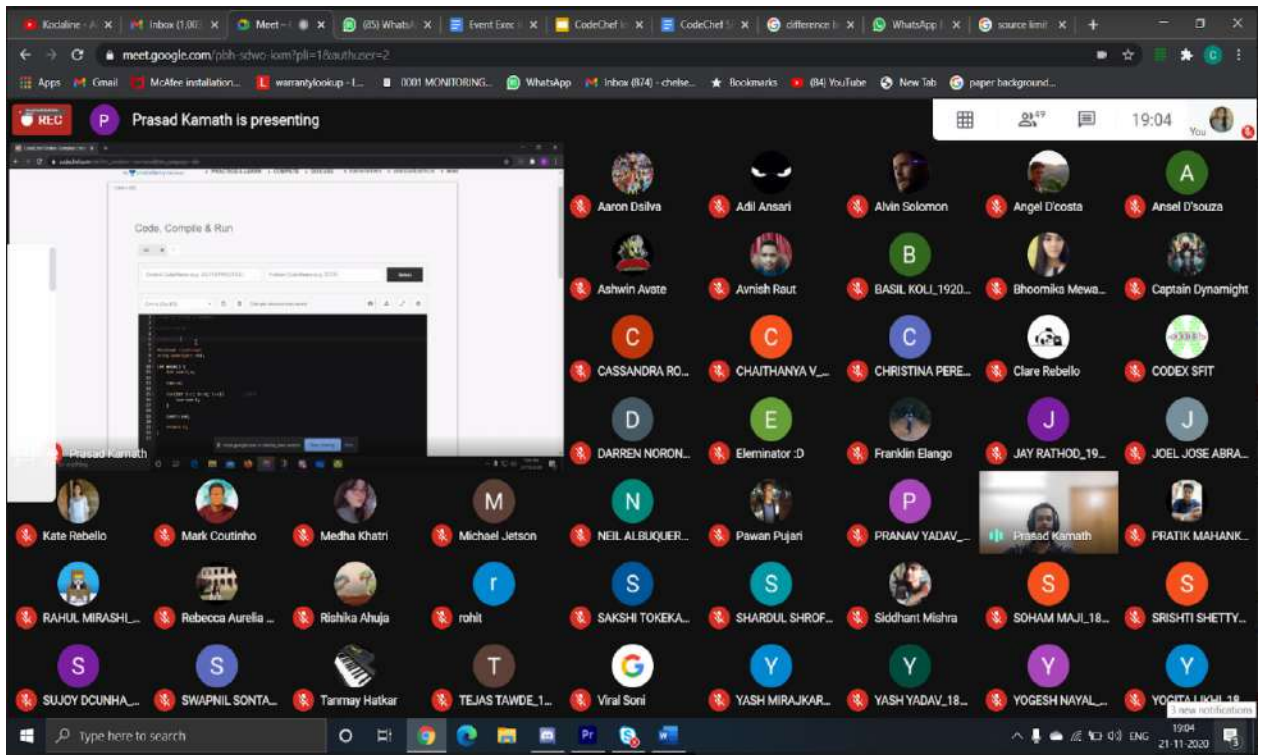

A. Description:

- Learning Sprint was a 3-day webinar series for the year 2020-2021 organized by the CODECHEF SFIT CHAPTER team in association with CodeX for the students of our college. The webinar was conducted from 20th November 2020 to 22nd November time being 05:30 pm to 07:30 pm each day. The webinar was conducted on Google Meet. The webinar was structured in such a manner that the speakers first provided insights to the topic then guided the attendees to have hands-on experience and provided them guidance for the way ahead. The webinar was attended by 40 to 54 people.
- **Initial Preparation:** The initial process involved releasing a PR message for the event and forming a WhatsApp group, initializing a WhatsApp group to add people interested in Competitive Coding. There was also sharing of resources done to get participants interested in the series.
- **Day 1:** The first day consisted of resource sharing. We had shared a beginner's guide on the group created to help people get started with Competitive Programming. The resources included links to various topics in programming. It covered concepts like User Input & Output, Loops and Conditional Statements, Data Types etc. We also included the advantages of different languages, useful IDEs, ways to improve your Competitive Programming Code and also things to keep in mind when attempting Competitive Programming. We made sure to involve important topics like Dimensional Arrays, Strings, Time Complexity and important Algorithms.
- **Day 2:** On the second day we held the Beginner Level. We introduced people to Competitive Programming by explaining its uses, importance and scope. We further went on to explain the structure of a problem which included the Problem Statement, Input Format, Output Format, Constraints etc. We then went on to have a practical session where we solved the question live with the attendees. We solved two problems from CodeChef. After solving these problems and discussing the approach and different solutions possible we ended the session. After the session we sent a sheet containing Practice problems. We asked the attendees to solve the problems using the concepts they had learnt during the session. We also shared the editorial links a day later to help the students to solve any queries that they had.

- **Day 3: Intermediate Level Session**

On the third day we dove deep into Intermediate Topics. We covered topics like Linear Search and Binary Search. We also taught the attendees about Recursion. After teaching them the concepts we went on to a live coding session. We solved two problems related to the topics. One was related to Binary Search and the other was related to recursion. On the completion of these problems we also taught a bonus topic which was Sieve of Eratosthenes. We explained the topic and its advantages in finding prime numbers for a given range. We also live coded this algorithm during the session and explained its working.

B. Images of the Session:

Prasad Kamath is presenting

18:54

Output

For each test case output exactly one line containing the string Yes if it's possible to make all elephants happy and the string No otherwise. Output is case sensitive. So do not print YES or yes.

Constraints

$1 \leq T \leq 1000$

$1 \leq N \leq 100$

$1 \leq C \leq 10^9$

$1 \leq A_k \leq 10000$, for $K = 1, 2, \dots, N$

Example

Input:

```
2
2
1 1
3 2
4 2 2
```

Output:

```
Yes
No
```

Explanation

Contest Code: CDD5001 Problem Code: LEGANDY

C++14 (G++ 6.3)

```
1 #include <iostream>
2 using namespace std;
3 int main() {
4     int testCases;
5     cin >> testCases;
6     while(testCases--) {
7         int N;
8         cin >> N;
9         int C;
10        cin >> C;
11        int arr[N];
12        for(int i=0; i<N; i++) {
13            int x;
14            cin >> x;
15            arr[i]=x;
16        }
17        int ans=0;
18        for(int i=0; i<N; i++) {
19            int x=arr[i];
20            int y=C/x;
21            if(x>C) continue;
22            ans=max(ans, x+y);
23        }
24        cout << ans << endl;
25    }
26    return 0;
27 }
```

Practice

Tower of Hanoi (Difficulty: Easy)

Given three towers A, B and C. Initially tower A has N disks. You are allowed to move a disk from one tower to another tower if and only if the disk on the source tower is smaller than the disk on the destination tower. You are allowed to move a disk from one tower to another tower if and only if the destination tower is empty or the disk on the destination tower is smaller than the disk on the source tower. You are allowed to move a disk from one tower to another tower if and only if the destination tower is empty or the disk on the destination tower is smaller than the disk on the source tower. You are allowed to move a disk from one tower to another tower if and only if the destination tower is empty or the disk on the destination tower is smaller than the disk on the source tower.

D. Impact Analysis: (Optional)

- We shared various resources, this helped participants get started with Competitive programming
- We shared a beginner's guide to educate the participants on various topics in programming like User Input & Output, Loops and Conditional Statements, Data Types etc. This helped the participants to increase their proficiency.
- We educated the participants on the advantages of different languages, useful IDEs, ways to improve their Competitive Programming Code and also things to keep in mind when attempting Competitive Programming by providing content on the same. This inculcated a sense of inquisitiveness in the participants.
- We covered important topics like Dimensional Arrays, Strings. Time Complexity and important Algorithms.
- We introduced people to Competitive Programming by explaining its uses, importance and scope.
- We explained the structure of a problem which included the Problem Statement, Input Format, Output Format, Constraints etc.
- All of this was beneficial for the participants to understand the basics of competitive programming.
- We solved various problems along with the participants to increase their confidence and understanding and discussed the approach and different solutions possible.
- We covered topics like Linear Search Binary Search, Recursion and had a live coding session on the same
- We taught the topic Sieve of Eratosthenes, its advantages in finding prime numbers for a given range and also coded the algorithm during the session and explained it's working.
- Along with all this, we tested their understanding by means of providing them practice problems and thus the participants were provided a wholesome experience in competitive programming

Mr. Ansel Dsouza
(CodeX President)

Mr. Rupesh Mishra
(Coordinator)

Dr Kavita S.

Report on “CodeXpress 4.0”

- Event Date: **6th March 2021**
- Time: **10:00 am to 01:30 pm (03 hrs 30 mins)**
- Venue: **Online (Coding Ninjas Website)**
- No. of Registered Students: **261**
- Sponsors: **Coding Ninjas (Title Sponsor) , Geeks for Geeks**

A. Description:

CODEXPRESS 4.0 - THE CLASH OF CODERS is the annual flagship competition held by CODEX-SFIT and CODECHEF SFIT Chapter this year. The event's sponsors for this year were Coding Ninjas (Title Sponsor) and Geeks for Geeks. This competition was organized for participants from all over the country. It was conducted on 6th March 2021 from 10:00 am to 01: 30 pm. The competition was conducted on Coding Ninjas Platform. We briefed the participants with the rules and regulations and the competition began. The CodeX team was providing constant support to the participants all throughout through means of WhatsApp and Zoom meeting. There were a total of 261 participants for this competition from all over the country.

We began the session by welcoming the participants and issuing general instructions to them for the meet. We then welcomed the Head of Department, Faculty Advisor and Coding Ninjas campus growth manager and introduced them to the audience. The Head Of Department, Dr. Kavita Sonawane Madam, was invited to speak a few words and greet the audience. She provided us with wonderful insights on the need of competitive programming and problem solving and how we as future engineers would play an influential role in the upcoming technology revolution. On behalf of our college she extended a heartfelt welcome to the representative from Coding Ninjas Mr. Krishna Vardhan and thanked the sponsors for their support. Madam also extended her heartfelt wishes to the CodeX team and wished all the participants best of luck. Our Faculty Advisor Mr. Rupesh Mishra briefed the audience on what CodeXpress is all about. He also spoke on what the participants could expect in this edition of CodeXpress. He stressed upon the fact that appropriate care has been taken to ensure that problems statements are non-ambiguous and unique to avoid plagiarism. Without indulging in much details, he hinted at the fact that this edition is going to be challenging and fun and encouraged the participants to give their best. We then invited the representative from coding Ninjas Mr. Krishna Vardhan (Campus Growth Manager) to address the audience. He began by congratulating the CodeX team for the exemplary efforts shown in undertaking this event. He stressed on the importance of competitive programming and how it enhances one's critical and analytical thinking. He also enlightened the audience

on what Coding Ninjas is, how the audience could benefit from it and how they could make the best use of Coding Ninjas Platform. He also reiterated the fact stressed upon by the other speakers that appropriate care has been taken to ensure no ambiguity is there in the problem statements and ensured the participants of constant technical support from the CodeX team.

We now briefed the participants about the rules and regulations for the event. The copy of the same had already been given to the participants well in advance. The students were allowed to use C, C++, Java or Python 3.x. The contest was proctored to avoid malpractices and plagiarism of code would have led to disqualification. It was informed to the participants that the CodeX committee would have a final decision on the outcome of the competition. The participants were requested to register on Coding Ninjas if not already done.

We began with the completion at 10 :30 am sharp. It was conducted on the Coding Ninjas Platform. There was a series of 2 tests each consisting of 6 problems each of varying difficulty level. Test 1 was for 400 marks and Test 2 was for 520 marks. All of the questions had to be solved by the participants during this duration. Each of the submitted solutions was checked for 6 test cases and the marks were calculated considering various factors. Users had an option to check their program's working for custom input too. Overall The Coding Ninjas Platform provided the users a wholesome experience in coding for the competition.

There was a WhatsApp group formed for all the communication related to the event and the CodeX team was actively solving all the doubts of the participants who were posting it in the group and the chat box in the meet. The participants were thus assured of constant support by all the CodeX team members all throughout the competition. Any issues faced were overcome effectively and promptly resolved by the team.

The Leaderboard and the solutions to all the problem statements were released to the participants 4 days later. The same had been requested by the participants and were promptly arranged. The Results were published on our Instagram handle on 14th March

Following are the winners:

1. **First place:** Mr. Abhinav Sharma from IIT Kanpur scoring 672/900
2. **Second place:** Mr. Ujjwal Prahladka from D.J. Sanghvi college scoring 496/900
3. **Third place:** Mr. Parag Patil from SGGSI&T Nanded scoring 480/900
4. The **topmost FE of SFIT** in the competition was Mr. Kunal Shekte

The top 3 participants were felicitated with cash prizes worth Rs 2000, Rs 1800, Rs 1500 respectively. The First place participant was also awarded a Google Home Mini and all the top 3 participants were awarded with Amazon SDE test series and T-shirts from Coding Ninjas. We felicitated the top FE student of our college with a cash prize of Rs 500. All the participants were awarded with vouchers worth up to Rs 1300.

Our team was in constant touch with all the participants by means of WhatsApp and we ensured that every query of the participants right from the competition to receiving the certificates were resolved. The participants appreciated the CodeX team's efforts and the standards of the competition. All the participants agreed to having received appropriate exposure to quality problem statements which were challenging and fun to solve

To conclude, CodeXpress 4.0 was an immensely successful event organized by CODE-X and CODECHEF SFIT Chapter. It was an excellent opportunity for all the participants to benchmark their performance at a national level and to develop their analytical and critical problem-solving skills

E. Results Analysis:

There were 2 tests conducted. Test 1 was for 400 marks and Test 2 was for 520 marks

Following are the few points to be noted:

- o If scores are equal then the one who would solve faster would be ranked higher
- o We had a total of 258 submissions for Test 01
- o We had a total of 110 submissions for Test 02

As per the leader board :

- o The ranks for Test 01 ranged from 01 to 173
- o The ranks for Test 02 ranged from 01 to 33
- o We observed a tie at many positions for multiple ranks

Following is a break of number of submissions as per score range applicable

Test	Score Range	No of Submissions
1	0 - 100	214
1	100-200	19
1	200-300	17
1	300-400	8
2	0 - 100	104
2	100-200	5
2	> 200	1

Following are the winners:

- **First place:** Mr. Abhinav Sharma from IIT Kanpur scoring 672/900
- **Second place:** Mr. Ujjwal Prahladka from D.J. Sanghvi college scoring 496/900
- **Third place:** Mr. Parag Patil from SGGSIE&T Nanded scoring 480/900
- The **topmost FE of SFIT** in the competition was Mr. Kunal Shekte

Mr. Ansel Dsouza
(CodeX President)

Mr. Rupesh Mishra
(Coordinator)

Dr Kavita S.
(HOD-COMP)

Dr. Kevin N.
(Dean Academics)

Department of Computer Engineering

Report on “CODE CATALYST : Stairway to Web Development”

- Event Date: **17th April, 18th April, 24th April**
- Time: **Day 01: 11:00 am -01:00 pm**
Day 02: 11:00 am -01:00 pm
Day 03: 11:00 am - 01:000 om
- Venue: **Online (Google Meet)**
- No of Registered Students: **Day 01: 119**
Day 02: 68
Day 03: 11:00 am - 01:000 om
- Resource Person: **Mr. Harsh Rai**

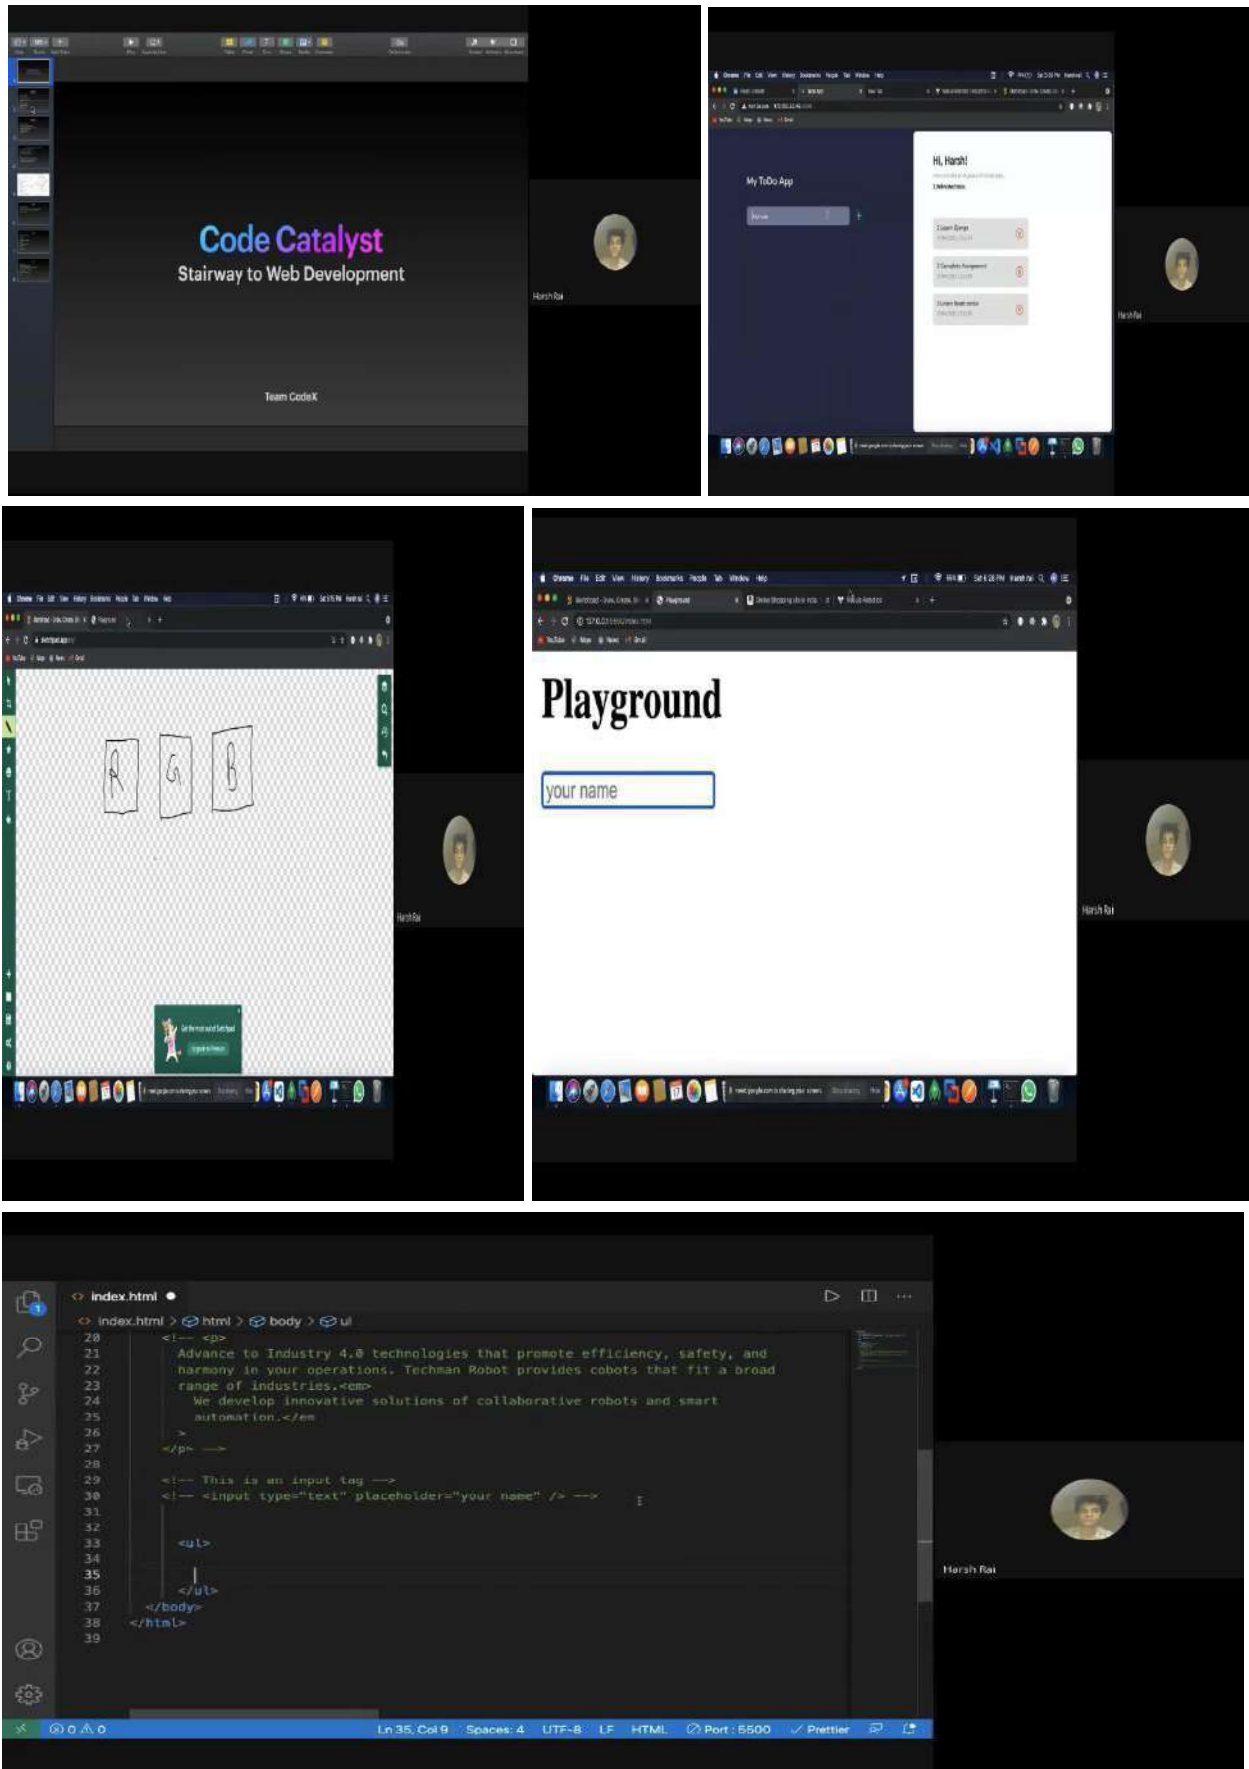

A. Description:

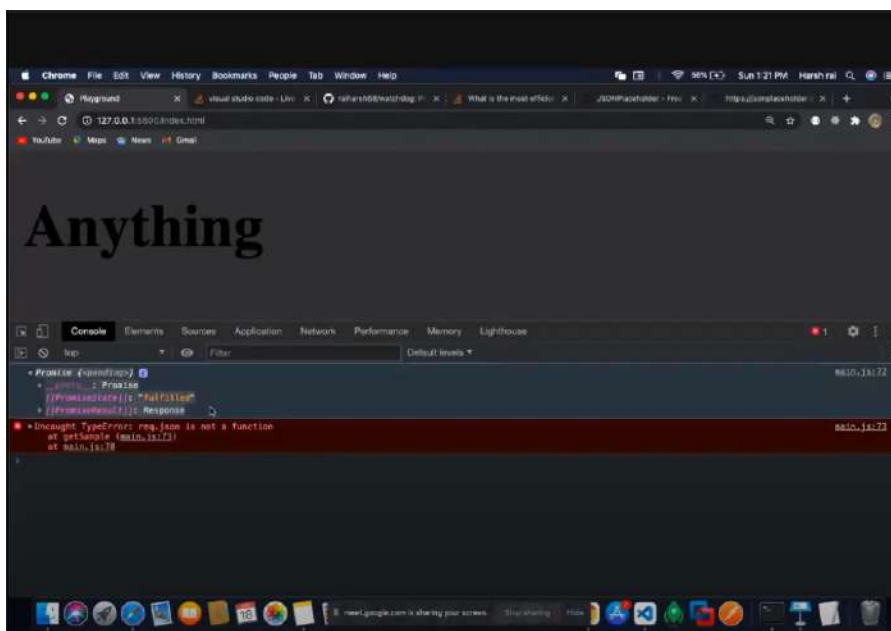

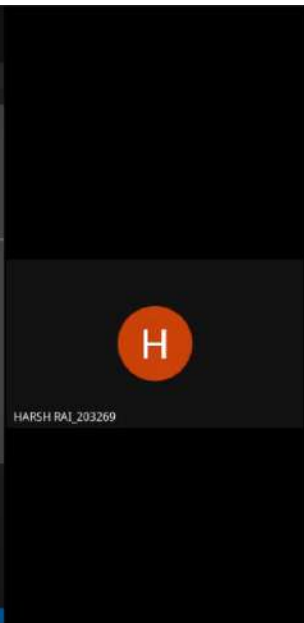

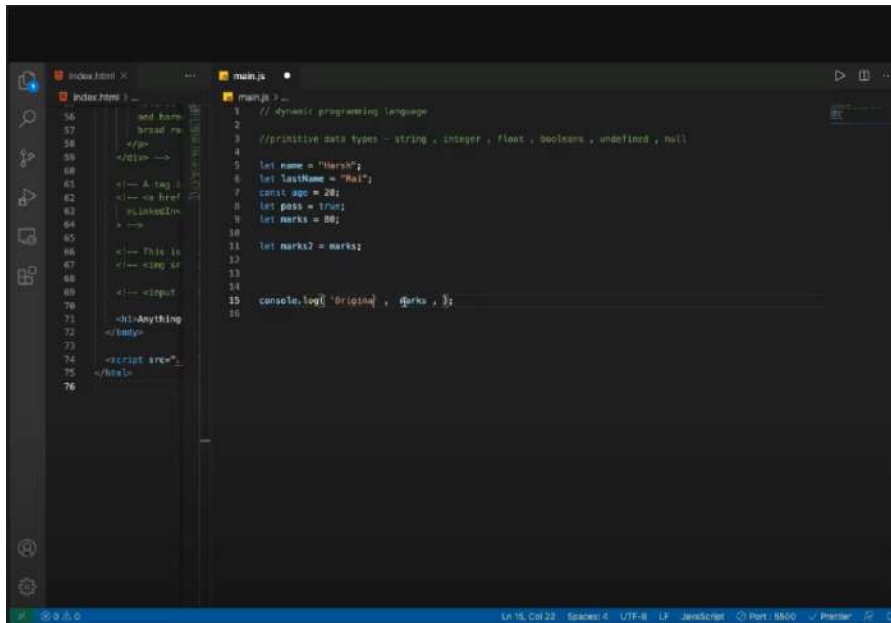

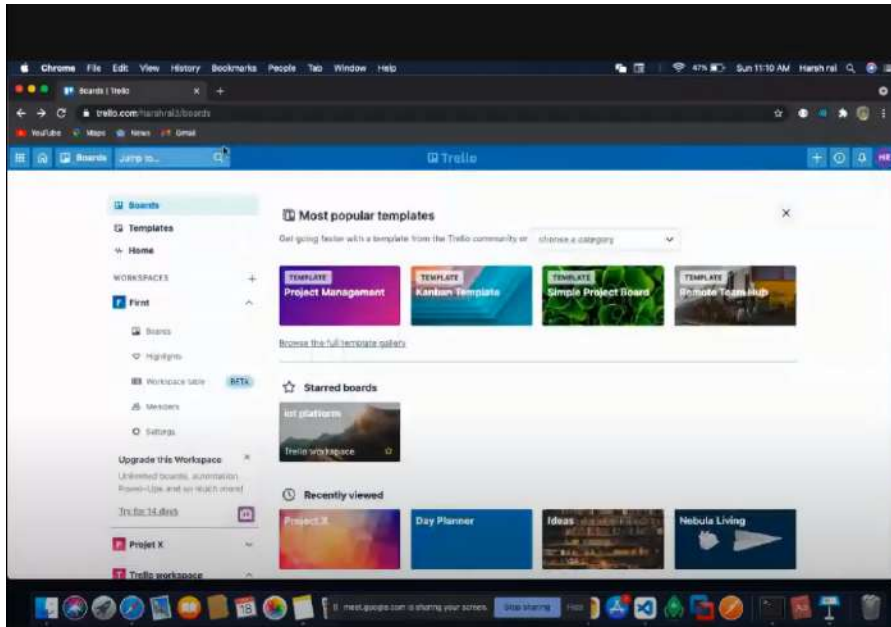

- Stairway to Web Development was a series of sessions of Code Catalyst, a first of its kind initiative for the year 2020-2021 organized by the Code-X team for the students of our college and others in general. It aimed at helping beginners gain the basic knowledge required for Web Development. The workshop was conducted on Google Meet , the invite for the same was sent on their registered email ids and the WhatsApp group created for this event . The workshop was organized in such a manner that the speakers first provided insights to the topic then guided the participants to have hands-on experience by means of building a project. The CODE-X team was actively and promptly helping all the participants throughout the course.
- **Day 01:**
- We began the session with our CODEX team introducing the theme and the objective for the day. Participants were provided an insight as to what they can expect from today’s event and as to how it would add to their skill set. We issued basic instructions to the audience and ensured them full support from the CODE-X team in case of any doubts.
- Our speaker for the series Mr. Harsh Rai began the session by introducing the base of the session: Web development to the audience. He provided a brief yet accurate insight on what web development is and how relevant it is in the industry. He moved forward to introduce the participants to the current technology landscape of web development. Periodically all the doubts and the queries were addressed by the speaker and the CODE-X team.
- Harsh then continued by introducing the fundamental concepts of HTML to the audience. This was done by means of insight, full theory and lucid yet accurate examples. Every detail was taken care to be brought forward in front of the audience. Audience’s skills were honed and polished by means of an implementation session related to the topic.
- CSS was the next topic brought in front of the audience. The speaker began by introducing the topic. He then continued to address all the fundamental queries one could have related to the same. The resource person taught about various elements of CSS and gave knowledge about the use of each element in detail. All of the knowledge gained was practically being

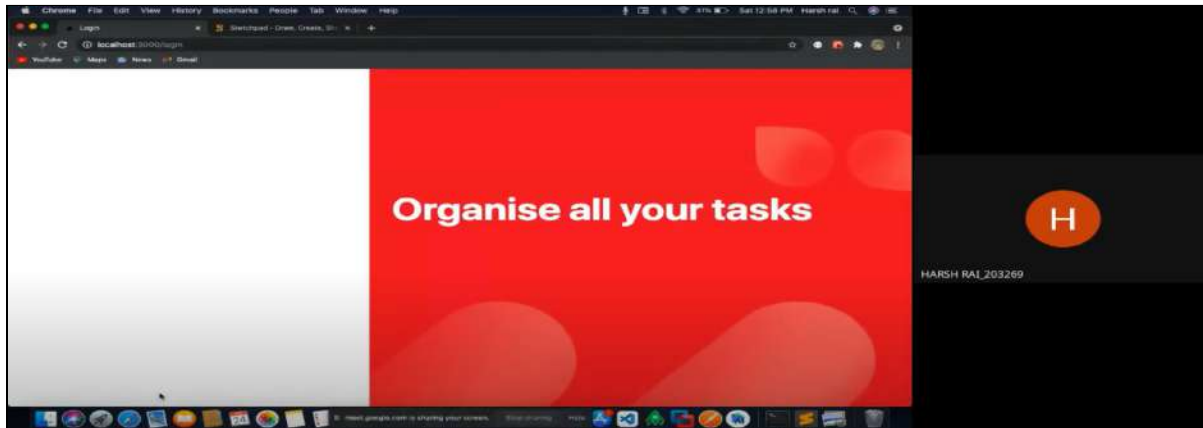

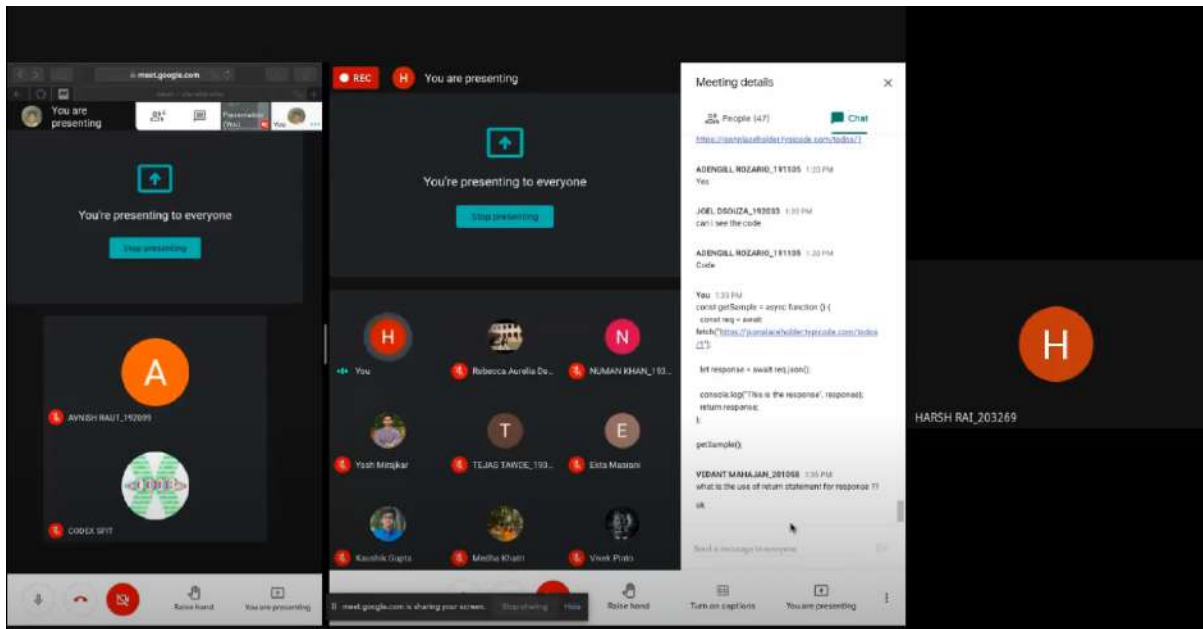

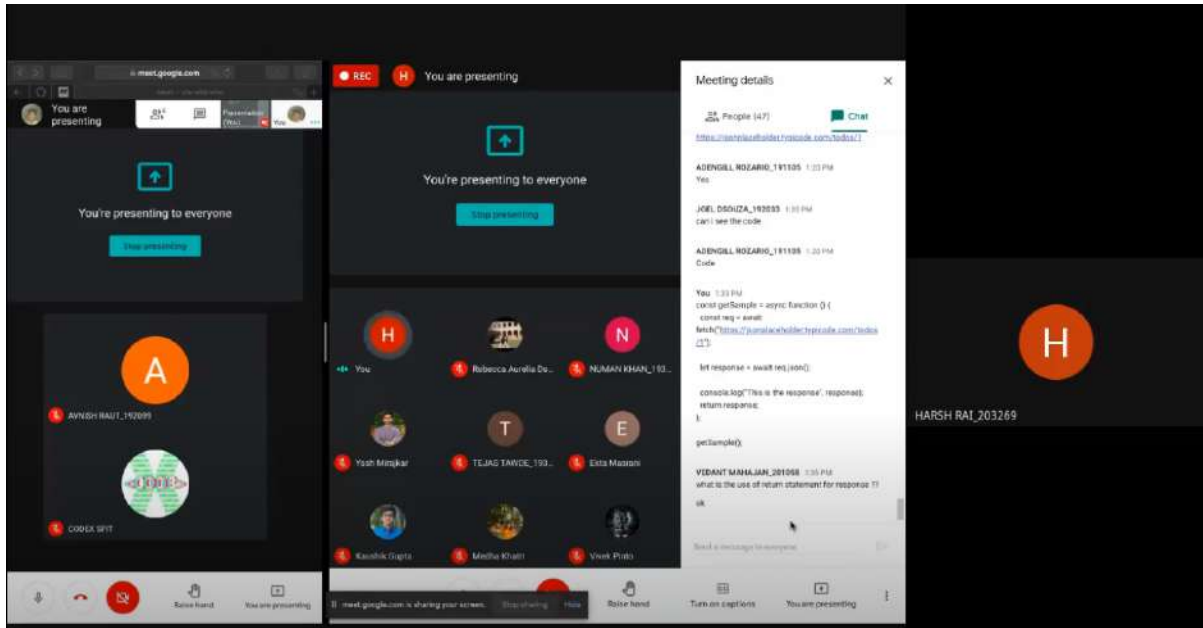

implemented. During the break the CODEX team conducted a fun brain teaser session to refresh and entertain the participants with simple yet tricky questions

- It was an excellent opportunity for the participants as they gained the experience of important skills of HTML and CSS also they increased their confidence in applying them
- **Day 02:**
- Our speaker for the series Mr. Harsh Rai began the session by introducing the base of the session: JavaScript to the audience. He provided a brief yet accurate insight on what JavaScript is and how it is useful in the industry. He moved forward to introduce the participants to JavaScript and what it is all about. Periodically all the doubts and the queries were addressed by the speaker and the CODE-X team.
- Harsh then continued by introducing the fundamental concepts of JavaScript to the audience. This was done by means of insightful theory and lucid yet accurate examples. Next the concept of log statement was introduced, every detail was taken care to be brought forward in front of the audience. Audience's skills were honed and polished by means of an implementation session related to the topic.
- Dynamic variables (data types) was the next concept brought in front of the audience. The speaker began by introducing the topic. He then continued to address all the fundamental queries one could have related to the same. The resource person taught about various data types used in JavaScript and gave knowledge about the properties of the data type in detail. All of the knowledge gained was practically being implemented. During the break the CODEX team conducted a fun brain teaser session to refresh and entertain the participants with simple yet tricky questions
- Strings, arrays , objects, Date and time, non-blocking were the next topics introduced. This was done by means of insightful theory and lucid yet accurate examples. All of the knowledge gained was practically being implemented. We then moved on to Higher order functions and maps. He then continued to address all the basic questions one could have related to the topic . Event listeners and dom manipulation Reading inputs, Form were the last topics covered. Periodically all the doubts and the queries were addressed by the speaker and the CODE-X team.
- **Day 03:**
- Mr. Harsh Rai began the session by introducing the base of the session: React to the audience. He provided a brief yet accurate insight on what React is and how it is useful in the industry. He moved forward to introduce the participants to React and what it is all about. Periodically all the doubts and the queries were addressed by the speaker and the CODE-X team.
- Harsh then continued by introducing the fundamental concepts of React to the audience. This was done by means of insightful theory and lucid yet accurate examples. He then moved forward to introduce the project for the session “login page” using React and we began designing the same. HTTP API concept was introduced to the audience as we progressed ahead. The speaker began by introducing the topic. He then continued to address all the fundamental queries one could have related to the same.
- Session authentication was the next topic introduced as we were continuing with our project. All of the knowledge gained was practically being implemented. Knowledge about using the various technologies used was imparted to the audience by the speaker. During the break, the CODEX team conducted a fun brain teaser session to refresh and entertain the participants with simple yet tricky questions. As we concluded completing the project Harsh touched upon the basic concepts learnt which are required to design and style a webpage.
- It was an excellent opportunity for the participants as they gained the experience of important skills of React and also they increased their confidence in applying them

Open October: The Fall of Code

Event Date: 18th-31st October 2020

Time: All Day

Venue: SFIT

Number of Registered Students: 73

Resource Person: Ms. Anshika Gupta

Chapter: IEEE

A. Description:

IEEE SFIT Student Branch(ISSB) organised an online Open Source Contribution event on GitHub Platform. The event was held from 18th to 31st October 2020 in association with the worldwide HacktoberFest organised by Digital Ocean. The competition was handled by the Program Team members. On 24th October 2020 a meetup was organized to celebrate the Open Source Contribution, called “Hacktoberfest Meet-up” wherein the participants learnt how to make Open Source Contributions. The speaker for the HacktoberFest Meetup was Anshika Gupta, Program Vice Head. The competition had 73 registrations from various institutes across India and 26 students joined the HacktoberFest Meetup. During the course of the competition, the participants were asked to contribute to the designated repository on Github (Link to the repository : github.com/ieeesfit1/openoctober) The repository consisted of a wide range of Technical Concepts like Ethical Hacking, Data Science, IoT, ML/AI and Software Development. The participants could make contributions in their preferred language and technology. Participants could track contributions made on an hourly basis through the in-house built, entirely automated Leaderboard Website. The process of contribution followed the procedure as: The participant had to raise an issue stating what they wanted to contribute. The raised issues were monitored and approved by the team. After the issue was approved the participant could make a pull request. Another stage of judging was implemented, post which successful contributions would be merged into the repository and counted. The participant with the most number of merged requests would be the winner. This schedule was followed for the complete duration of the event which was 14 days. Post 14 days the winners were announced. Winners were picked on the basis of ranking in the Leaderboard. Participants were also marked with a red flag on encountering malpractices being followed or spam behaviour on the repository. The event came to an end with the announcement of the winner. The first place was secured by Kartikey Sharma from IIT Goa. In second place, Saketh Bachu from NIT Nagpur and the third place was taken by Rakshita Tantry from APSIT. After the commencement of the event, prizes were distributed and the event saw a successful completion.

Anurag Singh	Kartikey Sharma	Manisha Sahu
Harsh Singh	Amruta Koshe	Tony Hartono
Delicia Fernandes	Aaditya Muley	Tanay Dangaich

D. Seminar Feedback:

The event went too well. Amazing event.
Can we receive the mail to which we can ask queries and suggestions which sir asked to mention.
The videos played in between the session had a lot of latency and audio clarity issues. So if that could be improved then the session is perfect.
No, great event!
Need More such sessions
Try taking questions in the feedback form itself so it wont be a difficult to search for them in the comments.
It was excellent
In the event title as it was mentioned talk with rashmi, expected rashmi would talk in the event. So maybe care should be taken for next events regarding event title otherwise everything was good and well organised, loved the talk and the anchor engagement with the audience
Great handling of the event! The coordination between them was awesome
Good innovation
The speaker could have focused more on the robot and explained about its working.
No the session was nice
Nothing

Resource Person Feedback:

It was a wonderful opportunity to be a speaker at the HacktoberFest Meetup @ IEEE SFIT. I got the opportunity to interact with like minded students who are inclined towards Open Source Contributions and I am happy to guide the newcomers towards it. It was a great session filled with lots of fun and knowledge to gain

Head Start to Data Science with CSI SFIT

REPORT

Event Date: 13th and 14th of February, 2021

Time: 11am - 5pm

Venue: Online (Google meet)

No. of Registered Students: 189

Instructor: Kaif Kohari (Joint tech head - 2nd year), Shardul Shroff (Tech exec - 3rd year) and Varun Patkar (Tech exec - 2nd year)

Workshop Description:

A workshop on Data Science was organized by the Computer Society of India - SFIT on the 13th and 14th of February, 2021, which was taken by Kaif Kohari (Joint tech head - 2nd year), Shardul Shroff (Tech exec - 3rd year) and Varun Patkar (Tech exec - 2nd year). We closed registrations at 189 students due to platform restrictions and garnered over 120+ attendees. A report for the same is as follows:

Day 1:

Day 1 begin with welcome introductions by [Delicia Fernandes](#) (Chairperson CSI SFIT) and Niharika Pattabhi (Vice Chairperson CSI SFIT), followed by icebreaker games carried on by the PR team. Next Kaif covered a General Introduction to Data Science, Basic overview of various domains in Machine Learning, Some real world examples of Artificial Intelligence, Tools and technologies you should learn for building ML Models and Roles in the field of Data Science. Varun then began the coding session with a Data Science Library, Numpy. The participants took a 40 mins break and returned to another Icebreaker game to lighten the mood. Next, the coding session continues with Pandas and a doubt solving session at the end.

Day 2:

Day 2 began with an easy icebreaker game to ease the participants into the workshop and continued with an interactive coding session instructed by Shardul. Matplotlib and Seaborn were effectively covered in the session. Day 2 ended with three projects covered by Kaif:

- Project 1: Linear regression
- Project 2: Logistic regression
- Project 3: K Means Clustering

Ending on a doubt solving session and giving thanks to the participants.

All the participants were provided with useful links for reference about the content taught in the two days of the workshop. The links which would definitely help the students to apply the concepts learned in the workshop in interesting ways.

Find all the workshop content on our Github Organisation: [CSI-SFIT/Head-Start-to-Data-Science: Leave your regressions behind 🤖](#) and Let's #makeItHappen with Data Science ⚡

Images of the Session:

Head Start To Data Science with CSI SFIT

#makeItHappen

A screenshot of a Zoom meeting interface. The main video area shows the 'Head Start To Data Science with CSI SFIT' slide. The top right shows the meeting title 'Shraddha Men... and 17 more' and the time '11:04 AM'. The right sidebar shows a grid of participants, including 'You' and several others with initials like M, K, S, Y. The bottom of the screen shows the Windows taskbar with various application icons and the system tray.

**Join in everyone!
We're about to begin!**

[Day 1 Feedback Form Responses](#)

Instructor Feedback:

Kaif: I feel lucky to have got this opportunity to instruct 100+ participants for ML.

Varun: The session was a success for me when one of the participants gave me a feedback saying “I enjoyed learning something new, getting the basics clear and obviously the icebreaker rounds, Mr. Varun Patkar explained everything in detail and also gave us the chance to find the answer ourselves. Hats off to the hard work put in by him!”

Shardul: Collaborating with CSI with this event teaching over a 100+ students, best experience ever hands down.

Behind the Layers : Photoshop with CSI SFIT

REPORT

Event Date: 20th March, 2021

Time: 11am to 2pm

Venue: Online (Google meet)

No. of Registered Students: 111

Instructor: [Mr. Sanjay Chauhan](#)

Workshop Description:

A workshop on Data Science was organized by the Computer Society of India - SFIT on the 20th March, 2021 from 11am to 2pm. Our guest instructor for this session, [Mr. Sanjay Chauhan](#), a Creative Editor + Graphic Designer. We closed registrations at 111 students due to platform restrictions and garnered over 60+ attendees. A report for the same is as follows:

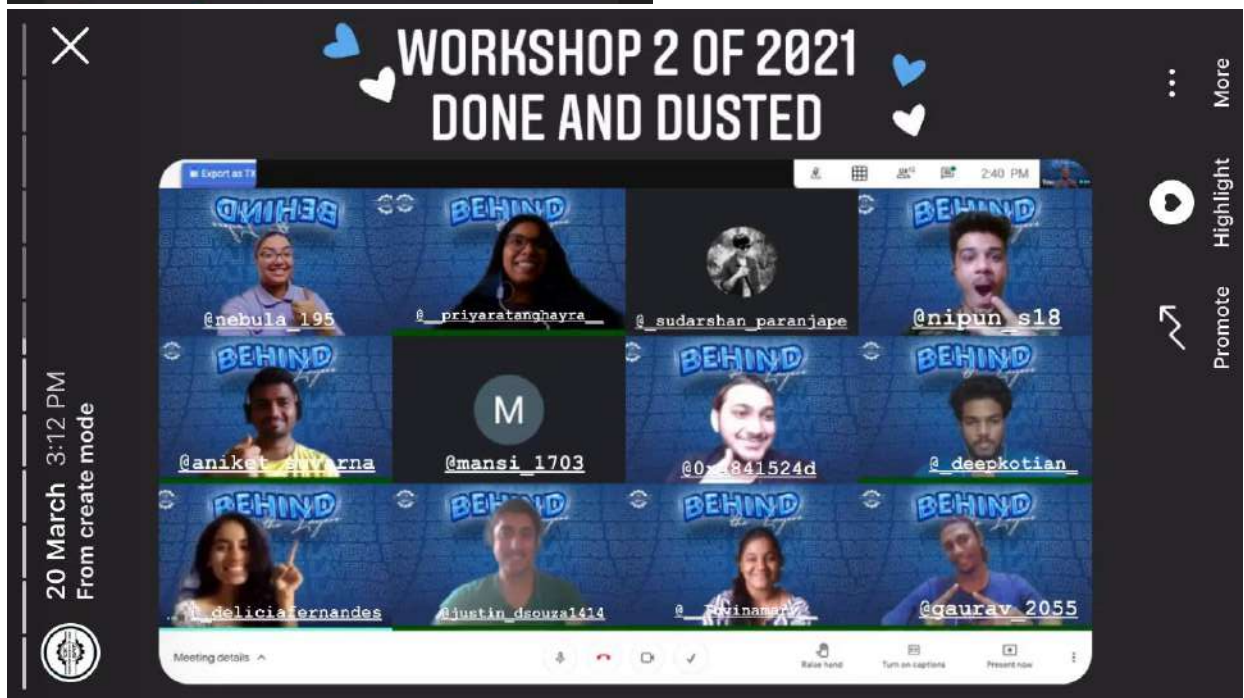

We began with a warm welcome by Mansi Rathod (Joint Creative Head CSI SFIT) and Priya R. (Creative Head CSI SFIT). Personal use software and Practice files were provided to the participants well in advance. Next our instructor Mr.Sanjay Chauhan started with the session introducing Photoshop and its details followed by poster & banners making. An intensive QnA after each topic was routinely conducted. The session ended with a short contest for the participants to win exciting prizes such as Udemy course and The Souled Store merchandise. The Three lucky winners were chosen by our instructor and judge, Mr.Sanjay Chauhan.

All the participants were provided with useful links for reference about the content taught in the workshop. The links which would definitely help the students to apply the concepts learned in the workshop in interesting ways.

Event Title	WEBINAR-INTRODUCTION TO IOT USING RASBERRY PI
Committee Name	IETE
Faculty Coordinator	Ms.SHILPA CHAMAN
Venue (Room No.)	ONLINE YOU TUBE CHANNEL: https://bit.ly/3coC5DM
Date	17th October 2020
Number of Registered Students:	200-overall (79-SFIT)

A. Description-

On 17th of October 2020 IETE-SFIT student forum along with Pantech e-learning streamed a IETE approved live webinar on ' Internet of things using Raspberry Pi '. The webinar was attended by members of IETE from different colleges as well as 79 students of SFIT and over 200 viewers were present.

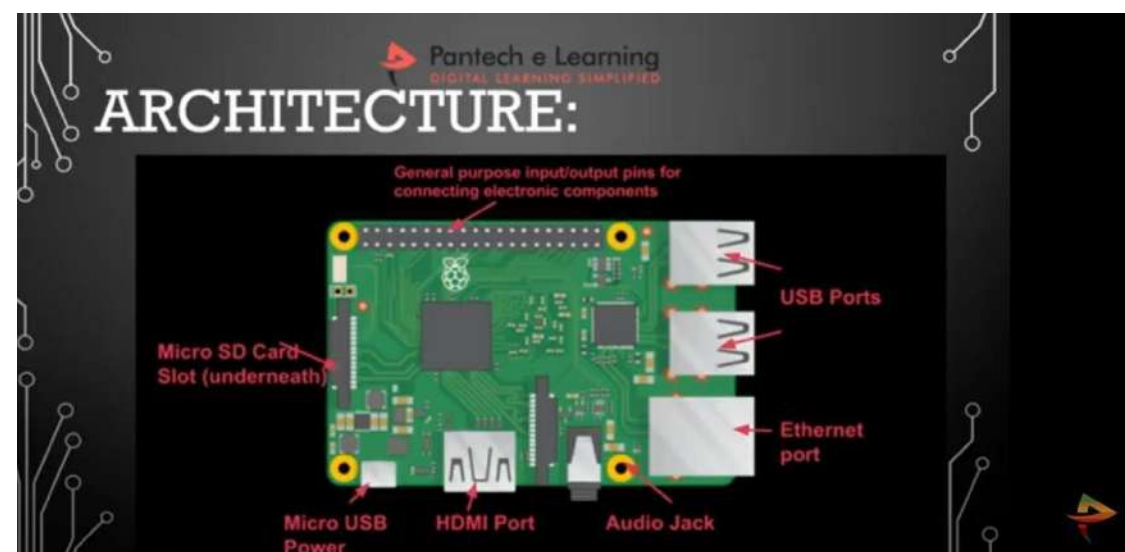

The webinar began at sharp 4pm. Students were introduced to IETE. The main task of IETE members is to spread awareness about state of the art technology used in industries. After the college introduction, the speaker introduced about Raspberry pi, installation of OS on a Raspberry pi and also about the architecture and pin connections of a Raspberry pi.

After connecting all the hardware to Raspberry pi, the the speaker introduced about the software used for operating Raspberry pi. So she introduced Internet of Things (IoT) and Industrial Internet of Things (IIoT). IIoT which encompasses industrial applications including medical devices , robotics and software defined production processes. Speaker has also given insights on cloud computing and protocols. The protocols emphasized were Simple Mail Transfer Protocol (SMTP) and Message Wiring Telemetry Transport (MQTT) . Finally the code execution was also demonstrated . The code was executed without any errors and the desired output was shown.

The session was concluded after recording participant's feedback. And the session ended on a high note.

Our highly skilled speaker – Ms. Hemasri Yallanki, is a senior engineer and embedded developer at Pantech solutions Pvt LTD. Our speaker has completed her B.Tech in Electrical and Electronics Engineering from Vasireddy Venkatadri Institute Of Technology. She is also skilled in programming languages like C, C++, Python, Embedded C and has a good knowledge of controllers like Arduino, Node MCU & Raspberry Pi, ARM, PIC.

Event Title	EACH ONE TEACH ONE
Committee Name	IETE-SF
Faculty Coordinator	Ms.SHILPA CHAMAN
Venue (Room No.)	ONLINE (GOOGLE MEET)
Date	24th and 25th October 2020
Number of Registered Students:	79

A. Description-

As a part of Academic Activity of the IETE-SF of EXTC Department, this webinar is a part of the “Each One Teach One” program where student members of the committee impart their knowledge to their fellow members and students. The resource persons of the course , Nilanjan Choudhury and Royston D’mello in consultation with each other and other members of the committee have put in tremendous efforts to give proper shape to the webinar. It is my sincere notion that the student participants from all department will stand to benefit in terms of knowledge and skill by completing the course. It will also be beneficial from the point of view of projects and placement.

The event focused on the following key points:

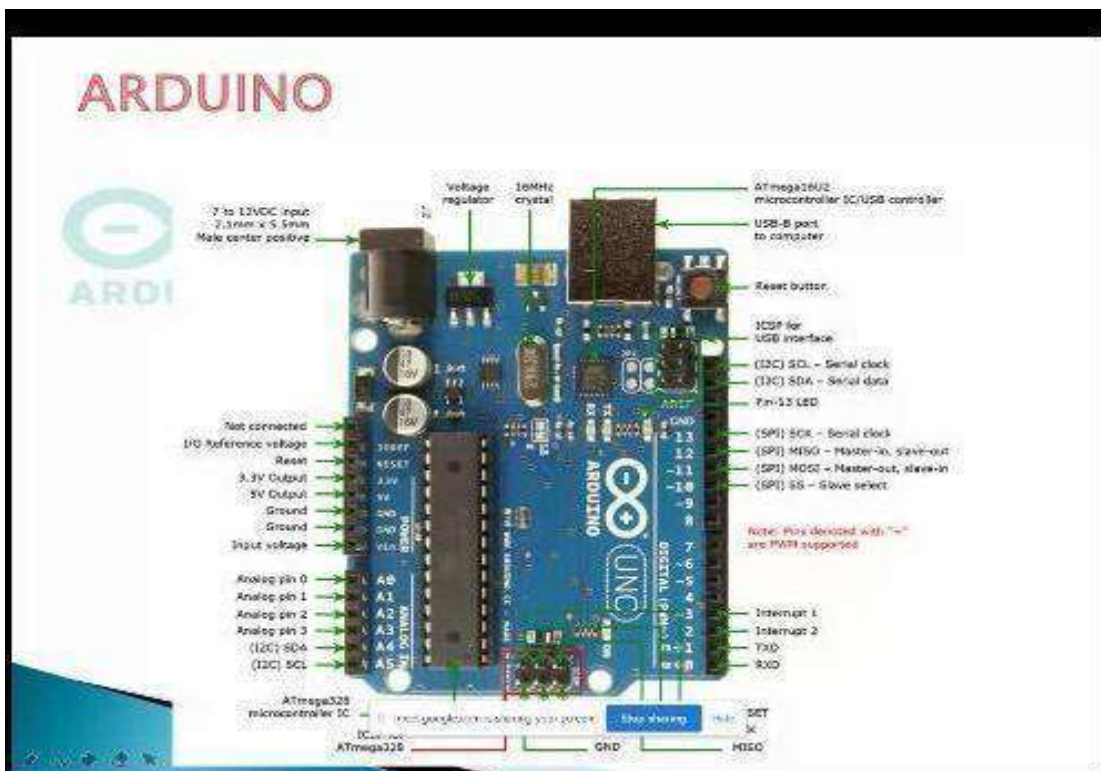

- 1)To provide a platform to students to develop their technical and managerial skills by presenting on various technical topics.
- 2) To update students with technological developments in the field of Electronics & Telecommunication.

DAY1

- On 24th Oct 2020 IETE SFIT hosted a webinar on **basics of arduino** which was initiated by Nilanjan Choudhury and Royston Dmello with the motive of **EACH ONE TEACH ONE**.
- The webinar began at sharp 5:00 PM the main task of IETE members is to spread a concept and visuals related to Arduino. After the introduction the speaker introduced to arduino and their properties, hardware and software. Then there was explanation on how arduino is installed in Windows, OS and in Linux software.
- All participants came to know about the microcontroller and it's uses then there was explanation about arduino and were made familiar with its properties and also came to know about different types of arduino boards eg: MEGA, LILYPAD, MINI, NANO 43×18mm and different versions of arduino .
- learnt about shield and their uses the examples are ARDUINO ETHERNET SHIELD, XBEE SHIELD, TOUCH SHIELD Etc. After that explanation was about the external power uses, External power connector, Usb connector. So this was done with connecting all the hardware. Then came to know about the software used that is ARDUINO IDE. Also participants were introduced to ARDUINO programming language v/s processing.
- The speakers provided with a collecting information on Arduino and the statistics which is increasing day by day. They introduced different project based on Arduino and also introduced future projects.
- Participants feedback was recorded and the session ended on a high note .

B. Images of the Session

Here Are Some of the snippets from our webinar on Day1 :

Different flavours!!!

- There are many versions of Arduino board. versions differ by size, microcontroller, etc

ARDUINO

shields

- Printed circuit boards that sit atop an arduino
- Plug into the normally supplied pin-headers of arduino.
- These are expansions to the base Arduino.
- For example: Arduino Ethernet shield, Xbee Shield, Touch Shield etc

Be careful about polarity! And shorts!

External power connector

USB connector

also solves polarity concerns

Statistics

By the Numbers

Year	Units sold
2005	200
2006	10,000
2010	120,000
2011	300,000(As of May 2011)

Google trends data comparing Arduino with its biggest competitors.

● arduino ● freescale ● microchip ● picaxe ● basic stamp

ANROID+ARDUINO=INFINITY EXISTS!!

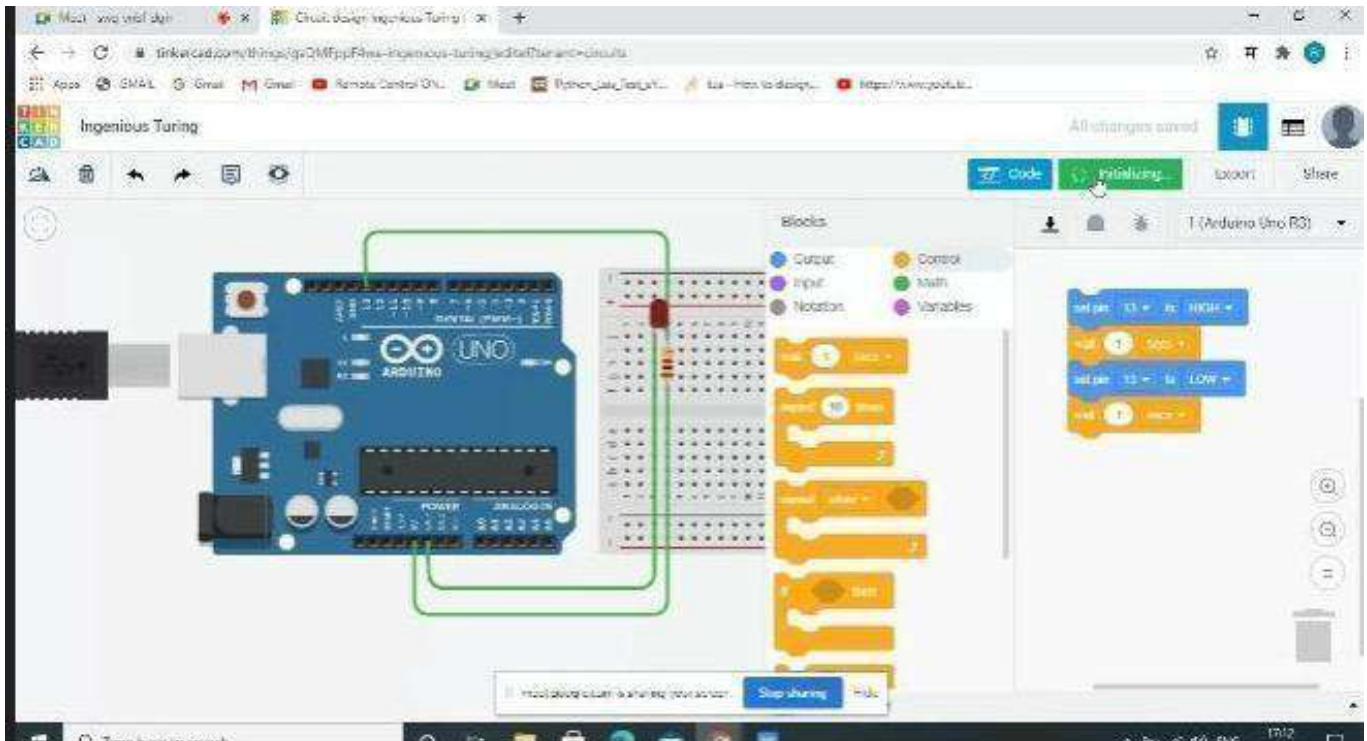

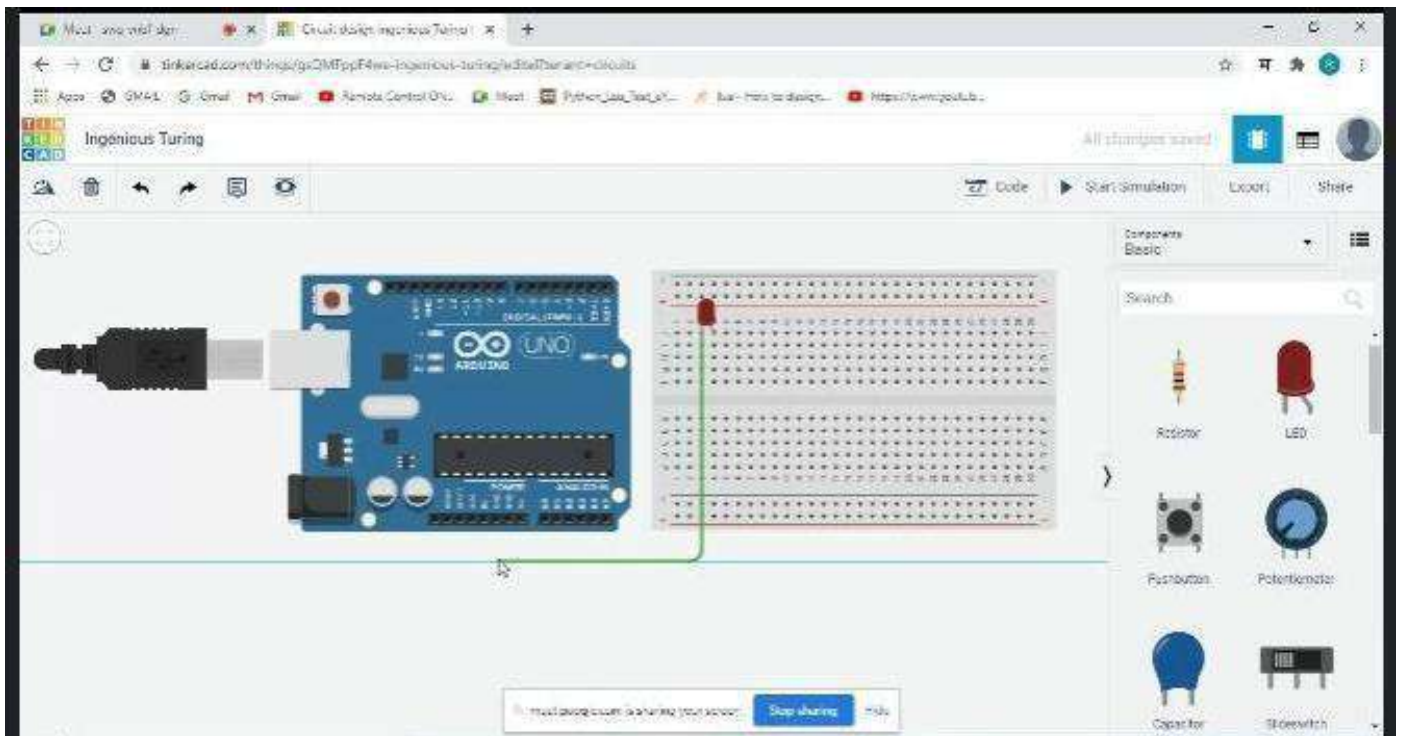

- In google annual conference "GOOGLE IO 2011", android executive announced its most ambitious venture "ANDROID OPEN ACCESSORY"
- They want to bring ANROID out of mobile phone/devices to real world.
- ANDROID sees the true potential of ARDUINO!!!
- They are going to use arduino to interface with the real world objects. Along with other sensors companies like LEADING science.
- They call it ADK-ANDROID DEVELOPMENT KIT

DAY 2

- On the second day of our webinar i.e. 25th oct 2020 participants came to know about a very productive software name as Tinkercad. The webinar began at sharp 5:00 PM which was initiated by Nilanjan Choudhary and Royston Dmello.
- The session was a very productive and meaningful, got the chance to know about several projects that we can proceed through tinkercad.
- The session was full of exciting and with innovative products and new learning opportunities with technology as a major consumer of our time and also an exciting experience in our world today.
- Learning tinkercad participants came to know that it is an easy to use app for 3-D cad design, electronics and coding . It is used by many of the students to imagine, design and make anything. Also came to know about the uses of arduino in tinkercad and the projects we can perform through arduino with the help of tinkercad.
- The speakers gave participants a collective knowledge and made them easier to understand more about tinkercad. The speakers made sure that all collectively perform during the webinar and all our doubts were cleared.
- The session was concluded after recording participants feedback and the session ended on a high note.

B. Images of the Session :

Arduino IDE interface showing a project named "Ingenious Turing". The workspace displays a virtual Arduino Uno R3 board connected to a breadboard with an LED. The code editor contains the following block-based code:

```
int ledPin = 13; // LED pin
int ledPin2 = 12; // LED pin
int ledPin3 = 10; // LED pin
void setup() {
  pinMode(ledPin, OUTPUT);
  pinMode(ledPin2, OUTPUT);
  pinMode(ledPin3, OUTPUT);
}
void loop() {
  digitalWrite(ledPin, HIGH);
  digitalWrite(ledPin2, LOW);
  digitalWrite(ledPin3, LOW);
  delay(1000);
  digitalWrite(ledPin, LOW);
  digitalWrite(ledPin2, HIGH);
  digitalWrite(ledPin3, LOW);
  delay(1000);
  digitalWrite(ledPin, LOW);
  digitalWrite(ledPin2, LOW);
  digitalWrite(ledPin3, HIGH);
  delay(1000);
}
```

The interface includes a "Code" button, "Start Simulation", "Upload", and "Share" options. The top right shows "All changes saved" and "1 (Arduino Uno R3)".

Arduino IDE interface showing a project named "LED Blink". The workspace displays a virtual Arduino Uno R3 board with an LED connected. The code editor contains the following text-based code:

```
1 int LED
2 void setup()
3 {
4   pinMode(12, OUTPUT);
5 }
6
7 void loop()
8 {
9   digitalWrite(12, HIGH);
10  delay(1000); // Next for 1000 milliseconds(a)
11  digitalWrite(12, LOW);
12  delay(1000); // Next for 1000 milliseconds(a)
13 }
```

The interface includes a "Code" button, "Start Simulation", "Upload", and "Share" options. The top right shows "All changes saved" and "1 (Arduino Uno R3)". A "Serial Monitor" window is visible at the bottom.

Arduino IDE interface showing a circuit simulation of an LED connected to an Arduino Uno. The code in the text editor is as follows:

```
void setup()
{
  pinMode(13, OUTPUT);
}

void loop()
{
  digitalWrite(13, HIGH);
  delay(1000); // Wait for 1000 milliseconds(1s)
  digitalWrite(13, LOW);
  delay(1000); // Wait for 1000 milliseconds(1s)
}
```

The interface includes a toolbar with 'Code', 'Start Simulation', 'Export', and 'Share' buttons. A notification from Opera is visible in the bottom right corner.

Arduino IDE interface showing a circuit simulation of an LED connected to an Arduino Uno. The circuit diagram shows the LED connected to digital pin 13 and ground. The interface includes a toolbar with 'Code', 'Start Simulation', 'Export', and 'Share' buttons.

Report on "PROTOTYPING WITH ADOBE Xd"

Resource Person - Ms. Priya Menezes
Date - 24th April, 2021
Time - 3 pm onwards (3 Hrs)
Platform - Google Meet
No. of participants - 71

A. Details:

ITSA had organized a workshop on Prototyping with Adobe Xd. This was a full hands-on workshop. The workshop included the idea for creating an extraordinary website and many different designs related to various things, having various features without having to focus all the attention towards code to create the website.

Our Marketing Executive Mr. Dhruv Dave started with the introduction by giving a brief information about how the whole workshop will be carried out followed by the general instructions. He introduced the resource person Ms. Priya Menezes who is User Experience and Visual Designer at Accenture Pvt. Ltd.

Ms. Priya Menezes started by explaining us what is prototyping, how it works and how we will be working on it. Before starting the hands-on work she first told us a short story, Ferber story in order for us to understand about prototyping using Adobe Xd. She also told us about various misconceptions we would face while working with Adobe Xd. The agenda of the workshop was:

- Introduction to prototyping and Adobe Xd
- Adobe Xd training – features
- A small mini project using the things you learnt!
- Questions & Answers session

Ms. Priya then moved to the hands-on part starting with the introduction to Adobe Xd, she explained all tools which were supposed to be used and few advanced tools that would help us for future requirement while working with Adobe Xd. She told us how we can directly get the code generated by the design with this we started with creating the design/prototype. The whole making of the was bit tricky but everyone managed to keep up with Ms. Priya and work on it simultaneously.

Overall the workshop was very well carried out. It was very informative, helpful and interactive session. Ms. Priya shared her wonderful experience of working with us and thanked the ITSA team for inviting her to conduct this workshop. At the end of the session various questions were asked by the participants and each question was answered by her.

All the students actively participated in this workshop and found it beneficial and enjoyed it thoroughly. They thanked Ms. Priya for sharing such an interesting concept. The workshop was then concluded by vote of thanks given by PR executive Ms. Sarah Furtado.

Report on “Software Testing in Industries”

Date -1st August , 2020
Time - 3pm – 5pm (2 Hrs)
Platform - Online (Google Meet)
No. of Registered Students: - 72
Resource Person - Mr. Arnab Banerjee ()

A. Details:

The ITSA had organized a webinar on the software testing in industries which included introduction of software testing, types of testing followed in the industry, testing methodologies along with creating test document, optimized ways of testing software, introduction to Selenium with Java .

This webinar was conducted by Mr. Arnab Banerjee , Senior Quality Assurance Engineer at TATA Consultancy Services (Mumbai). He explained how critical software testing is , basic guidelines about it, benefits of software testing , phases and life cycle of software testing. He gave a brief information on how important communication is in IT industry and how carefully communication should take place , scope of software testing in the market. He gave us good points on why we should select software testing as a career.

Agenda of the Webinar:

- Software testing Fundamentals
- Creation of Test Document
- Automation testing tool Selenium with Java
- Use of software testing in various fields
- Obstacles faced while testing a software
- Career Suggestions

Apart from these main points , it was a interactive session . Mr. Arnab Banerjee shared about his experience about the same which made the webinar interesting and easier for the students to understand. He gave information about about other areas for Software testing like testing on cloud, performance testing, mobile app testing , etc and languages mostly preferred for software testing. Ideas to overcome the problems faced during this was well explained.

The webinar was concluded by answering few doubts of the participants. Arnab Banerjee was thankful that he got a chance to have this session with us. Overall the speaker had a good time teaching them about it as well as the participants were very well learning it. It was a beneficial and interesting webinar with good participation and appreciation of the students.

B. Images of the Session:

ITSA introduces you to our webinar on...

SOFTWARE TESTING IN INDUSTRY

By **Mr. Arnab Banerjee**
(Senior Quality Assurance Engineer at TATA Consultancy Services (TCS), Mumbai)

Agenda of the webinar -

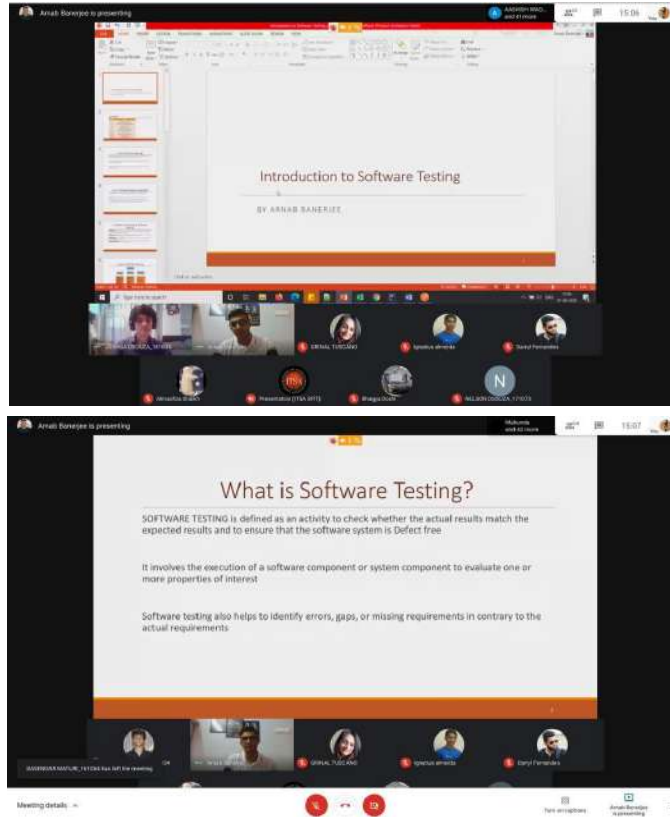

- ❖ Software Testing fundamentals
- ❖ Agile testing
- ❖ Creation of test document
- ❖ Automation testing tool Selenium with java
- ❖ Career suggestions and QnA

Register now to catch us live on
1st August, 3pm-5pm
On google meet
Register at: bit.ly/itsa2020

For any doubts or queries contact :
Faustina Lazarus - 7715816658
Sarah Furtado - 9833385784

This is a webinar exclusive to the IT Department only!

C: Registration

The screenshot shows a registration form for a "Software Testing Webinar" hosted by ITSA (Information Technology Students Association). The form includes a title, a call to action, and a "Full Name" field. The text on the form reads: "Software Testing Webinar", "Hurry up and register before seats run out!!", and "Full Name". Below the "Full Name" field, there is a "Short answer text" field. The form is displayed in a browser window with the URL "SOFTWARE TESTING WEBINAR (Arnab Sir)".

Date: 27th July, 2020

Report on “ITSA’ ESCROW”

Date : 16th and 17th of July 2020.(2 days)

Venue: Online (Google meet, ITSA website, Instagram, Twitter, YouTube, Google Maps and notepad.pw)

No of Registered students: 122

Winners : Danny Rozario 1st place (1000/- Cash Prize) and

Harsh Chheda 2nd place (700/- Cash Prize)

A. Details:

SFIT ITSA once again continuing its series of new concepts and challenges introduced it's first event for the academic year 2020-21 viz. ESCROW. ESCROW was basically a virtual treasure hunt based on the skills of cryptography, cipher, coding and logical thinking.

ITSA' ESCROW was a three round event divided in two days basically the 16 th and 17 th of July 2020. Considering the current lockdown we made use of Instagram, Twitter, YouTube, Google Maps and notepad.pw for hiding our clues. The clues were spread over these domains. We had 3 rounds spread over 2 days. The first round was based on Mathematical and logical questions, second was based on technical and coding. Round 3 was based on cryptography and ciphers. The rounds had an increasing level of difficulty. We had kept options for troubleshooting in case the participants found some clues to be too difficult.

Through social media (mostly instagram) we tried to gather crowd for our event. Constantly posting updates about our event 4-5 days prior to our event .We released teasers and short videos to develop curiosity. This helped us increase our followers too. A few posts were put up on LinkedIn too. The event was constructed and framed on instagram accounts created for particular clues.

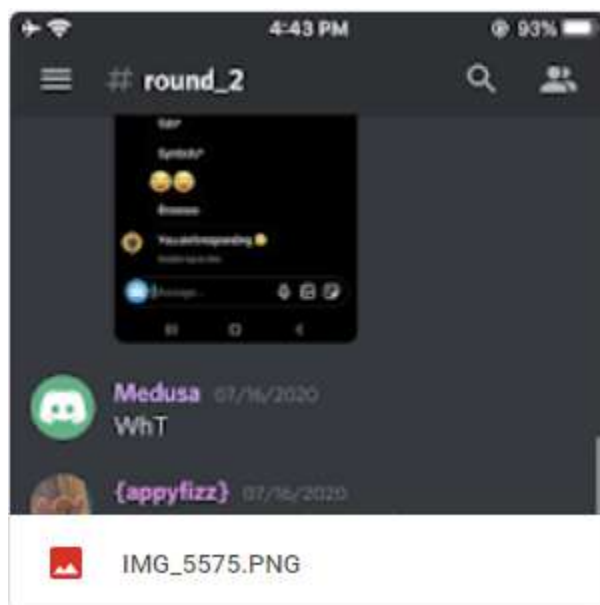

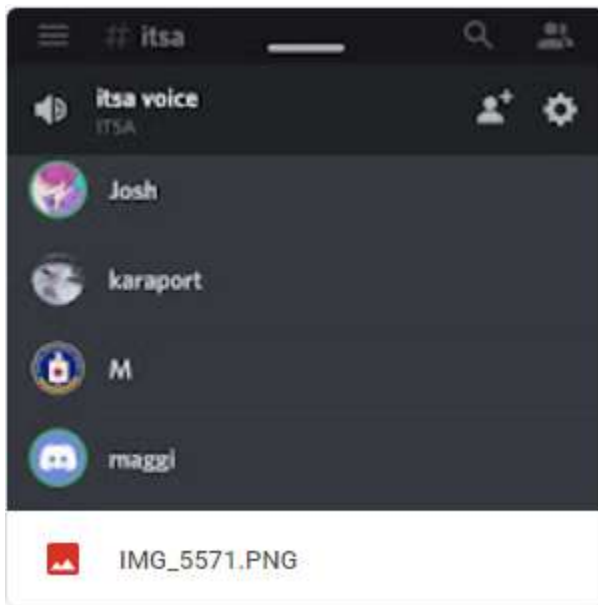

We had three posts dedicated to our event ,the first one consisted the trailer ,the second one was about the instructions and rules to be followed for the event and the third post included the winners and qualified participants of each round. We also created an official account for the event. The teasers and posts on Instagram were created by President Joshua and Creative head Karan.

ESCROW had quite a good reach because of the use of social media platforms for promotion as we had more than one hundred registrations. **We had 57 participants for the first round; out of which 23 participants actually managed to clear the round.** We introduced open entries again for round two and had 44 participants. Five contestants were finally qualified in the final round amongst whom **Harsh Chheda (solving time 3hrs 40mins) secured the second place and Danny Rozario (solving time 2hrs 28mins) secured the first place.**

The winners were given a cash prize of rupees 1000 & 700 for First and Second position respectively and acknowledgement on ITSA' official social media pages.

ESCROW was a great experience for the ITSA team and a successful first step in the academic year.

B. Images of the Session:

```

code
[NOTE: The OUTPUT is an HTML5 page after getting the DESKTOP output please visit the BENCHMARK PAGE & Add Three underscores in the beginning and at the end of the OUTPUT]
import java.util.Scanner; class Main {
    public static String buffer = encrypt(String key, int k) {
        String buffer = new String(key); for (int i=0; i<key.length(); i++) {
            Character ch = key.charAt(i);
            char ch1 = (char)((int)key.charAt(i) + k - 65 % 26 + 65);
            char ch2 = (char)((int)key.charAt(i) + k - 97 % 26 + 97);
            char ch3 = (char)((int)key.charAt(i) + k - 65 % 26 + 65);
            char ch4 = (char)((int)key.charAt(i) + k - 97 % 26 + 97);
            return buffer.replaceAll(" ", " ");
        }
    }
    public static void main(String args[]) {
        Scanner scanner = new Scanner(System.in); System.out.println("Enter you get the code from our first challenge page of round 11. P.S. enter only 100 or 102");
        String encryptedLine = String.valueOf("102"); String string =
        "102"; if (scanner.hasNextLine()) System.out.println("Enter the code here");
        else if (scanner.hasNextLine()) System.out.println("Enter the code here");
    }
}

```

CONGRATULATIONS TO THE WINNERS ON THEIR WELL-DESERVED SUCCESS!

WINNERS:

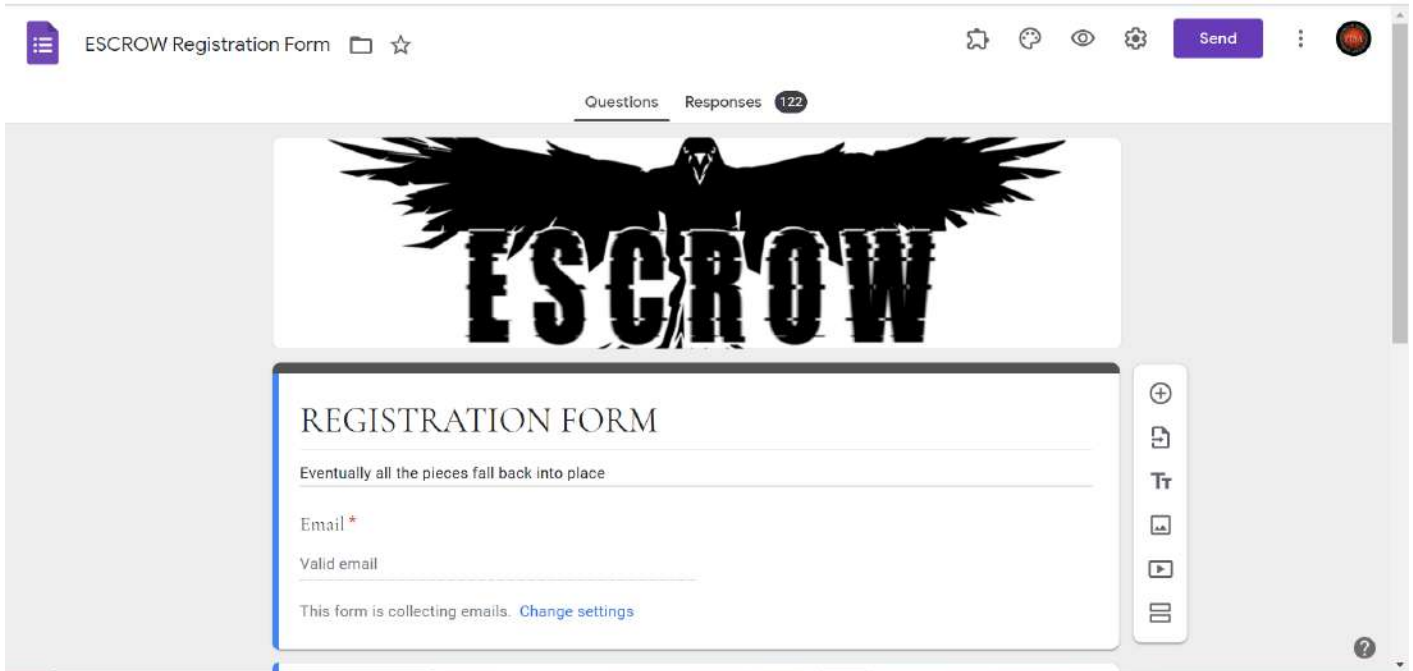

- 1 DANIEL ROZARIO**
- 2 HARSH CHHEDA**

ALSO CONGRATULATIONS TO ALL THE COMPETITIVE PARTICIPANTS!

AFTER A CHALLENGING TIME FOR ALL PARTICIPANTS, OVERCOMING THESE STORMS TO REACH THE ENDPOINT WAS WHAT ALL THE PARTICIPANTS ENSURED.

WE THANK ALL OF YOU FOR PARTICIPATING IN LARGE NUMBERS AND BRINGING ESCROW20 INTO ACTION.

Report on: ITSA's Ethical Hacking and Cybersecurity

Date: 9th March 2021

Time: 5:30 p.m.-7:00p.m. (2 hrs)

Platform: Online (Google Meet)

No. of Registered Students:- 80

Resource Person:Mr. Sachin Dedhia and Ms.Priya Savla

A. Details:

After the Debate Competition ITSA was up with the next event on Ethical Hacking. This workshop on Ethical Hacking took place on March 9, 2021, via Google Meet. The resource people for the same were Mr. Sachin Dedhia and Ms.Priya Savla. Mr.Sachin Dedhia is an independent Cybercrime Investigator & also a Certified Ethical Hacker.

Our technical executive, Mr. Viral Soni introduced Mr. Sachin Dedhia, welcomed everyone present in the meet, and started the workshop by giving a short introduction about himself. He also gave an introduction about different certifications and degrees in the same field, mentioned that there is a difference between being a hacker and being an ethical hacker. Asked the participants if they want to be a Hacker or an Ethical Hacker and what would they hack if they become one? There were many responses to this question given by the students.

The objectives of this Workshop:

- Careers in Cyber security
- Cyber security fundamentals
- Mobile hacking & security
- Social Media frauds & security
- Personal data protection

Mr.Sachin Dedhia said that now-a-days information of servers and sites are not being hacked instead mobile phones are being hacked as they contain most of the information about us. He told us about the application used to hack android mobile phone which is FLEXISPY and explained its features, how it works. He discussed the case study of the Cosmos Bank Fraud how the system was actually hacked and

maximum money was withdrawn within limited time frame. Showed a website i.e. FORTINET where we can see live cyber-attacks happening around the world. Practically showed us how to hack passwords easily, gave information about last activity view tool used to view the person's activity logs which collects information from our device through applications we use such as Facebook.

At the end of the session few doubts of the students were cleared also why one should choose this stream and how important it is was explained very well. Mr Sachin Dedhia thanked the organizers for inviting and the participants. Felicia Sequeira, the PR head concluded the workshop by giving a vote of thanks.

Participants found this workshop very informative and useful. Everyone gained basic knowledge based on present cyber-attacks and hacking.

B. Images of the Session:

ITSA presents it's workshop on...

Ethical Hacking and Cybersecurity

by certified ethical hackers

Mr.Sachin Dedhia
(Founder & CEO,
Skynet Secure Solutions)

Ms.Priya Savla
(IT Security Analyst at
Skynet Secure Solutions)

Agenda of the workshop:

- Careers in Cyber security
- Cyber security fundamentals
- Mobile hacking & security
- Social Media frauds & security
- Personal data protection

**Catch us live on
Tuesday 9 March 2021.
5:30pm - 7:00pm
Platform: Google Meet**

sft_itsa itsa.sft.ac.in itsasfitofficial@gmail.com

The poster features a dark background with a faint, glowing face of a person, possibly a hacker, in the center. The text is primarily in white and light blue. The ITSA logo is in the top right corner. The agenda items are listed with red circular icons. The event details are highlighted in a white-bordered box at the bottom.

- Mr. Sachin Dedhia
- Independent Cyber Crime Investigator
 - Certified Ethical Hacker
 - Certified International trainer in the field of Cyber Security
 - Cyber Crime Investigations & Digital forensics expert
 - Has provided training to Mumbai Police and various other State Police Departments
 - Sachin Dedhia founded Skynet Secure Solutions, a Company specialized in Cyber Security & Digital Forensics headquartered in Mumbai.
 - Successfully conducted over 500 seminars & workshops across India, & enlightened over 1 lakh participants.

Sachin Dedhia is presenting

Report on : Full-Stack Web Development Workshop.

Date: -20th March 2021

Time: -4:00 p.m.- 6:00p.m.

Platform: -Online (Google Meet)

No. of Registered students: - 97

Resource Person: Ms. Sonali Munagekar

A. Details:

After the Debate Competition and the workshop on Ethical Hacking, ITSA was ready with their next workshop. This workshop was all about Full-Stack Web Development. This workshop was held on the 20th of March 2021 and via Google Meet.

Our Technical Head, Mr. Mukunda welcomed everyone and introduced our resource person for the day Ms. Sonali Munagekar. After that, he also gave some basic instructions and explained the webinar's flow. The workshop started with the quote Journey of the Web. Then she explained about the Traditional Web applications, how the consumers then were limited and most of which were PC. She also told us about the modern web applications and how it has a huge number of consumers.

The main topics that were covered included:-

- Modern Scalable Architecture.
- Cloud-based Architecture.
- API-REST Endpoints- (i) Get Request, (ii) Post Request.
- Modern Full-Stack Applications (Mongo DB, Express, REACT, Node.js)
- Spring Boot:- Provides additional Library.

Ma'am also said we'll see how REACT works and what it does and after that start developing. Then she showed us an application using REACT. REACT is a single-page application.

The resource person provided a GitHub link for the referral and future use for the students.

The main parts that were discussed about REACT were:-

- Components and State
- State Complexity

Then she explained the Backend Node.js and showed the development.

The workshop was then concluded by our Photography head, Ms. Selina by giving a vote of thanks to Ms. Sonali Munagekar.

B. Images of the Session:

ITSA introduces you to it's hands-on workshop on....

Full STACK WEB development

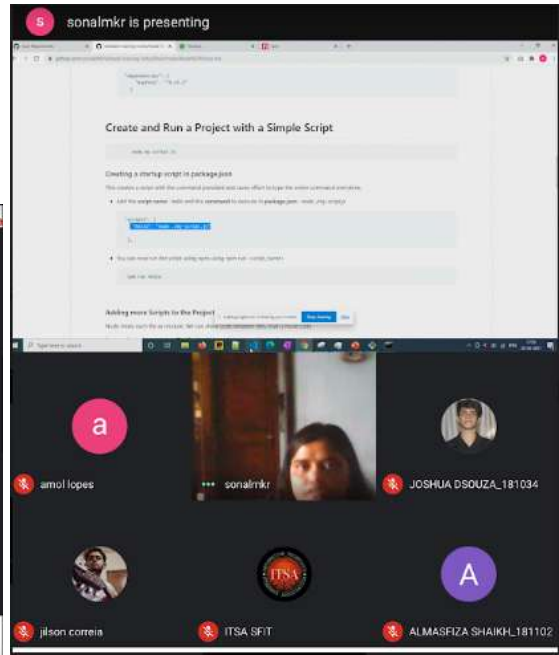

BY MS. SONALI MUNAGEKAR
VICE PRESIDENT (MODEL ENGINEERING IT) AT MSCI INC

AGENDA OF THE WORKSHOP:

- Challenges of the modern web
- **REST**- Thinking in resources
- Full-Stack Architectures
- Creating a front-end with **React**
- Creating a Back-end with **Node.js** and **Express**
- Database setup with **Mongo DB**
- Connecting Front-end and Back-end with **Fetch API**

**SATURDAY
20TH MARCH
4PM-6PM
GOOGLE MEET**

The poster features a blue background with a white and red ITSA logo in the top right corner. At the bottom left, there is an illustration of a person sitting at a desk with a computer monitor displaying code and charts. The text is arranged in a clear, hierarchical manner, with the title and speaker information at the top, followed by the agenda and event details.

Mindclash 2.0

Event Date: 10th-11th April 2021

Time: 2:00 PM-5:00 PM

Venue: SFIT

Number of Registered Students: 20

Chapter: IEEE

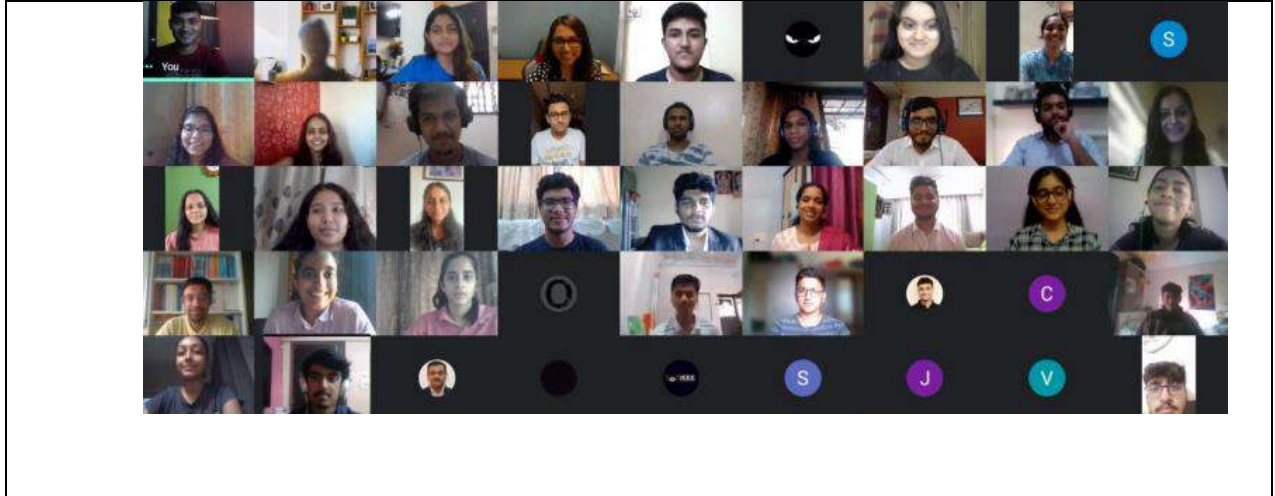

A. Description:

IEEE SFIT Student Branch(ISSB) in association with IEEE Bombay Section organised an online intercollegiate competition, 'MindClash2.0'. This was a technical debate competition held to promote team spirit and critical thinking which will help debaters to hone their soft skills far beyond what can be learnt in any other setting. The event was held from 10th to 11th April 2021 on the Google Meet platform. Round 1 - StandOff was held on 10th April, Round 2 - MixNotMatch and Round 3 - TheShowDown took place the following day. There were 10 teams of 2 members each who registered from technical colleges from various parts of the country. It also had a skilled panel of judges from various institutes and expertise. The judges for Day 1 were Dr. Joseph Rodrigues, Mr. Yash Kumthekar and Ms. Neha Agnihotri. Day 2 was judged by Mr. Tejas Shyam and Ms. Deepa Panakkal. The commencement of day 1 took place at 14:00 hours. The host for day 1, Ms. Preksha Prakash (Program Team Executive, ISSB), welcomed the esteemed judges, enthusiastic participants and the lovely audience to the first round of MindClash2.0. The timer was managed by Mr. Shubham Pawar (Membership Head, ISSB) on both days. Mr. Sahil Sawant - Chairperson, ISSB was invited to say a few words. Each pair of teams were given a complimentary topic prior to the event, and 9 minutes to make their arguments. After which their stand was questioned by the judges. Topics and questions were decided by the Program Team. After the first round, the judges scored each team. Based on judges' scores, 4 teams were eliminated at the end of Round 1 and the remaining 6 were promoted to Round 2 - MixNotMatch. Ms. Preksha thanked our judges for their time and brought day 1 to an end. Day 2 began with double the enthusiasm and excitement at 14:00 hours. The hosts for the day were Ms. Rhea Rodrigues (Program Team Executive, ISSB) and Mr. Sheldon Moonjelil (Creative Team Head, ISSB). They introduced the judges Mr. Tejas Shyam and Ms. Deepa Panakkal, and briefed the audience about the rules for Round 2. In Round 2, The selected teams which moved to Round 2 debated against each other as per the schedule. Out of the top 3 teams selected in this round, the First team qualified to the finals based on their performance and score. Meanwhile the 2nd and the 3rd team battled in an extempore round on the topic : 'Will automation steal engineering jobs' , wherein the teams were given the topic on the spot by the judges and 3 minutes each to make their arguments. The winner of this Round proceeded to finals along with the winner of Round 2. Round 3 - The ShowDown, took place between Team CV Ananya and Adith Nair from

Vivekananda Education Society's Institute of Technology and Team Manjot Kaur and Ashita Tiwari from St. Francis Institute of Technology who debated off on the topic, 'Facial Recognition technology, Security boon or privacy nightmare'. In this round each team had 3 min + 3 min - opening, 10 min - rebuttal, 1 min + 1 min - closing. After a heated debate, full of technical information, emotions, aggression and assertion the Finale came to an end with each team making their closing arguments. The judges gave each team their feedback for their respective performances, and submitted their scores. After tallying the scores, Mindclash2.0 had its winners as Team CV Ananya and Adith Nair emerged victorious. The event came to an end after the announcement of winners. The vote of thanks was offered by Mr Palak Maniar - Vice ChairPerson, ISSB. Feedback of judges, participants and audience were taken and prizes were distributed. The event saw a successful completion with over 60 people tuning in as an audience to enjoy the debates.

D. Seminar Feedback:

Do a MUN. Great job otherwise!!!

Y'all rock

Nope u people were great!

The team has taken great efforts to raise the bar in a virtual scenario.. even if OBS setups failed, it was quickly resolved. Hope to see it up and working for future IEEE events! Also, brainstorming a good topic pool, and providing them all at once to the registered group of participants is something we can explore. Including the final topic. We want the debate discussion to be well researched upon, and the points to be presented coherently. Improvements on how to actually debate can be done by participants like us, but enough time must be given for teams to prepare for them to justify the topic they are preparing. I understand the logistic issues that planning in this way might bring. But things like - Think a topic pool for a specific round, a timer that is visible to participants (can be done through OBS), better participant interaction it can help boost Mindclash in the future. Looking forward to being a part next year, and kudos to you for doing this despite virtual constraints!

It was a lit

IEEE SFIT should conduct more such events where students from different colleges can show their involvements.

No, It was perfect.

No all cool

It was great event overall

Judges Feedback:

I think it was a well arranged event! I think the topics could be improved as I found many of the topics to be the same from last year and the research could have been better.

All in all, kudos to the entire team on managing the event. It's no mean feat to pull it off online :)

I appreciate that the suggestion made by judges regarding the scoresheet was implemented at the earliest by Mr. Sahil Sawant during the competition itself.

Very Well coordinated Leaving Apart The Technical snag which is unavoidable.

None. Good job, team!

Keep the spirit going. In spite of all changes and edits, things were well managed. Appreciation to all the team members.

Tech Talks with Robo Rashmi

Event Date: 11th October 2020

Time: 5:30 PM-7:30 PM

Venue: SFIT

Number of Registered Students: 147

Resource Person: Mr. Ranjeet Shrivastava

Chapter: IEEE

A. Description:

B.

IEEE SFIT Student Branch (ISSB) organised an online seminar on the topic of Artificial Intelligence and Humanoid Robots by the immensely talented humanoid developer, Mr. Ranjeet Srivastava, from Ranchi who is also the inventor of Robo Rashmi. The seminar was held on 11th October 2020 at 17:30 hours on the online video conferencing platform Google Meet and Live Streamed on YouTube. The speaker addressed a crowd of 147 participants majorly from St. Francis Institute of Technology, Mumbai and various other colleges across India. The seminar started at 17:30 hours with an introductory speech from Anushka Somavanshi, Program Head - ISSB. The session began with Mr. Ranjeet introducing himself to the crowd of participants. Mr. Ranjeet spoke about how he created Robot Rashmi after being challenged by his son who watched the hit Rajanikant film, 'Robot', without having any technical team or research lab in 2 years time. While speaking about his struggles and his ups and downs during the development of Rashmi, the speaker explained his belief that an idea is everything irrespective of its simplicity or complexity. Further he mentioned Rashmi uses a linguistic interpretation system, artificial intelligence and visual data to interact with people, Rashmi can speak four languages – English, Hindi, Bhojpuri and Marathi. He explained the robot has many features besides lip-syncing. Rashmi can give facial, lips, eyes and eyebrow expressions. She can move her neck. There are also reports that the robot believes in god and has a spiritual side. He went on to say, Rashmi was developed as a way to bridge the gap between fear and lack of understanding that people faced in relation to the field of AI. He wanted the world to see the positive side of humanoid robots, one that can not only relate but also express emotions. “Rashmi was made to spread love and be a companion,” he said. All of this of course, while still being in touch with his Indian roots and so Rashmi, became the world's first Hindi speaking humanoid robot, which in turn became one of the greatest achievements for our country. The session concluded with a question and answer session and some of Mr. Ranjeet’s advice drawn from his experiences for aspiring developers. The Q & A session flow was handled by Mervin D’costa, Publicity Head - ISSB. The vote of thanks was offered by Anushka Somavanshi. Feedback of participants was taken and the session turned out to be a success.

E. Seminar Feedback:

Did the speaker demonstrate a thorough grasp on the AI industry?
29 responses

Did the speaker answer the queries to your satisfaction?
29 responses

The event went too well. Amazing event.
Can we receive the mail to which we can ask queries and suggestions which sir asked to mention.
The videos played in between the session had a lot of latency and audio clarity issues. So if that could be improved then the session is perfect.
No, great event!
Need More such sessions
Try taking questions in the feedback form itself so it wont be a difficult to search for them in the comments.
It was excellent
In the event title as it was mentioned talk with rashmi, expected rashmi would talk in the event. So maybe care should be taken for next events regarding event title otherwise everything was good and well organised, loved the talk and the anchor engagement with the audience
Great handling of the event! The coordination between them was awesome
Good innovation
The speaker could have focused more on the robot and explained about its working.
No the session was nice
Nothing

Resource Person Feedback:

IEEE SFIT did a wonderful job in organizing this workshop. It was very well organized and the hosts did their job well. I feel very happy to share my knowledge with the students and wish them good luck!

Data Driven Decision Making

Event Date: 27th March 2021

Time: 4:00 PM-6:00 PM

Venue: SFIT

Number of Registered Students: 70

Resource Person: Ms. Karthika Kamath

Chapter: IEEE

Description:

IEEE SFIT Student Branch formed its first ever female centric technical community "TECHESS". The first workshop organized under this community was on the topic of Data Driven Decision Making, to learn how successful companies build and launch successful products. The speaker for the event was Ms. Karthika Kamath, who is an exceptional Data Scientist at Fractal. The seminar was held on 27th March 2021 at 4:00 PM on the online video conferencing platform Google Meet. The speaker addressed a crowd of 70 participants majorly from St. Francis Institute of Technology, Mumbai and various other colleges across India. The seminar started sharp at 4:00PM with an introductory speech from Anushka Somavanshi, Vice Chairperson - Techess and Program Head, IEEE SFIT Student Branch. The workshop commenced shortly after a quick introduction of the speaker by herself and her field of work. Ms Karthika explained the theory of data visualization and how the process is set in motion. Further on she talked and elaborated on the Types of analysis, namely Qualitative and Quantitative Data Analysis, the various methods of analysis and their real time applications in the real world. She also illustrated how the visualized data is interpreted and used. Once all the basic concepts were covered and everyone was acquainted with the same, the session moved on to be more hands-on. For this part of the session, we used the Google Data Studio platform. Using this platform we were able to visualize two different kinds of data sets-- 'Startup funding' and 'Country Population' with the help of pie charts, bar graphs, tables, donut charts, etc. The session concluded by a question and answer session, as well as some doubt solving and some of Ms. Karthika's advice drawn from her experiences for aspiring data science enthusiasts. The Q & A session flow was handled by Anshika Gupta, Chairperson - Techess, Vice- Program Head, IEEE SFIT Student Branch. The Q&A was followed by a photo session and the vote of thanks which was offered by Anshika Gupta. Feedback of participants was taken and the session turned out to be a success.

C. Seminar Feedback:

Do you think the content was sufficient enough to understand the concepts covered in the workshop?
26 responses

Were the concepts explained well by the speaker?
26 responses

Keep up the good work.
Not really. I didn't attend completely
The content was clear and informative but more information could have been given about basics of data analytics in the beginning itself so that we were able to relate better with what she was teaching
Nothing! It was really great 😊😊
-
..
More time for hands on would've been preferred.
Nothing as such

Overview of Recommender Systems

Event Date: 24th April 2021

Time: 5:00 PM-6:30 PM

Venue: SFIT

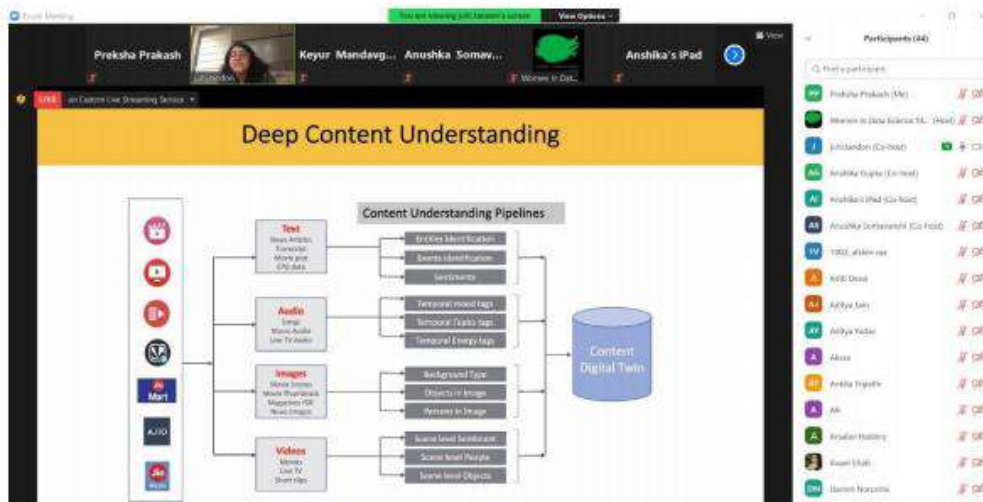

Number of Registered Students: 55

Resource Person: Ms. Juhi Tandon

Chapter: IEEE

The TECHESS committee collaborated with Women in Data Science for their second workshop. The topic was “Overview of recommender systems” and the speaker for the event was Ms Juhi Tandon, who is working as a Senior research scientist at Reliance Jio (Artificial Intelligence). The seminar was held on 24th April 2021 at 5:00 PM on the online video conferencing platform Zoom. The speaker addressed a crowd of 55 participants majorly from St. Francis Institute of Technology, Mumbai and various other colleges across India. The seminar started sharp at 5:00PM with an introductory speech from Anushka Somavanshi, Vice Chairperson - Techess and Program Head, IEEE SFIT Student Branch. The workshop commenced shortly after a quick introduction of the speaker by herself and her field of work. The speaker introduces the topic with Recommendation engine platform architecture and algorithm. Further she explained what is deep understanding of content and the user behaviours and how it helps to get detailed insights from processes and hence empower user cases. A number of techniques like document similarities, recommendations based on locations and knowledge graph methods that help platforms such as Jio and Netflix in collection, segmentation and analyzation of data were also discussed. Towards the end of the session Ms. Juhi elaborated on how recommender systems revamp the collected data for the best recommendations and methods such as online, offline and AB testing for the evaluation of recommender systems. A quick glance was also given on the meta recommendation engine. The session concluded by a question and answer session, as well as some doubt solving. The Q & A session flow was handled by Karthika Kamath, Women in Data Science (Mumbai). The Q&A was followed by a photo session and the vote of thanks which was offered by Karthika Kamath. Feedback of participants was taken and the session turned out to be a success.

C. Seminar Feedback:

Do you think the speaker covered the topics well?

13 responses

No

Something more basic that students could connect with.

A seminar on how to get into giant tech companies.

Hands on session on python Django

AI/ML

None.

How to get internships during engineering?

Since this is female centric community, a session dedicated to girls only.

A platform where all of us girls could connect through Techess community.

Resource Person Feedback:

Good decision by WIDS, ISSB & Techess to conduct a workshop on a trending topic such as Recommender Systems. The workshop was well organized and the audience was enthusiastic while asking questions and having their doubts cleared

Department of Information Technology

Report on “Recent Trends and Career Opportunities in Enterprise Resource Planning”

Event Date: **15th April 2021**

Time: **10:00 am to 11:00 am (1 Hrs)**

Venue: **Online (Google meet)**

No. of Students: **145 (BEITA/B)**

Resource Person: **Mr. Rahul Shah –ERP consultant**

A. Description:

Enterprise Resource Planning- more commonly referred to as ERP is a department level elective for final year Information Technology students. As the name suggests, ERP’s primary goal is to manage the various resources within the company to make sure they are being utilized in a cost-effective way. It is also designed to make sure that all resources are being used efficiently. The syllabus contains detailed discussion on various ERP technologies, manufacturing prospective in ERP, ERP life cycle phases, benefits of ERP and how ERP is serving as backbone to E –business. However, though the students are getting all theoretical knowledge and understanding of ERP core concepts the syllabus is not discussing the current trends in ERP in industries. Also students are not having very crisp knowledge regarding the various career opportunities in the field of ERP.

In order to throw light on these industrial aspects of ERP, the guest lecture on the said topic is arranged.

The Resource person for this lecture was Mr. Rahul Shah. His brief introduction is as follows:

Rahul Shah has more than 16 years of experience in various IT roles such as solution architect, delivery and deployment lead, leading large scale global digital and business transformation programs for various Hi Tech and Financial services companies.

His area of experience includes Digital and Web Technologies, Financial and Business Process Transformation for Supply Chain and Finance. Rahul has over 12 implementation projects experience leading global teams responsible for all aspects of digital transformation. Rahul’s previous experience was with one of the top global consulting companies in a leadership role.

Summary of Lecture Conducted:

In the lecture resource person has briefed on following points:

ERP provides a bunch of services for companies trying to improve how efficiently they operate. The systems are constantly being updated by the proprietors to offer the speediest and most reliable services.

ERP works particularly well for tracking and managing things such as a company's capacity for production, cash levels, raw materials at its disposal, payroll information, and purchase orders.

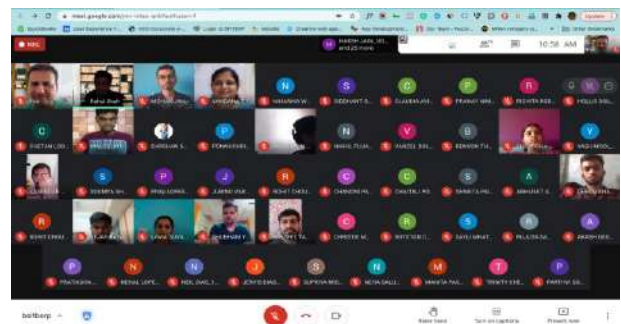

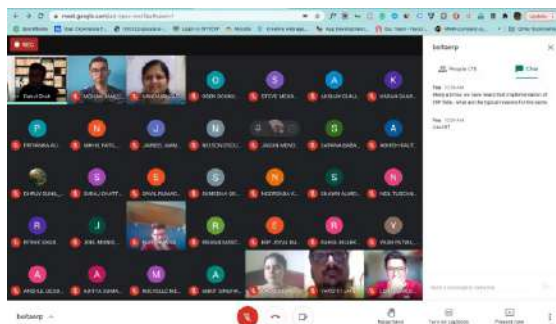

ERP software covers a lot of different areas within a company – accounting, sales, purchasing, and manufacturing. One of the most important needs it addresses is the need to communicate all pertinent information to the many departments that may require the data.

Enterprise Resource Planning in the IT Industry:

Because of ERP system's efficiency, success – and therefore, desirability – it is an industry worth several billions of dollars today.

Within the past decade specifically, ERP systems skyrocketed in terms of use and, therefore, began to dominate the IT sector. Though the earliest ERP systems were designed specifically for use by large enterprises, they can now be found in a growing number of smaller companies because of their usefulness. Modern Cloud based ERP systems are providing the most user-friendly and cost effective services to almost all sized and types of business industries.

Report on “BLOCK CHAIN”

Event Date: **25th November 2020**

Time: **10:00 am to 12:00 am (2 Hrs)**

Venue: **Online (Google meet)**

No. of Registered Students: **96 (TEITA/B)**

Resource Person: **Prof Namdev Sawant** (HOD and Asst. Prof. Dept. of CS SKNCOE Pandharpur)

A. Description:

As a part of Academic Activity of the INFT Department, a series of sessions are arranged every semester to bridge the gap in the syllabus. This semester for the third-year students of INFT Department of 2020-2021 batch, a Special Topic Seminar on “Block Chain” was conducted on 25/11/2020 in online mode using google meet.

The major objective of the session was to familiarize the attendees with applications of Block Chain in various domains of Network Security

The following topics were covered during the session:

1. Sample Crime Example
2. Storage Mechanism
3. What is Block Chain?
4. Cryptography in block chain.
5. Bitcoin and Block chain
6. Features of Block chain
7. Generations of block chain
8. Areas of Block chain application.
9. HER Application
10. Project topics on Block chain

The session was a big success, as all the participants had shown keen interest in this upcoming technology and asked many questions related to the topic. The Resource Person delivered an excellent session giving insights in to Block chain, and its real-life applications. This made students interested and motivated to take up projects in the said domain. The response and feedback from the participants, about the session was very good and as per the feedbacks, they would want to attend more sessions like this in future.

B. Images of the Session:

The image shows two screenshots from a Zoom meeting. The left screenshot displays a slide titled "Sample Crime Examples" with various news articles and images. The right screenshot shows a slide titled "Storage Mechanism" with the sub-heading "Example of Distributed Storage/Ledger". The diagram illustrates a central "Ledger" being shared among four nodes: Karthi, Rahul, Nisha, and Ramesh. Each node has its own "Ledger of Karthi" (or other names) and a "Ledger of Rahul". A central starburst labeled "Ledger" is connected to all nodes. Arrows indicate data flow: Karthi sends 200 to Rahul, and Rahul sends 80 to Ramesh. The nodes also show their own local ledgers with entries like "Karthi - 200" and "Rahul - 200".

The image shows a Zoom meeting slide titled "What is Blockchain?". The slide content is as follows:

What is Blockchain ?

- A Blockchain is a open, distributed ledger that can be record transactions between two parties efficiently and in a verifiable and permanent way.
- **Open**:- Accessible to all
- **Distributed or Decentralized**:- No single control

The slide also includes a citation: "Lastly, ... Harvard University".

The image shows a Zoom meeting slide titled "Cryptography in Blockchain?". The slide content is as follows:

Cryptography in Blockchain ?

Input	Cryptographic Hash Function	Hash Value / Digest
SKNSCOE	Cryptographic Hash Function	50b0 918e efb0 4d2a ea73 7111 4f3e d0bc 1a02 0247 e9b2 8c31 938d 6d2c 957c b1dc

E. Results/ Impact Analysis:

Quiz Question paper:

The screenshot shows a Google Forms quiz titled "Block Chain Quiz". The form is displayed in a browser window. The quiz contains three questions, each worth 1 point. The first question asks "When a record is on a blockchain, who can access it?". The second question asks "Once records are submitted on a blockchain, can they be altered?". The third question asks "Is it possible to program a blockchain to record transactions automatically?". The form is currently empty, with no answers provided.

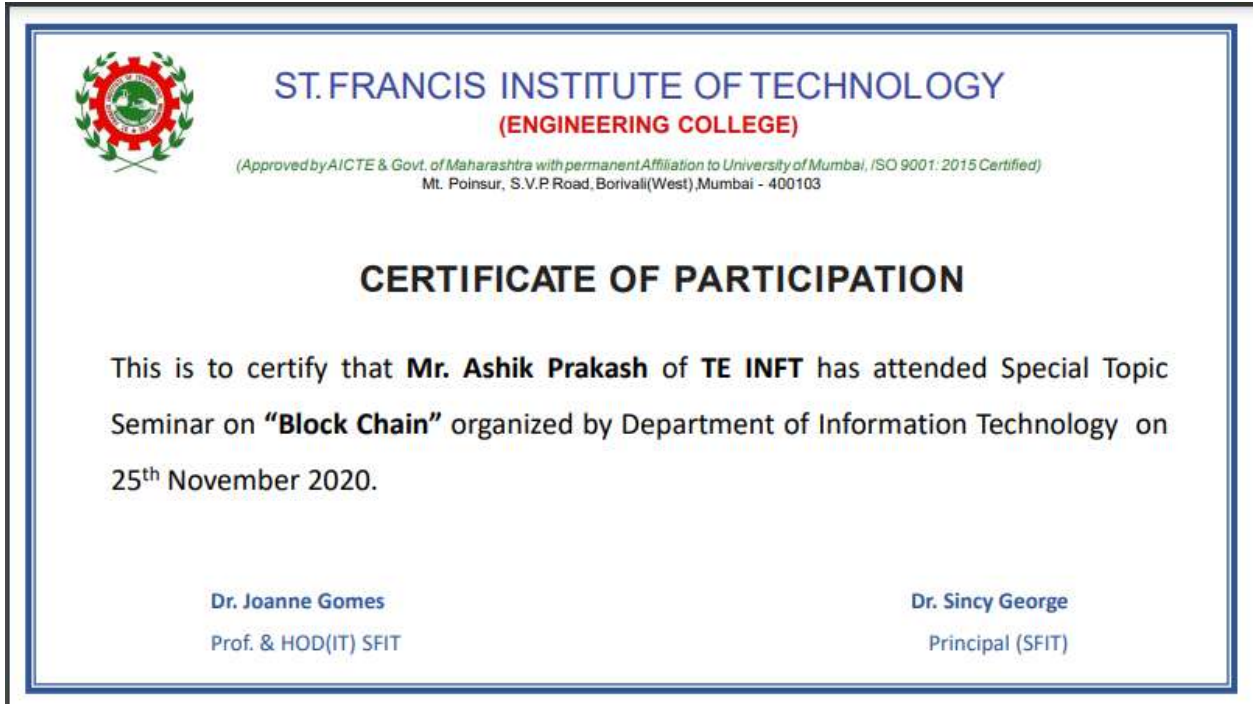

Quiz Result:

Marks	Students score before the session	Students score after the session
above 80%	68.18%	83.30%
between 60% to 79%	24.24%	9.00%
Below 60%	7.50%	7.50%

It has been observed that many students could answer a greater number of the questions after attending the seminar which shows that student learned about, how to use blockchain for Network Security.

Report of Webinar on “Glimpse of Project management from IT industry”

Event Date: **1st May 2021**

Time: **11:00 am to 12:30 pm (1.5 Hrs)**

Venue: **Online (Google meet)**

No. of Registered Students: **102 (TEITA/B)**

Resource Person: **Mr Khalid Ziya**, Vice President at Deutsche Bank

A. Description:

As a part of Academic Activity of the INFT Department, webinar on project management was organised to bridge the gap in the syllabus of Software Engineering and Project Management (SEPM) subject. This semester for the third-year students of INFT Department of 2020-2021 batch, a Special Topic Seminar on “Glimpse of Project management from IT industry” was conducted on 1/5/2021 in online mode using google meet.

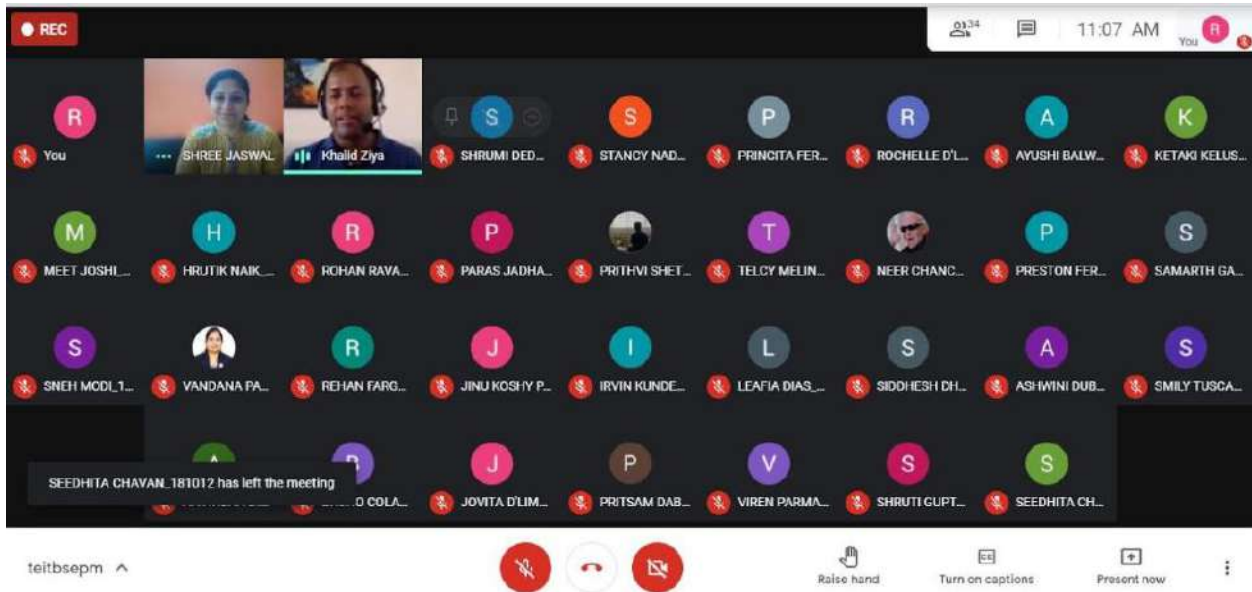

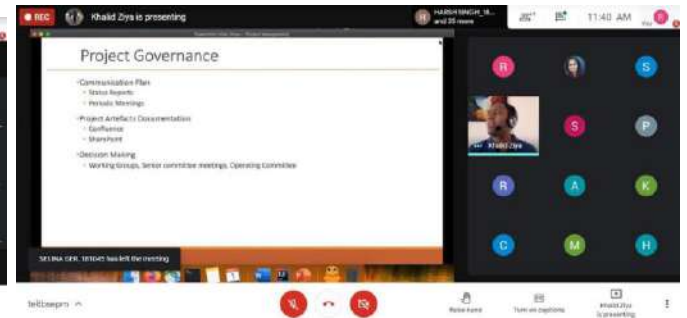

The major objective of the session was to familiarize the attendees with actual project life cycle in the IT industry, the risks faced, some key practical aspects and examples of failed projects.

The following topics were covered during the session:

1. Project Management Stages
2. Variables
3. Key Stakeholders
4. Project Governance
5. Project Scheduling – Gantt Chart
6. Project Budgeting and Costing
7. Project Management Tools
8. Project Risk Management
9. Some Example - Software Delivery, Infra and Software Delivery, Vendor Projects
10. Key Practical Aspects
11. Example of Failed Projects

The resource person, Mr. Khalid Ziya, delivered an excellent session giving insights about Project Management, and its real-life applications. He also gave many tips and tricks for learning various ways for making the projects better and flawless. The questions asked by the students were very skillfully and informatively answered by Mr. Ziya. The response and feedback from the participants, about the session was very good and as per the feedbacks, they would want to attend more sessions like this in future.

Report on “LATEX WORKSHOP”

Event Date: 21st April 2021

Time: 10:00 pm to 12:30 pm (2.5hrs)

Venue: **Online (Google meet)**

No. of Registered Students: **117 (TEITA/B)**

Resource Person: **Ms. Amrita Mathur**

A. Description:

As a part of Academic Activity of the INFT Department, a series of sessions on Project Report writing are conducted for the third year students of INFT Department of 2020-2021 batch. The sessions were conducted on 21st April 2021 for TEITA and TEITB students in online mode using google meet.

The major objective of the session was to explain students the importance of presentation of document and how using LATEX software, a neat document can be prepared.

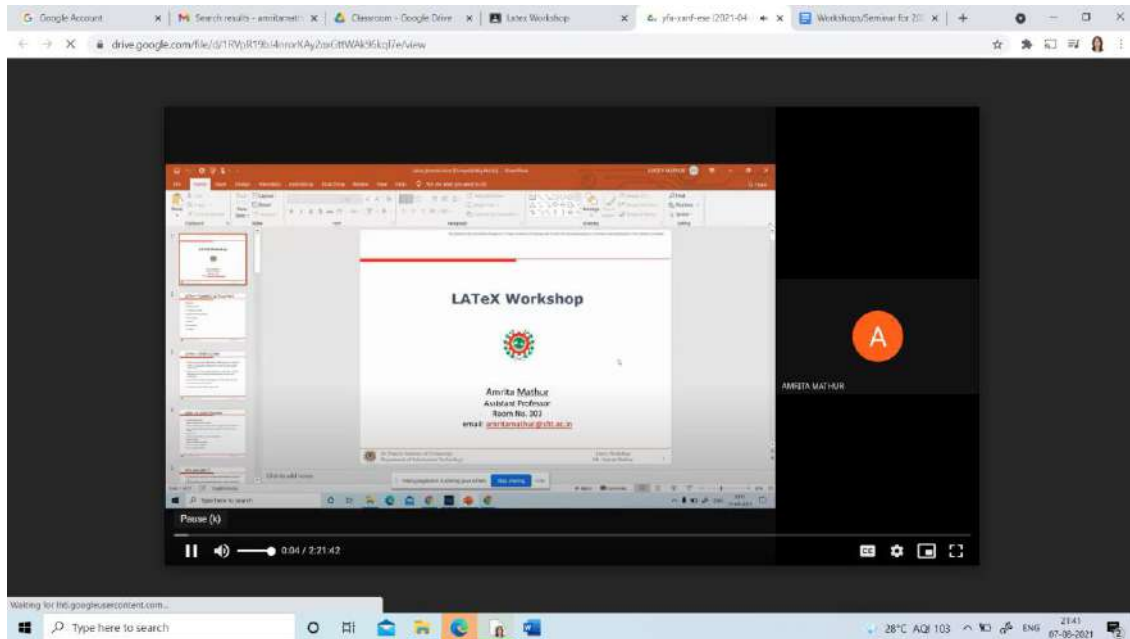

The following topics were covered during the session:

1. Creating LATEX document
2. Creating sections and subsections
3. Typecasting
4. Creating ordered and unordered list
5. Inserting images in document.
6. Inserting tables in document.
7. Inserting References.

At the end of the session students were asked to write their project proposal using LATEX.

Report on “LATEX WORKSHOP”

Event Date: 30th November 2020

Time: 4.00-6.00PM

Venue: Online (Google meet)

No. of Registered Students: 64

Resource Person:

Dr Pratik Bajaria,

Visiting Asst Professor Department of Electrical Engineering,

SFIT, Borival

A. Description:

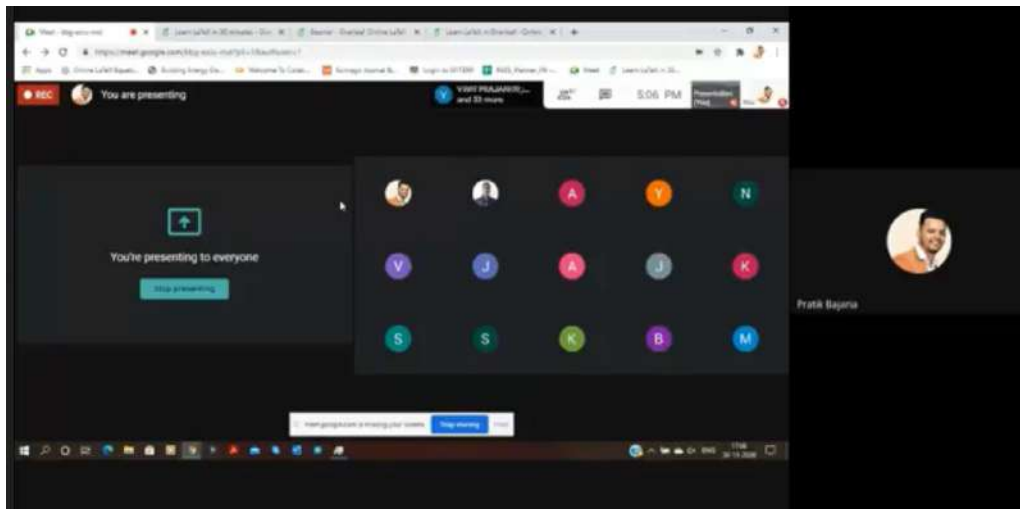

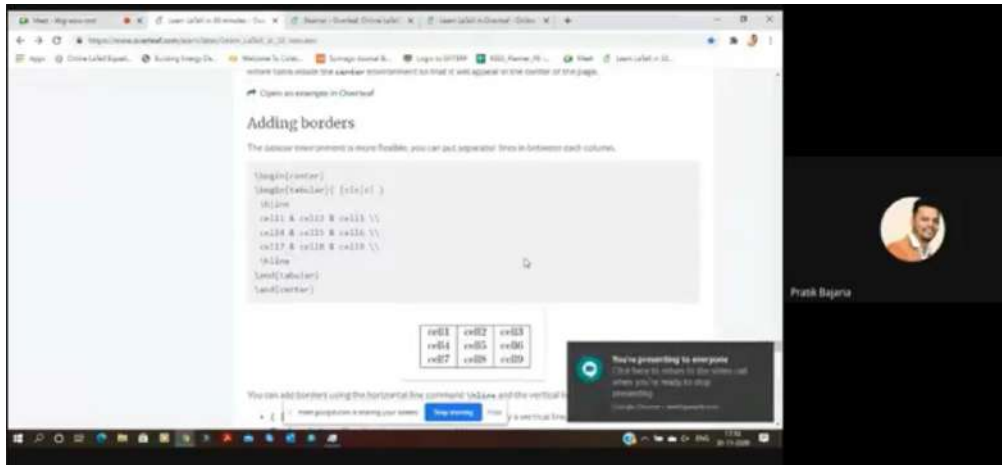

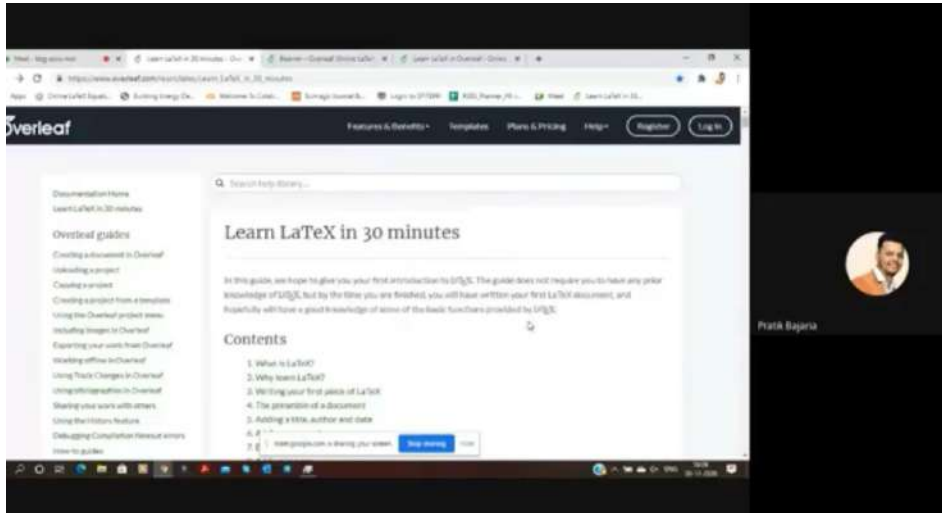

A two hours workshop on “LaTeX” had been arranged by the department of Electrical Engineering for SE and TE Electrical students. Dr Pratik Bajaria, Visiting Asst Professor Department of Electrical Engineering, SFIT, Borivali was the speaker. Sir had covered the topics how to write report and how to make presentations using LaTeX.

Topics Covered

- 1 What is LaTeX?
- 2 Why learn LaTeX?
- 3 Writing your first piece of LaTeX
- 4 The preamble of a document
- 5 Adding a title, author and date
- 6 Adding comments
- 7 Bold, italics and underlining
- 8 Adding images

As an outcome of this course SE Electrical students made their mini project report for term I using LaTeX.. This workshop was conducted successfully, and all participants took active part during the entire course.

E. Results/ Impact Analysis:

Students have made their third semester mini project report in LaTeX. It has been observed that using this software students could make the formatting and all properly and easily.

Report on “PROBLEM DEFINITION”

Event Date: 23rd March 2021

Time: 9:00 pm to 10:30 pm (1.5hrs)

Venue: **Online (Google meet)**

No. of Registered Students: **90 (TEITA/B)**

Resource Person: **Dr. Nitika Rai**

A. Description:

As a part of Project Activity of the INFT Department, a series of sessions to facilitate students for project work is underway for the third-year students of INFT Department of 2020-2021 batch.

A session on “How to write problem Definition” was conducted on Tuesday, 23rd March 2021 for TEITA and TE ITB students respectively from 9:00 am to 10:30 pm in online mode using google meet.

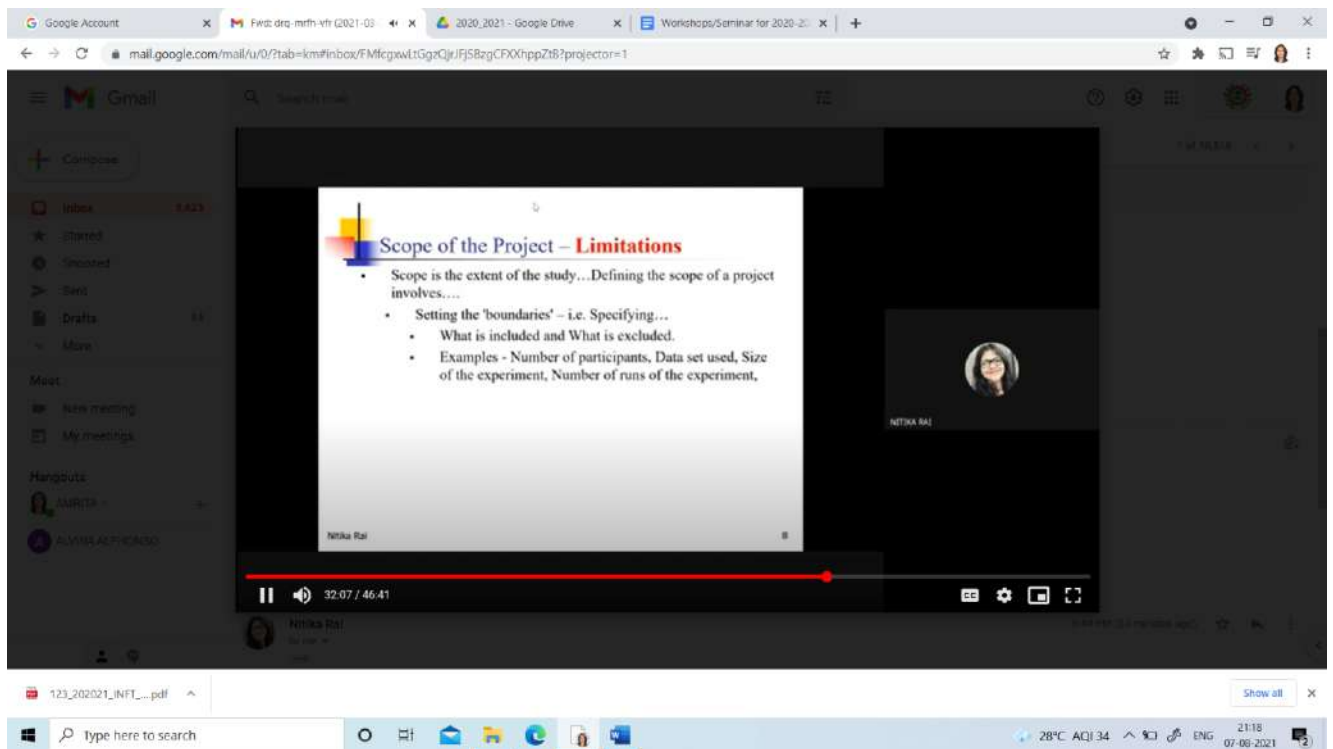

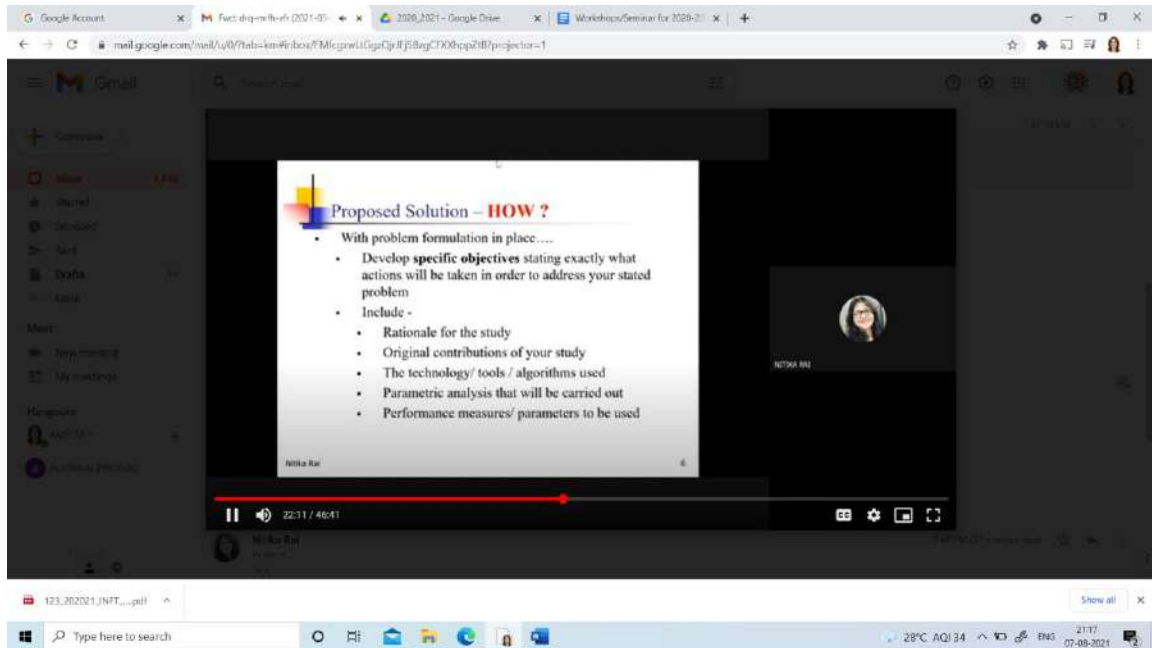

As a part of session students were also given with a activity by resource person as listed below:

- Define problem for their final year project.

The session concluded by vote of thanks to resource person by project coordinator.

Example -

- Selection of an optimum routing protocol for a particular application is one of the critical design parameter in any wireless communication system. The performance of the routing protocols is a function of network characteristics. This project aims to carry out a comprehensive comparative study of various routing protocols in order to identify the most optimal one for a given application.

The project is implemented using Network Simulator-2 software and NS Generator software wherein a wireless communication system is designed with random topology and a given routing algorithm. The above system is analyzed on the basis of the following performance parameters -

- Throughput
- Packet delivery ratio
- Jitter
- Delay
- Normalized routing overhead

Further, a parametric analysis is carried out to consider the effect of change of -

- Change of packet interval
- Change of packet size
- Change in density of nodes
- Change in percentage of mobility of nodes
- Change in speed of movement of nodes

Based on the above investigations, a matrix is created that maps the ranking of various routing protocols under various conditions. This matrix can be used to draw conclusions of suitability of a routing protocol for a given application.

Report on “Result Analysis”

Event Date: **9th April 2021**

Time: **5:00 am to 7:00 am (2 Hrs)**

Venue: **Online (Google meet)**

No. of Registered Students: **40 (BEITA/B)**

Resource Person: **Dr. Vaishali Jadhav**

A. Description:

As a part of Project Activity of the INFT Department, a series of sessions to facilitate students for project work is underway for the Final-year students of INFT Department of 2020-2021 batch.

A session on “Result Analysis” was conducted on 9th April 2021 for BEITA and BE ITB students respectively from 5:00 pm to 7:00 pm in online mode using google meet.

Following topics were covered by resource person:

1. Comparison between Results and Discussion.
2. Placing of Results and discussion in research paper
3. Visualization of Results.
4. HER Application
5. Project topics on Block chain

The session was concluded by vote of thanks by project coordinator.

B. Images of the Session:

The image is a screenshot of a Google Meet session. At the top, the browser tabs show a Google Account, a Meet link, and two PDF documents. The Meet interface shows 'VAISHALI JADHAV is presenting' and the time '6:07 PM'. The main content is a presentation slide titled 'Comparison' with a blue header. The slide is divided into two columns: 'Results' and 'Discussion'. The 'Results' column includes a bar chart icon and a list of five bullet points: 'Include experimental data, but not the interpretation', 'Incorporate statistical analyses where applicable', 'Follow sequential organization when presenting data', 'Include texts, figures, and tables', and 'Avoid speculations'. The 'Discussion' column includes a speech bubble icon and a list of five bullet points: 'Explain any surprising, unexpected, or inconclusive result(s)', 'List all the major findings of your study', 'Interpret and explain the findings effectively', 'Mention limitation if any', and 'Relate to what others have done'. At the bottom of the slide, there is a hashtag '#SmartShorts' and a link to 'Visit smago.com/academy today to know more about publishing!'. On the right side of the Meet window, there is a vertical list of participant initials in colored circles: C, A, C, B, R, S, P, C, L. The presenter's name 'VAISHALI JADHAV' is highlighted in green. At the bottom of the Meet window, there are icons for 'Raise hand', 'Turn on captions', and 'VAISHALI JADHAV is presenting'. The Windows taskbar is visible at the very bottom, showing the search bar and system tray.

Report on “PROJECT IDEAS”

Event Date: 23/01/2021

Time: 1:00 pm to 3:30 pm (2.5hrs)

Venue: **Online (Google meet)**

No. of Registered Students: **93 (TEITA/B)**

Resource Person: **Mr. Suryaprakash Gupta** (Sr. Engineering Manager, KoolKanya Pvt. Ltd)

A. Description:

As a part of Academic Activity of the INFT Department, a series of sessions on BE Project is underway for the third-year students of INFT Department of 2020-2021 batch. The sessions was conducted on 23/01/2021 for TEITA and TEITB students in online mode using google meet.

The major objective of the session was to familiarize students with “Project Domains” and latest technologies that can be used to implement final year project. Students were also made aware with the problems which can be faced by various organizations post pandemic situation and they can think of a project to solve such societal problems.

The following topics were covered during the session:

1. Why Project?
2. How to choose a Topic?
3. Trending Topics
4. Trending startup ideas.
5. Choosing Mentor and Team members.

The session concluded by vote of thanks to resource person by project coordinator.

Report on “Understanding Solutions to Computing Puzzle in Multiple Paradigms”

Event Date: 24/11/2020

Time: **3:00 pm to 6:00 pm (3 Hrs)**

Venue: **Online (Google meet)**

No. of Registered Students: 62 (SE IT A) and 60 (SE IT B)

Resource Person: Prof Anup Kunte, Assistant Professor, Konkan Gyanpeeth College of Engineering Karjat. Dist: Raigad

Description:

As a part of Academic Activity of the INFT Department, a series of sessions are arranged every semester to bridge the gap in the syllabus. This semester for the second-year students of INFT Department of 2020-2021 batch, a Special Topic Seminar on “Understanding Solutions to Computing Puzzle in Multiple Paradigms” was conducted on 24/11/2020 in online mode using google meet.

The major objective of the session was to familiarize the attendees with applications of different programming paradigms

The subject of ‘Paradigms and Computer Programming Fundamentals’ is introduced newly in R2019 under University of Mumbai for second year engineering students of Information Technology. The subject focuses on different paradigms or styles of programming that can be used for varied application domains. The subject focuses on the fundamentals of each of the paradigms.

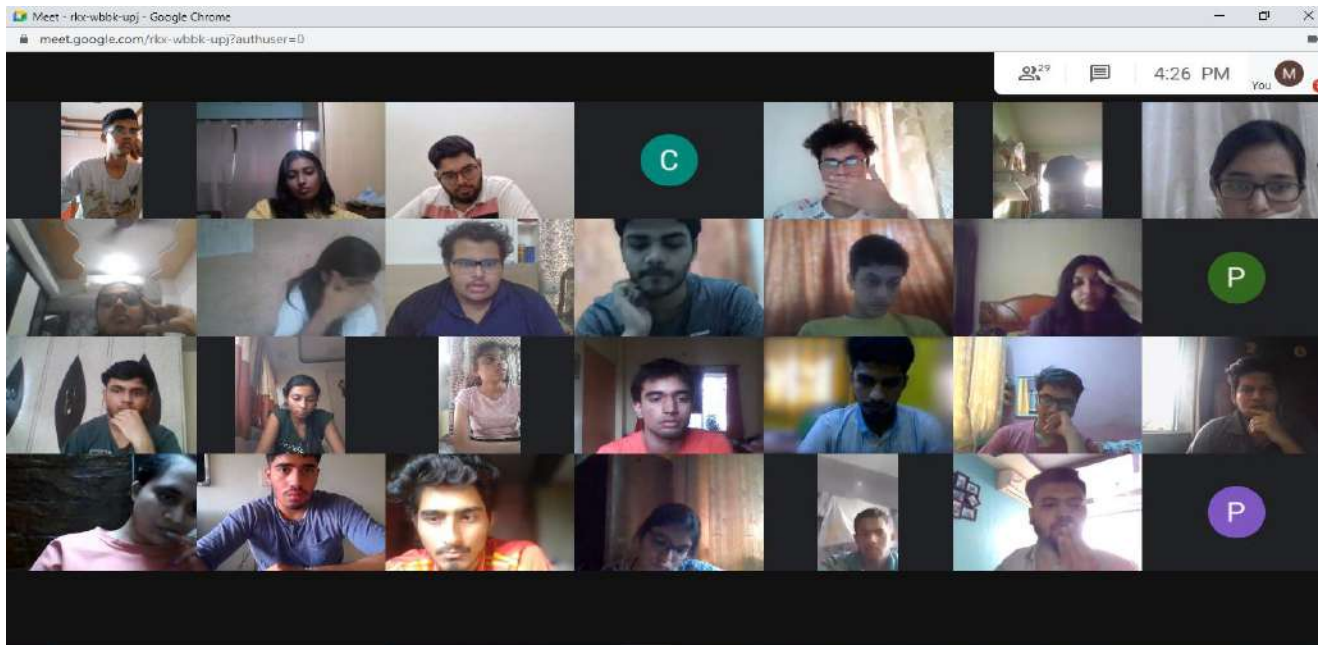

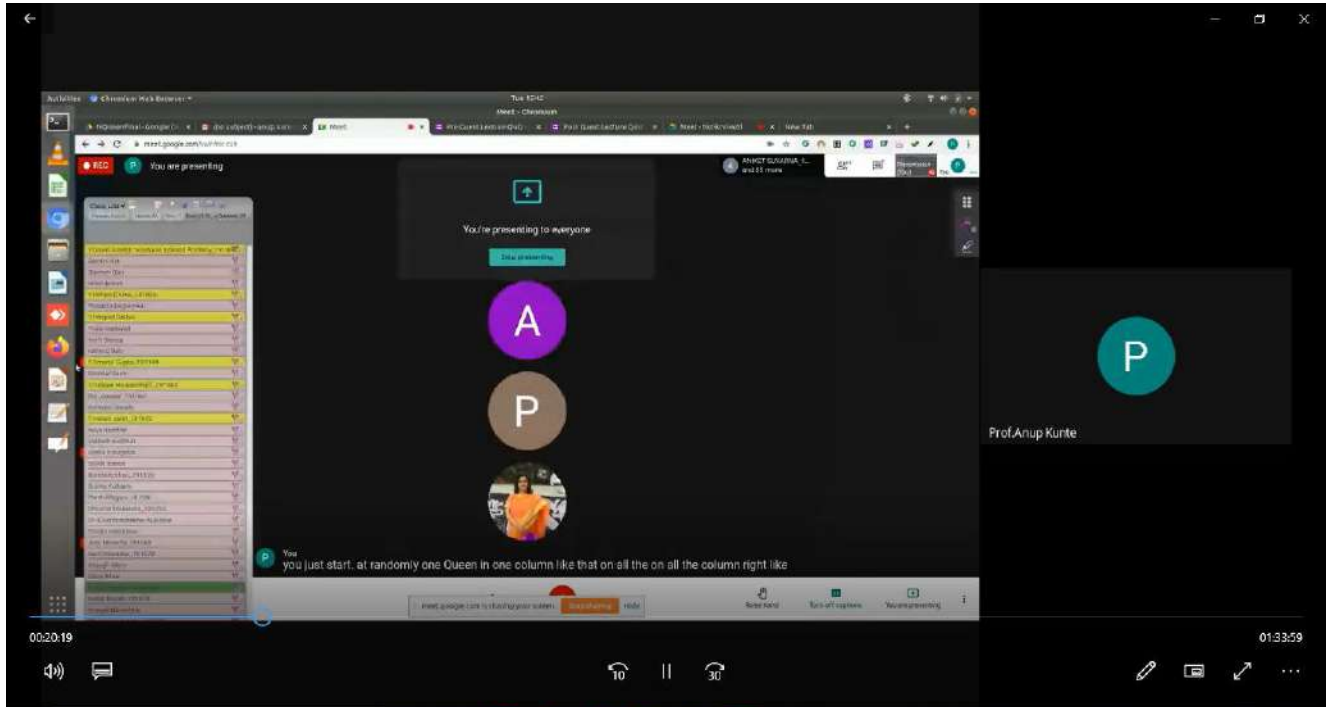

The major gap of the subject is –No applications were discussed in the syllabus. To overcome the gap, seminar on “Understanding Solutions to Computing Puzzle in Multiple Paradigms” was conducted for SE IT students. The seminar focussed on-

- Brief introduction to different paradigms
- Combinatory Problems.
- N Queen Problem.
- Backtracking Solution to 4-Queens Problem.
- N Queen Implementation
 - Sol 1: C Programming
 - Sol 2: Java
 - Sol 3: Prolog
 - Sol 4: Haskell

The resource person implemented the solutions in each of the paradigms for better understanding of the problem.

The seminar was highly appreciated by the students.

Class/ Div
122 responses

A pie chart titled "Class/ Div" with "122 responses". The chart is divided into two segments: a blue segment representing SE-IT-A at 54.9% and a red segment representing SE-IT-B at 45.1%. A legend to the right of the chart identifies the colors: a blue dot for SE-IT-A and a red dot for SE-IT-B.

Category	Percentage
SE-IT-A	54.9%
SE-IT-B	45.1%

Report on PRAYAS 2020 – 2021

Event Date: 19th June 2021

Time: 10:00 am to 1.00 pm

Venue: Online (Google meet)

No. of Students: 50

Chief Guest: Mr Rohan Asthana

Prayas 2021 Report

Prayas 2021 was an epoch-making event in more ways than one! Not only was it the very first time the entire event was conducted online, it was also one that saw the participation of 50 students representing 7 different subjects. The Basic Science and Humanities department, as a whole, did not let the constraints of the Covid-19 lockdown affect the annual tradition of Prayas in any way.

The event was conducted on 19th of June 2021, from 10:00 am to 2:00 pm. The chief-guest for this year was none other than our very own alumni, Mr. Rohan Asthana, who is now the founder of Onbac, an IT consulting and services company, based in Mumbai. He is also part of the Departmental Advisory Board for IT at SFIT. Hearing our own protege share his experiences of how college shaped him and guided him on the path of success that he is on now, filled us with a renewed sense of warmth and pride for our Institution.

Prayas 2021 was effectively organized by the entire FE department, led by the FE Coordinator, Dr. Poonam Hemnani. The event wouldn't have been a success, without the Coordinators, Ms. Rekha Ajikumar and Ms. Grishalda D'souza, along with the co-coordinator Ms. Arti Bhatnagar. It was backed by both the teaching and non-teaching staff of the FE. We also had a team of 5 student volunteers who handled video editing, along with 4 comperes who ensured the event's smooth transition.

The inaugural event was held on Google Meet and it was attended by the organizers and the dignitaries. It was telecast live on YouTube, where students and parents could actively view the entire program. The event began with the college anthem being played, after which the Head of the FE Department, Dr. Poonam Hemnani, delivered the welcome address. Our principal, Dr. Sincy George encouraged us through the Principal's address. Ms. Rekha Ajikumar, the event coordinator, then gave the highlights of Prayas 2021. After this, our chief guest, Mr. Rohan Asthana was welcomed to deliver his keynote address. Mr. Asthana spoke about how SFIT has always encouraged students to grow - not only as professionals with a zest for learning - but also as individuals who give back to the community through their service. He gave the students 3 key points - passion, flexibility and teamwork, and encouraged them to use their college years to develop into the best version of themselves. On this note, our chief guest declared Prayas 2021

Open! The inaugural session was concluded by a vote of thanks by Ms. ArtiBhatnagar, the co-coordinator for the event.

This year, we had 2 groups of projects from all of the 7 subjects - 14 project presentations by 50 participants in all! In order to ensure the smooth running of all presentations, the project groups were divided into 3 Google Meet rooms, each presided by the subject experts and faculty in-charge. A special thanks to our subject experts Mr. Bysani Malakondaiah, Dr.C. Hariprasad, Dr. Deepak Jaiswal and Ms. Bidisha Roy for their detailed comments and suggestions for improvement to each of the project groups. Each of the presentations were pre-recorded and compiled by our 5 student volunteers. These were presented in the 7 classes so that none of the students would miss out on the valuable projects.

Overall, despite the constraints that virtual events have, and considering the large task force of staff, participants and volunteers that were behind this programme, this event was undoubtedly a big success! A huge sense of gratitude is owed to the chief guest, college dignitaries, coordinators, subject experts, the entire staff, the project guides, participants and volunteers!

Name of the Event: Prayas 2021

Department: Department of Basic Science and Humanities

Faculty Advisor: Coordinators – Ms. Rekha Ajikumar and Ms. Grishalda D’Souza
Co-coordinator –Ms. Arti Bhatnagar

About the Event: Prayas is a project exhibition presented by the FE students. It was initiated in the year 2015. The Department of Basic Science and Humanities has successfully conducted it for past seven years. Every year students enthusiastically participate by showcasing their creative ideas in the form models, presentations and videos.

This year it was conducted on an online mode. The event was graced by Mr. Rohan Asthana , SFIT Alumnus, as the Chief Guest. His key thoughts on having passion in life, flexibility in life and importance of team work inspired all the students.

The project exhibition included projects from subjects in the FE curriculum Mathematics, Physics, Chemistry, Basic Electrical and Electronics, Computer Programming, Mechanics and Professional Communication and Ethics. In all there were 14 projects in the form of PowerPoint presentation and video. Around fifty six students, under the guidance of the subject guides participated in this exhibition. Subject experts from different department like Computer, EXTC and Mechanical were invited to give valuable feedback and suggestion to the participants. Overall the event was conducted smoothly and successfully.

Objectives of the Event:

- To showcase innovative thinking and practical approach.
- To transform knowledge into application
- To share the learning with peers

Activities:

- Key note address to all the FE students on you tube by the Chief Guest Mr. RohanAsthana
- Online project presentation on online platform (google meet)
- Video presentation of all the projects for the FE students.

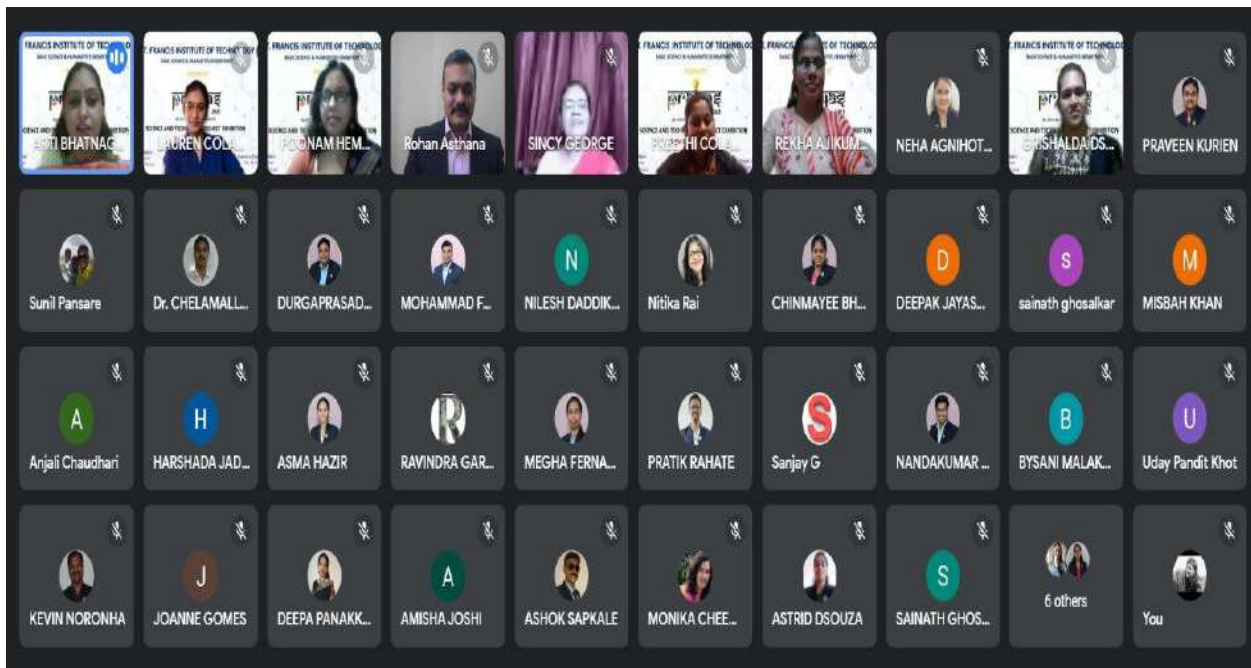

Awards/Achievements: NIL

Webinar on Read Effectively by Ms. Deepa Panakkal on 15th May 2021

To realize the dream of transforming the education system and making it truly relevant for the challenges of 21st century, National Education Policy (NEP) 2020 was approved by the Govt. of India on 29th July 2020. Implementation of the NEP can begin with effective reading. A webinar to this effect was organized by the Library and NDLI Club of St. Francis Institute of Technology on 15th May 2021.

Number of Registrations: 100

Resource Person: Ms. Deepa Panakkal, Asst. Professor, Department of Basic Sciences and Humanities (FE), SFIT
Platform: Google Meet

The event began by imploring God Almighty's blessings followed by introduction and welcome by Mst. Shirang Joshi (SE ExTC) and Ms. Madhura Angechekar (TE CMPN) respectively.

Ms. Deepa with her usual contagious gust of enthusiasm took over the session with great clarity and engaging experience about the importance of reading, its role in overall development of a human being.

She highlighted on Reading as a Skill while citing LSRW (Listening Speaking Reading Writing). She strongly focused on the varied reading strategies. Eye fixation and Speed of reading are the major challenges while reading for a longer period of time and one needs to develop such habits over a period of time.

Ms. Deepa kept the online participants on their digital toes by engaging them in many short quizzes and self evaluation tests based on reading. Speed Reading was one such activity which was praised by all.

The webinar ended with a question and answer session moderated by Mst. Bhuvnesh Nemade (TE ELEC) and a Vote of Thanks by Mr. Paul Fernandes (Head - NSS Cell, SFIT).

LIFE SKILLS

REPORT

YOGA FOR IMMUNITY AND WELLNESS

Date: 21st June, 2021

Day: Monday

Time : 8:00 to 10:00

Venue: Online, Google meet

No. of participants: 55 volunteers 6 faculty member

DEPARTMENT	CMPN	ELEC	EXTC	INFT	MECH	FACULTY	TOTAL
NO. OF PARTICIPANTS	13	04	09	17	02	06	61

Objectives:

- To observe International Yoga Day
- To enable the student to have good health.
- To promote physical well being

SFIT NSS volunteers organized This event "YOGA FOR IMMUNITY AND WELLNESS" on the occasion of International Yoga Day. The Program speaker was Dr Amol Shah and Ms Kranti Mali Shah. In this event 55 volunteers and 6 faculty members participated.

The instructors taught us how to do Yoga and benefits from doing Yoga on our immunity and to our health . They both showed how to do yoga poses like Crocodile pose, Child's pose, Supine Twist, Anulom, Vilom, Pranayam etc. and they told what are the benefits of doing it like it improves posture, increases flexibility, builds muscle strength, increases blood flow.

Yoga improves strength, balance and flexibility, it reduces your risk of injury. Each yoga pose targets a specific muscle.

The session was a great success and volunteers got a lot to learn from this session.

REPORT

AN AWARENESS SESSION FOR GIRLS ON "MENSTRUAL HEALTH AND HYGIENE" FOR FE

Date: 23rd July, 2021

Day: Friday

Time: 9 am -10 am

Venue: Online, Microsoft Teams

No. of participants: 21 volunteers 1 faculty member

DEPARTMENT	CMPN	ELEC	EXTC	INFT	MACH	FACULTY	TOTAL
NO. OF PARTICIPANTS	04	03	06	05	03	01	22

Objectives:

- To increase awareness among adolescents on Menstrual Hygiene.
- To eliminate social taboos related to Menstruation

NSS SFIT volunteers organized a webinar on Menstrual Health and Hygiene in collaboration with Global Hunt Foundation.

The speaker of the webinar was Ms. Ankita Sukhwai, CSR Executive, Unicharm India. She has been a part of Unicharm India for almost 5 years where she is handling the program implementation on menstrual health and management.

The session entailed a comprehensive understanding on the what, why and how of menstruation, consisting of the meaning of menstruation, developing a biological understanding, talking on related social taboos and aware the volunteers on hygiene practices to be maintained during menstruation.

This webinar was very informative for the participants and it helped spread awareness on this issue.

REPORT

AN AWARENESS SESSION FOR GIRLS ON "MENSTRUAL HEALTH AND HYGIENE" FOR TE

Date: 26th July, 2021

Day: Monday

Time: 9 am -10 am

Venue: Online, Goggle Meet

No. of participants: 47 volunteers 1 faculty member

DEPARTMENT	CMPN	ELEC	EXTC	INFT	MECH	FACULTY	TOTAL
NO. OF PARTICIPANTS	12	04	15	14	02	01	48

Objectives:

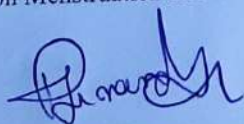

- To increase awareness among adolescents on Menstrual Hygiene.
- To eliminate social taboos related to Menstruation

NSS SFIT volunteers organized a webinar on Menstrual Health and Hygiene in collaboration with Global Hunt Foundation.

The speaker of the webinar was Ms. Roshnee Bhowmick, CSR Executive, Unicharm India. Mainly responsible for all CSR activities in West Bengal. Campaigning for Menstrual Health and Hygiene management in West Bengal mainly in educational institutions, non profit organizations and in the community level as well.

The session entails a comprehensive understanding on the what, why and how of menstruation consisting of the meaning of menstruation, develop a biological understanding, talk on related social taboos and aware them on hygiene practices to be maintained during menstruation.

Given the uncertainties of the current time we suggest if through virtual conferencing mode the session can be taken for girls. She also told us about Health Lifestyle, Then we did some quizzes on Menstruation and then we took a Question answer session.

INTERNATIONAL WOMEN'S DAY CELEBRATION AT SFIT

Date : 8th March, 2021

Day: Monday

Time: 9:00 am – 11:00 am

Venue: New Auditorium SFIT/ Online

Resource Person: Amit Singh Bisht

No of Participants : 87 volunteers, 5 faculty members

CMPN	ELEC	EXTC	INFT	MECH	STAFF	TOTAL
24	13	26	16	8	5	92

Objective:

- To Celebrate International Women's Day and to honour all the women in our lives.
- To express love and gratitude towards women's' contribution to our lives and society
- To empower our girl students and train them in self defense

On the occasion of International Women's Day the NSS unit of SFIT and the student council jointly organized a session on Self Defense. The session began at 9: am with the college anthem. It was followed by an all women band. The Session was guided by Mr. Amit Singh an Alumnus of SFIT. He taught the participants a few moves to protect themselves in salutations of harassment and any other type of physical attack.

The outcome of the session is that the participants learnt a few techniques to protect themselves and they were exhorted to continue the practice of their learnings and use them in the time of need.

Aayush Mohite welcomed the resource person and Urvansh Shah proposed a vote of thanks.

SOFT SKILLS

Webinar on “Professional Ethics”

A webinar on “Professional Ethics” was conducted for the Second-year Engineering students of the Department of Information Technology on 16 October 2021 from 11 am to 12.30 pm. Ms. Neha Agnihotri, Assistant Professor, FE Department, SFIT was the resource person for this session. The seminar focused on the corporate standards of behaviour expected from professionals. The webinar also dealt with various ethical dilemmas related to work ethics, professionalism, etc.

Using various online quizzes, polls, case studies and discussions, the students were guided on how to make the most ethical decision in the seemingly difficult circumstances. A Google form quiz was also conducted towards the end of the session to assess their understanding of the concepts. Based on the feedback form circulated, around 90% of the students found the session useful and of high quality.

The screenshot shows a Zoom webinar interface. The main content is a presentation slide titled "Look around us!". The slide features two images of food labels. The left image shows a label with a barcode and the text "CONTAINS: MILK. MAY CONTAIN: NUTS, WHEAT, SOYA." and the website "www.cadbury.co.uk". The right image shows a label with Thai text and English ingredients: "Ingredients: Potato 62.2%, Rice Bran Oil 30.6%, Seasoning 7.2%, Flavor Enhancer (Monosodium Glutamate, Ribotides), Bulking Agent (Maltodextrin), Sweetener (Aspartame), Color (NS 01), Acidity Regulator (INS 330, INS 334), Anticaking Agent (INS 551), Packaging Gas (N₂). Natural Flavor, Natural Identical Flavor, No Preservatives. Allergen Information: Contains Wheat, Shrimp and Soybeans". The Zoom interface includes a top bar with "NEHA AGNIHOTRI is presenting", a grid of participant avatars (NATHEN CARNEIRO, ABHISHEK PATEL, RISHMA KURUMBOOR, JUSTIN MADHRI, NEHA AGNIHOTRI, PARTH MHATRE, and 38 others), and a "You" avatar at the bottom.

Let's Think!

Jason, a Junior System Administrator clocked in 4 minutes late for work this morning. Being late this once means that he will not receive the perfect attendance incentive which he needs, given his daughter's recent series of hospitalizations.

It's not that Jason didn't make an effort to be there on time. He actually arrived in the office five minutes early but was unable to clock in immediately because his direct superior, Rafiy, asked him for an informal project progress report as soon as he walked in the door.

As a Junior System Administrator, Jason has access and the capability to edit the company's attendance records. He figures that since he was unable to punch in only because of his boss, it wouldn't hurt to edit the timestamp on his attendance for today.

Has Jason done anything wrong?

You're at dinner with your friend. At the end of dinner, your waiter hands you the check. After reviewing your tab, you realize the appetizer you ordered wasn't included on your bill. What do you do?

- Ignore the waiter's oversight and tip based on the total listed on the bill.
- Don't say anything but leave a larger tip than you normally would.
- Use the money you saved on the appetizer to take your friend out for ice cream.
- Bring the oversight to your waiter's attention.

Career training session by Global Talent Track

Academic Year: 2020-21

Dates of Training: 11/08/2021- 20/08/2021

Training Time: 4pm-6pm

No of students: 500 BE all branches

The Global Talent Track with whom the Institute has a memorandum of understanding conducted a training program for the BE students of all the departments. They provide skills to students and make them Industry ready. The training program is for 24 hours.

Objectives:

- To transform individuals into problem solver, achievers, changemakers and leaders.
- To guide the students to acquire soft skills.
- To enhance the students communication and presentation skills.

The Topics Covered are the following:

- Expectation Setting
- Organizational structure
- Goal setting,
- SWOT Analysis,
- public speaking,
- presentation skills,
- Email Etiquette,
- Telephone Etiquette,
- Grooming, body language,
- resume writing and personal mock interviews.

As part of their CSR initiative Barclays conducted this programme for all the students of BE at the beginning of their 7th Semester so that they are well equipped in appearing for their interviews.

2020-2021-21

Hello Sir,

As discussed we are going to start the training from tomorrow (i.e. Wednesday)
Below are the details of training.

1. Training date - 11-Aug-2021 to 20-Aug-2021
2. Hours/Day - 2 hours/Day
3. Training time - 04:00 PM to 06:00 PM
4. No. of students - 500
5. No of batches - 8

Note - Attendance will be 100% in each batch for all 9 days.

Below is the attached list batch wise data of students. So please create whatsApp groups accordingly.

Kindly confirm the same.

--

Regards,

Swati Khillare

Report on “SOFT SKILLS DEVELOPMENT PROGRAM 2021”

Event Date: **26 March 2021 - 28 April 2021**

Time: 9:00 am to 5:00 pm (48 hours)

Venue: **Online (Google Meet)**

No. of Registered Students: 475
(TE Computer Engineering, TE Electronics and
Telecommunication Engineering, TE Mechanical
Engineering, SE Mechanical Engineering and SE
Computer Engineering)

No. of students eligible for certificates: 195

Resource Person(s): **Ms. Deepa Panakkal, Mr. Praveen Kurien, Ms. Neha Agnihotri**

Resource Persons:

Sr No	Date	Resource Persons	Topic
1	29/03/2021 to 23/04/2021	Ms. Deepa Panakkal	Interview Skills, Resume Writing, Letter of Recommendation, Etiquettes for a Professional
2	29/03/2021 to 28/04/2021	Mr. Praveen Kurien	Interview Skills, Resume Writing, Letter of Recommendation, Etiquettes for a Professional, Learning Language Effectively, Professional Ethics
3	26/03/2021 to 27/04/2021	Ms. Neha Agnihotri	Interview Skills, Resume Writing, Letter of Recommendation, Etiquettes for a Professional, Learning Language Effectively, Professional Ethics

A. Description:

In the modern workplace, engineers are required to possess certain soft skills to enhance their employability, productivity and to build better professional relationships. With the objective of making our engineering students more competent to face any job-related challenges, ‘Skill Development Cell - SFIT’ organized the ‘Soft Skill Development Program 2021’ for Second and Third Year Engineering students of SFIT. The program was conducted from 26 March 2021 to 28 April 2021 in online mode using Google Meet.

The following topics were covered during the program:

1. Interview Skills
2. Resume Writing

3. Letter of Recommendation
4. Etiquettes for a Professional
5. Learning Language Effectively
6. Professional Ethics

The resource persons took sessions in the form of lectures (using Powerpoint Presentations) as well as practical sessions. All the lecture sessions were followed by a quiz to assess the students. Practical sessions were utilized to interact with the students in smaller batches.

Students came up with several queries and doubts, especially related to interviews and resume writing. Considering the quiz responses and feedback from the students, the program was successful in achieving the goals. Many students made comments in their feedback that they want more of these sessions in the future.

B. Images of the Session:

2.1 It has already started

- Arrive early
 - It gets noticed - professionalism / punctuality
 - Less stressful
 - Freshen up and relax
 - You have time to finish formalities

The slide is part of a Google Meet session. The top bar shows 'You are presenting' and a 'REC' indicator. The right sidebar shows a list of participants with their names and status icons.

E. Result Analysis:

The screenshot shows a quiz interface for 'Skill Development Program_Resume'. The interface includes a top navigation bar with a 'Send' button and a user profile icon. Below the navigation bar, there are tabs for 'Questions' and 'Responses', and a 'Total points: 10' indicator. The main content area contains three multiple-choice questions:

- Question 1: "Identify the type of resume that works best for individuals with consistent work histories with no gaps." Options: Reverse Chronological Resumes, Functional Resumes, Targeted Resumes, Combination Resumes.
- Question 2: "In a chronological resume, begin with your _____ and _____, chronologically." Options: current/most recent position and move backward, first position and move forward, best position and move ahead, current/most recent position and move forward.
- Question 3: "Include personal information such as age, religion, ethnic background, marital status, height and weight in your resume." Options: True, False.

A vertical toolbar on the right side of the question area contains icons for adding, deleting, and other actions.

on paper(s):

The screenshot shows a quiz interface for 'Interview Skills'. The interface includes a top navigation bar with a 'Send' button and a user profile icon. Below the navigation bar, there are tabs for 'Questions' and 'Responses', and a 'Total points: 10' indicator. The main content area contains three multiple-choice questions:

- Question 1: "Which of the following defines the STAR method for answering questions?" Options: Situation, Time, Action, Revise; Start, Task, Advise, Result; Situation, Task, Action, Result; Sit, Talk, Ask, Remind.
- Question 2: "How do you respond if you do not know how to answer a question?" Options: Ask the interviewer for a moment to think, then answer the question to the best of your ability; Do not answer it; Ignore the question and change the subject.
- Question 3: "Which of the following is not one of the suggested strategies for preparing for your job interview?" Options: Conduct research on the company/industry; Prepare answers to possible interview questions; Gather key resources (extra resumes, reference list) to take with you; Memorize key answers and prepare questions about salary and benefits.

A vertical toolbar on the right side of the question area contains icons for adding, deleting, and other actions.

Skill Development Program_LOR

Questions Responses Total points: 10

Identify the true statement from the following:

- It is better not include any examples/instances in LOR
- Add something unique about the applicant
- always differentiate the applicant from other applicants
- none of the above

Points to be included in the part that discusses Applicant Skills *

- Documented proof
- Projects/ Paper presentations/ Seminars / Workshops
- Choose to highlight contribution specifically made by the student - Attributes that impressed the recommen...
- All of the above

Socially Responsible behaviour of the applicant should be mentioned in which part of LOR *

- Beyond technical skills
- Recommender's details
- Applicant's skills
- First name and last name

Apps

Etiquettes for a Professional

Questions Responses Total points: 10

Modern day emailing is just like texting. Using acronyms, omitting punctuation, and relaxing grammar rules are increasingly acceptable ways to save time and keep it concise. *

- True
- False

If an email has been sent to you and 10 other people together, replying to the entire group is not necessary. *

- True
- False

Font choice plays an important role in writing a work email. Which one of the following is an acceptable font for a work email? *

- Times New Roman
- Arial
- Calibri
- All of the above

An email signature is a reflection of your personality. Adding a life quote, a picture or two, all your social media links and emoticons to make it more lively is perfectly fine. *

CSI SFIT STUDENT CHAPTER
ST. FRANCIS INSTITUTE OF TECHNOLOGY
Mt. Painsur, Borivali (W).

REPORT

Introduction to Machine Learning

Event Date: 20th May, 2020

Time: 5pm - 7pm

Venue: Online (Google meet)

No. of Registered Students: 38

Instructor: Mr. Harsh Jalan

Workshop Description:

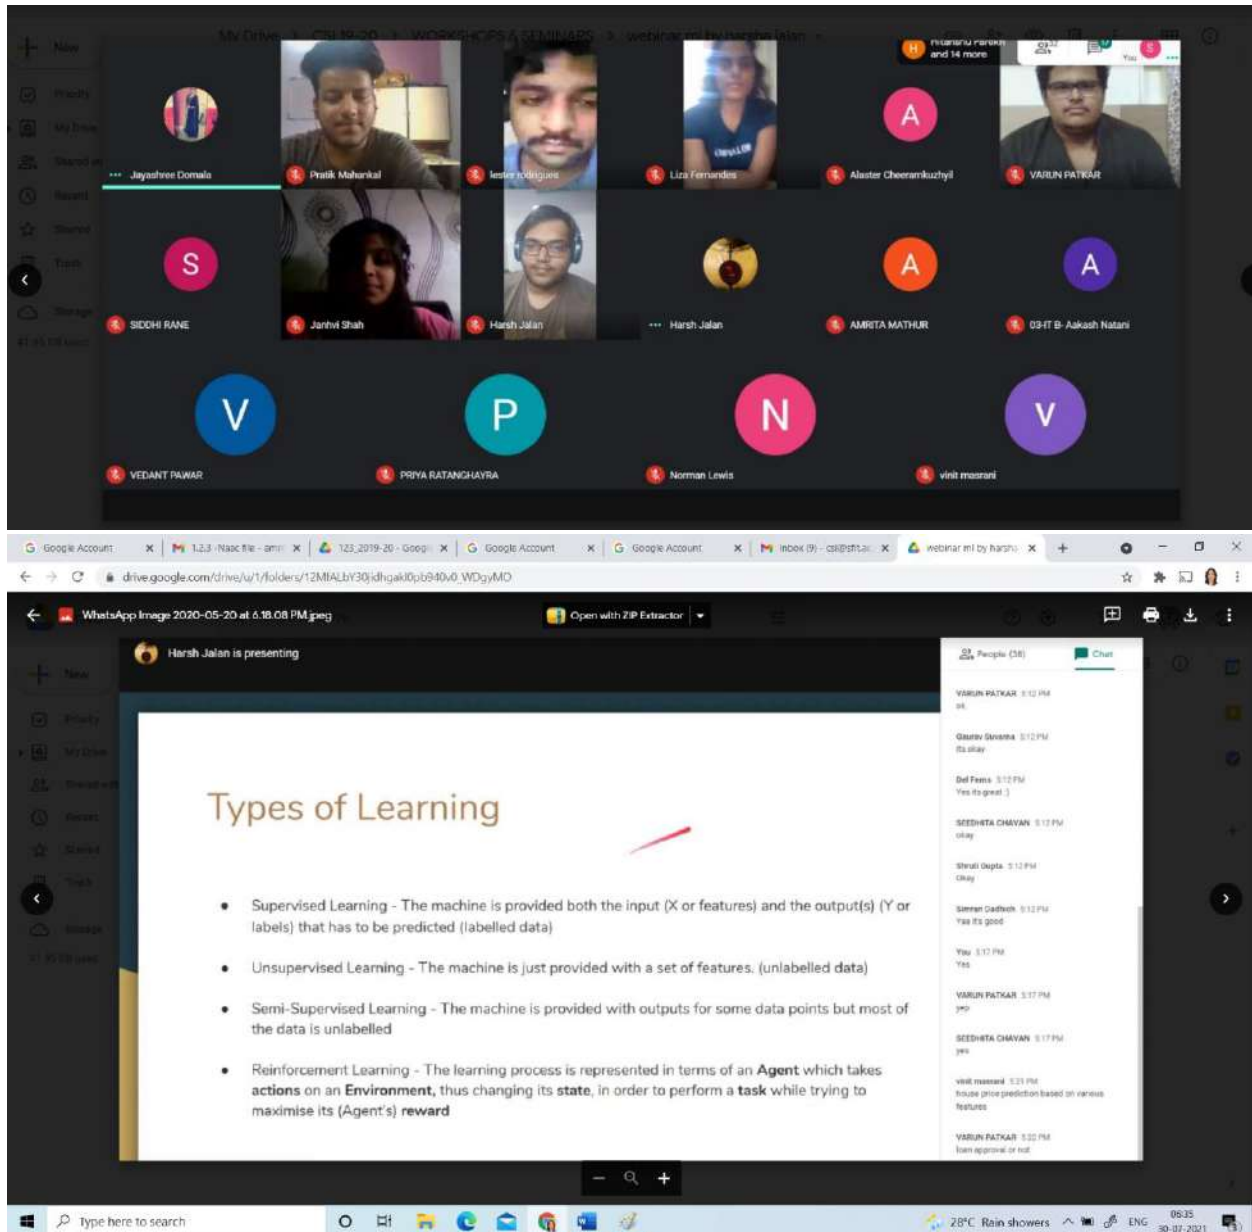

A seminar was organized by the Computer Society of India - SFIT on the 20th May, 2020 in online mode using google meet. The following topics were covered

The seminar was conducted to cover the following points:

1. What is ML
2. How it is related to AI
3. Types of Learning
4. ML algorithms
5. Application areas of ML Algorithms

The workshop was a big success and students enjoyed their first online workshop organized .

Images of the Session:

Harsh Jalan is presenting

What is Machine Learning?

- Machine Learning is an application of artificial intelligence (AI) that provides systems the ability to automatically learn and improve from experience without being explicitly programmed. Machine Learning focuses on the development of computer programs that can access data and use it learn for themselves. - <https://expertsystem.com/machine-learning-definition/>
- A machine is said to learn from experience E with respect to some class of tasks T and performance measure P if its performance at tasks in T, as measured by P, improves with experience E. - Mitchell, Tom. (1997). Machine Learning. McGraw Hill. p. 2. ISBN 0-07-042807-7.
- Machine learning (ML) is the study of computer algorithms that improve automatically through experience. It is seen as a subset of artificial intelligence. Machine learning algorithms build a mathematical model based on sample data, known as "training data", in order to make predictions or decisions without being explicitly programmed to do so. - https://en.wikipedia.org/wiki/Machine_learning

28°C Rain showers

09:35 20-07-2021

WhatsApp Image 2020-05-20 at 6:18:11 PM (1).jpeg

Harsh Jalan is presenting

Applications of ML and AI

- Business Intelligence
- Computer Vision
- Natural Language Processing
- Robot Motion and Planning
- Recommendation Systems
- Logistics
- Speech Recognition
- Speech Synthesis
- Fraud Detection
- Medical Diagnosis, Treatment and Prognosis
- Game Development
- ... and many many many more

Report on “NodeJS Webinar ”

- Event Date: 29th May 2020
- Time: **2:00 p.m. to 4:00 p.m.**
- Venue: **Online Google Meet, St. Francis Institute of Technology**
- No. of Registered Students: **71 students**
- Resource Person: **Mr. Jetso Analin**

A. Description:

The NodeJS Webinar was conducted on 29th May 2020 by Mr. Jetso Analin via Google Meet. The Webinar included a walkthrough on NodeJS, its applications and basics of the framework. It was very informative and provided hands-on coding and made an API for COVID 19.

In the first hour of the session, the theory of basics of Javascript, NodeJS, how to create a JSON package, setting up the routes, etc. were taught. Some Real-life applications and scenarios were also shared by Mr. Analin which gave good motivation for the actual implementation. It was apt for anyone with no prior knowledge of NodeJs or Javascript for understanding the session easily.

In the next couple of hours, after the informative theory discussion, there was a Hands-On session to implement a NodeJS API to collect COVID-19 data. It was taught and implemented right from the scratch. The data was fetched from the government's openly available COVID-19 API. From the explanation of the different packages that were used to the end customization of the newly implemented API, everything was covered in the session. The students' doubts were also promptly solved.

With over 70 participants the webinar was successful in administering a good understanding of the popular framework as well as building an interest among the novice programmers to begin adventuring Web Development using NodeJS.

B. Images of the Session:

server.js

```
const express = require('express')
const server = express()
const body_parser = require('body-parser')

const port = 8081
const app = require('./app')

server.use(body_parser.json())

app.listen(port, () => {
  console.log(`Application is running on http://localhost:${port}`)
})
```

app.js

```
const express = require('express')
const body_parser = require('body-parser')

const app = express()

// Setting the body parser
app.use(body_parser.json())
app.use(body_parser.urlencoded({extended: true}))
app.use(body_parser.json({type: "application/*+json"}))

// Importing routes
const covidRoutes = require('./routes/covid/covidRoutes')

app.get('/', (req, res) => {
  res.send(`You have reached the home page of the app`)
})

app.use('/api/v1', covidRoutes)

module.exports = app
```

controllers/covid/covidController.js

```
axios = require('axios')

exports.checkdistricts = async (req, res, next) => {
  try{
    const statecode = req.body.statecode
    const districtname = req.body.districtname

    res.status(200).json({
      status: true,
      message: 'Covid19 Details',
      statecode,
      districtname
    })

  }catch(err){
    next(err)
  }
}
```

routes/covid/covidRoutes.js

```
const express = require('express')
const router = express.Router()

// Calling controller
const covidController = require('../../controllers/covid/covidController')

router.post('/covidbydistrict', covidController.checkdistricts)

module.exports = router
```

REPORT

Introduction to Machine Learning

Event Date: 20th May, 2020

Time: 5pm - 7pm

Venue: Online (Google meet)

No. of Registered Students: 38

Instructor: Mr. Harsh Jalan

Workshop Description:

A seminar was organized by the Computer Society of India - SFIT on the 20th May, 2020 in online mode using google meet. The following topics were covered

The seminar was conducted to cover the following points:

1. What is ML
2. How it is related to AI
3. Types of Learning
4. ML algorithms
5. Application areas of ML Algorithms

The workshop was a big success and students enjoyed their first online workshop organized .

Images of the Session:

Harsh Jalan is presenting

What is Machine Learning?

- **Machine Learning** is an **application of artificial intelligence (AI)** that provides systems the ability to automatically learn and improve from experience without being explicitly programmed. Machine Learning focuses on the development of computer programs that can access data and use it learn for themselves. - <https://expertsystem.com/machine-learning-definition/>
- A machine is said to learn from experience **E** with respect to some class of tasks **T** and performance measure **P** if its performance at tasks in **T**, as measured by **P**, improves with experience **E**. - Mitchell, Tom. (1997). *Machine Learning*. McGraw Hill. p. 2. ISBN 0-07-042807-7.
- Machine learning (ML) is the study of computer algorithms that improve automatically through experience. It is seen as a subset of artificial intelligence. Machine learning algorithms build a mathematical model based on sample data, known as "training data", in order to make predictions or decisions without being explicitly programmed to do so. - https://en.wikipedia.org/wiki/Machine_learning

Report on Industrial visit to Trombay thermal power station

Event Date: 11/01/2020,14/01/2020

Time: 10.00am onwards

No. of Registered Students: 37

A. Description:

To bridge the gap between academia and industry students have been taken into Trombay Thermal Power station. Trombay Thermal Power Station is a coal-based thermal power plant located at Trombay . Plant size is 900MW. Students could visualize the power plant which helped them to understand more on power plant.

D. Comment of HOD:

The class of students was divided into 3 batches and the visit was planned by following the instructions given from the Thermal Power Plant. Batch-1 and Batch-2 successfully completed the Plant visit on 11/01/2020 and 14/01/2020 respectively, whereas due to the scheduled IAT exams, Plant maintenance and lockdown, the third Batch was unable to visit the Plant.

Title: MindClash Debate Competition

Judges:

1. Mr. Adhish Rane (LinkedIn India, Talent Acquisition Head)
2. Dr. Khushboo Trehan (DJ Sanghvi College of Engineering)
3. Mr. Ramjee Yadav (SFIT)
4. Ms. Sonali Vaidya (SFIT)
5. Ms. Prajyoti D'silva (SFIT)

A. Description:

The debate was organized into 4 different rounds:

1. Stand-off round
2. Mini-Debate round
3. Collaboration round
4. Finale round

In the standoff round, one person from each team was asked questions based on previously allotted topics. The teams were given points for their responses based on rhetoric eloquence and justification to the question asked. Time allotted for each response was 1 minute. (Warning bell at 45 seconds). Team countering a response were given additional points. There were no eliminations of teams in this round.

The first round was followed by the Mini-Debate round where each team competed twice. The two teams debating against each other were paired through a random lottery system. Topics for this round was given 20 minutes prior to the debate. Opening and closing statement was for 1min 30seconds each and the refutation round for 6mins. Participants were allowed to use the internet for the preparation of this round. Based on the score one team was eliminated in this round.

The six selected teams promoted to this round had full-fledged debates based on suitable topics given 2 days prior to the event. Two teams merged and collaborated to form one team to compete against the other. The highest ranking 2 teams from the previous rounds were automatically sent to final Collaboration round. This had two debates in all. The winning team from the first collaboration round debate competed with the highest ranking two teams. Topic for this round was provided to the participants in advance.

The collaborated team that won the collaboration round competed against each other in the Finale. Students from Vidyavardhini College Of Engineering won the Inter College Debate while St. Francis Institute of Technology was the runner up of the debate. The competition was concluded by giving a token of appreciation to the judges and a vote of thanks was delivered by Ms. Tulika Kotian (Technical head). Winners were announced and awarded with cash prizes and a trophy.

C. Attendance of Students:

Participants from the following institutes:

1. Shobhaben Pratapbhai Patel School of Pharmacy and Technology, NMIMS
2. A. P. Shah Institute of Technology
3. Vidyalkar Institute of Technology
4. Fr. Conceicao Rodrigues college of Engineering
5. Vidyavardhini College of Engineering

6. St. Francis Institute of Technology
7. Universal College of Engineering

D. Seminar Feedback: All participants gave a good feedback on the debate competition organized by ISSB.

Resource Person Feedback: The judges appreciated the event organization as well as the enthusiasm of the participants.

Title: Entrepreneurship: A Way of Life

A. Description:

The session began with Ali introducing himself to the crowd of participants. Mr. Ali spoke about how he started his journey at the age of 17 by taking photocopies of notes for people during his diploma. He then went on to explain that one of the bases of Entrepreneurship is idea generation and its subsets. The speaker explained his belief that an idea is everything irrespective of its simplicities or complexities. He also emphasised on execution and marketing the product over social media using the Google Ads or Instagram Ads and getting in touch with some influencers. He explained that funding is not a matter of concern at least in the initial formation stage and one should avoid it.

The session also emphasised on the practical steps like internships, networking and developing a basic model and brand of the product and yourself. He explained the importance of networking and internships and how the IEEE Collabratec platform helped him network around the world. He gave a powerful message that “Your Start-up should not be affected by a war in Iran or an innovation in Israel and you should monitor that.” He also advised the participants to focus on generating ideas based on realistic problem statements like unemployment, poverty, healthcare, etc. He advised us to take advantage of one of India's biggest problems, “overpopulation” for networking as he believed that the usage of the internet just by 30% of the population has helped India emerge so much that other nations are now “fearing” Indian innovation on social media. Finally, the speaker introduced the esteemed portal of “Start-Up India” to the participants002E

D. Seminar Feedback:

Was the seminar well organised?
33 responses

Did the speaker demonstrate a thorough grasp on the present scenario in the current industry?
33 responses

Did the speaker answer the queries to your satisfaction?
33 responses

Are you interested in any other seminars by this speaker? Mention the topic.	Any suggestions?
Yes	No
Building Startup ideas	No
Machine Learning	Audio isn't clear
Yes	No
Yes	NA
Yes may be	No
Will do	NO
Public Speaking	No
Basic Machine Learning	None
Government opportunity to startups	All good just the audio issue could be resolved.
Yes	No
Yes	No
Something related to ML and AI. How to explore these fields, etc	It was a well organized seminar! Ali sir explained us about how to become an entrepreneur while managing life and tackle problems that we can face
No	Would have been more enthusiastic
Research Methodology	Well Organized
Machine Learning	Great webinar!
Machine Learning	Live projects work should be done
yes	NO
Yes, I am	no
Introduction	Noooo
Machine learning	No
Artificial Intelligence	No, Thanks
No	No
IEEE initiatives for entrepreneurs (if any)	None
Maybe networking and A.I	Nope..The webinar was very well managed..Kuddos👍
Yes-AI	No
None	Please look into the technical aspects like audio noise, etc
Predictive analytics	No suggestions

Resource Person Feedback: The event was well organized by IEEE chapter of SFIT. While sharing my experience with the participants, several questions were asked to which I replied, making the session very interactive. Best wishes to all!

Title: Building a Rockstar LinkedIn Profile

A. Description:

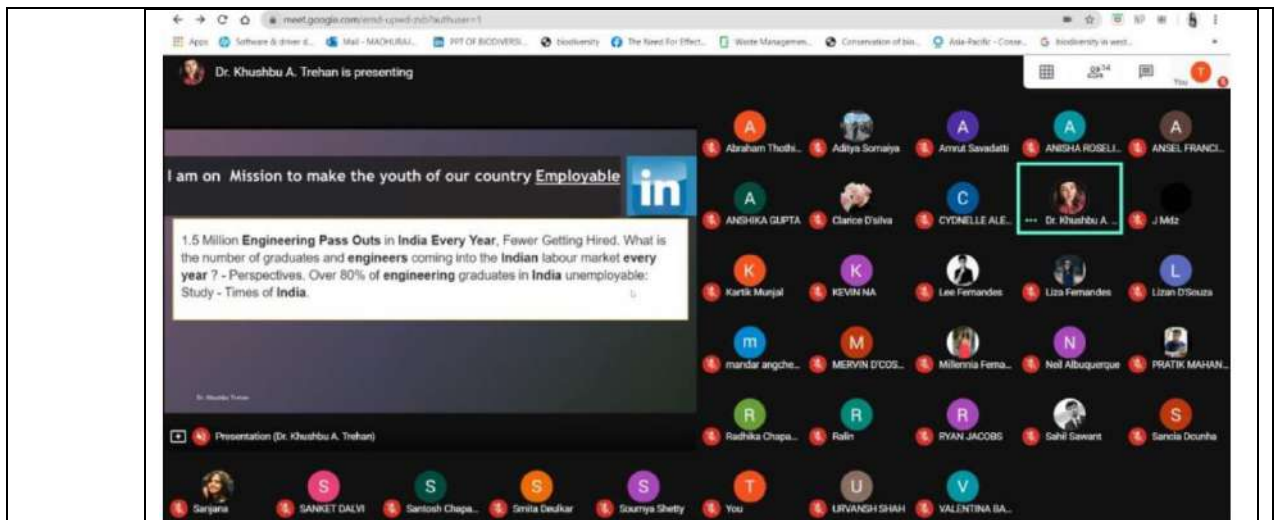

The seminar's aim was to help students learn how to make and use a LinkedIn profile effectively. Dr. Khushbu A. Trehan delivered the online profile building seminar to a strong crowd of 36 students from SFIT belonging to the second, third and fourth year. Before the seminar, all participants were asked to create a LinkedIn profile and connect with the speaker's profile. The students learned about how to sign up, create a summary of themselves, fill in the different sections of their profile like "education", "volunteering", "projects", etc. effectively as freshers. She also showed various examples of different LinkedIn profiles to demonstrate the "do's and don'ts" while filling our own profiles.

How to engage with other profiles was also spoken about. Throughout the seminar, participants were encouraged to ask questions by either unmuting their microphones or typing them in the comments section after which the speaker would answer them. The seminar precisely emphasized on how to portray your knowledge and credibility as students to make an impact on others viewing your profile, to increase your connections with companies, to gain knowledge by following topics and hashtags and also create a network with people having similar professional interests.

The seminar had a duration of two hours and was concluded by a question and answer session. Feedback from the participants was also taken. The participants found the seminar productive and expressed their desire to attend such workshops in the future.

Are you interested in any other seminars by this speaker? Mention the topic.	Any suggestions?
How to shift careers post our Under Graduation	None.
Not as now	Nope
Do's and don'ts in an Interview.	-
How to create a Optimistic Resume	The session was good and covered every aspect on LinkedIn.
Competitive programming	Nothing, the session was amazing.
yes	resume writing
-	-
Getting internships as a fresher	Audio had some disturbance

Are you interested in any other seminars by this speaker? Mention the topic.	Any suggestions?
Seminar on online video interviews and group presentation on video conference calls	Considering that most of the people had recently created the profile, I really appreciate the sections covered and the efforts taken
Resume writing	no suggestions at all
-	-
Improving presentation skills; Improving writing skills	U guys r the best :-D
Networking skills	Have live demonstrations of how to update or edit the shown features
Interview skills	Highly informative session!
Maybe interview skills	Nope
No thanks	A seminar by some recruiter on the topic "Is internship really compulsory or necessary? " without which we won't get placed?
Yes	No
-	-
Maybe some other soft skill related to business communication like SOP writing	Noz it was pretty good
Yes	-
No	No suggestions
Yea sure	Nope

Resource Person Feedback: The online experience was good for me as well as the participants and the session was quite interactive.

IRIS 2020

Report

Event Title	GLOWCRIKZZ 2.0
Committee Name	IETE
Faculty Coordinator	Mrs. Shilpa Chaman
Venue (Room No.)	228
Date	29th January 2020
Number of Registered Students:	64

A. Description-

On 29th of January 2020 IETE-SFIT student forum conducted the event GLOWCRIKZZ 2.0 in the IRIS 2020 of St. Francis Institute of Technology.

The event focused on the following key points:

- Adding a technical twist to everyone's beloved game of cricket
- Testing basic knowledge of science, math, sports, gk, etc.
- Encouraging knowledge through sports

Points for improvement:

- Better publicity
- Stricter rules

7th October, 2019

Report on “Intra-Department Debate Competition”

- Event - Intra-Department Debate Competition
- Date - 1st and 3rd October, 2019 (2 days)
- Time - 4.00 pm onwards
- Venue - Room no. 327, Room 328 and Room 206
- No of participants - 26

Results of the competition:

Winners: Rutuja Andhale Arya Bodhankar Nikita Agrawal
1st Runner up: Anshika Gupta Felicia Sequeira Roxanne Kadam

A. Details:

The ITSA had organized an Intra-Department Debate Competition for the all students of the IT department.

The competition comprised of three rounds which were as follows:

- One speaker, from each team gives an introductory clause regarding the topic being debated on.(1 minute each)
- In the Rebuttal round the speaker from each group present further arguments in support of their stand, identifies areas of conflict, and answers questions that may have been raised by the opposition speaker.(4 minutes)
- Conclusion clause is presented by each team in the end (1 minute each)

The topics were decided forthwith. The competition was conducted simultaneously in room nos. 327 and 328.

Topics of the Debate were as follows:

1. Can meditation and yoga replace psychological consultants?
2. Are machines gaining control over man?
3. Is setting special curfews an effective way to keep teenagers out of trouble?
4. Legalization of drugs: How can it decrease the level of organized crime?

Report on “CodeXpress 3.0”

Event Date: **7th March 2020**

Time: **10:00 am to 5:00 pm**

Venue: **Room No. 114, SFIT**

No. of Registered Students: **87**

A. Description:

- CodeXpress 3.0 is the third edition of the coding competition organized by the Code-X team for their fellow coders. This competition was conducted on 7th March 2020. The competition was divided into two sections which were the Alpha level competition which provided the maximum number of participants and the Beta level competition. There were a total of 87 participants for this competition among which 65 were for the Alpha competition, and 22 were for the Beta competition. As it was a competitive competition we used the Techgig platform to organize it.
- The Alpha level competition was typically held for coders who had previous experience in taking part in such competitive competitions. At the Alpha level, the participants could participate as a solo competitor or in a group of two. A total of eight questions were divided into three sections according to the level of difficulty starting from easy to hard.
- The Beta level competition was held for coders who had no former experience taking part in such competitive competitions and for beginners who genuinely wanted to improve their competitive coding and test their coding skills. In the Beta level, the participants could participate as a solo competitor or in a group of two. A total of twelve questions were divided into three sections according to the level of difficulty starting from easy to hard. Mentors were provided to the participants if they needed help during the competition. Also during the competition all the participants were provided with tea and coffee according to their convenience.
- There was a tough competition between the participants for winning the prize money. Winners of CodeXpress 3.0 and their respective cash prizes are as follows:
- **Alpha level:**
 - 1st place (₹ 2000/-): Rayyan Merchant and Saurav Joshi
 - 2nd place (₹ 1500/-): Rishabh Bhatnagar
 - 3rd place (₹ 1000/-): Jaineel Mamtora and Sanket Dalvi
- **Beta level:**
 - 1st place (₹ 800/-): Krunal Doshi and Siddesh Dhoke
 - 2nd place (₹ 500/-): Mark Coutinho and Christina Pereria
- At last, to encourage all the participants they were rewarded with a participation certificate and \$200 Amazon web services credits which can be used for their educational needs for future.
- To conclude, CodeXpress 3.0 was a successful event organized by CODE-X. It was an excellent opportunity for the participants as they gained the experience of competitive coding and also they increased their skill and confidence in coding.

Report on “BLOCK CHAIN HANDS-ON WORKSHOP”

Event Date: **28th September & 29th September 2019**

Time: **Day 1->10:00 am to 4:00 pm**

Day 2->10:00 am to 4:00 pm

Venue: Room: Computer Center, SFIT.

No. of Registered Students: **43**

Resource Person: **Mr. Vikash Kumar and Mr. Jetso Analin**

A. Description:

The Blockchain workshop was organized by the Code-X committee on 28th and 29th September 2019. As it was a hands-on workshop, the sessions were divided into 2 days slots and covered the basics of Block Chain.

On first day session one, “Introduction to Block Chain” was covered which included the major reasons why we should work on the blockchain as it is immutable, very secure, it is transparent, decentralized any many more. The instructors mainly focused on these terminologies making sure all participants were able to keep up. The instructors gave access to all the participants to their apps ”Blocklogy” and ”BlockLogy Lite” to acquire more knowledge about blockchain. In the second session, the participants were introduced to the application of blockchain as they created their very own digital wallets and then added some virtual ethers in it and shared with each other. Before concluding the session participants were shown the live applications of blockchain technology.

On the second day session, one was conducted by Mr. Jetso Analin, the participants were introduced to the term “smart-contract”. They were also introduced to a new programming language Solidity which is required to work on blockchain technology. The participants using solidity created their own virtual digital currency. In the final session, the participants created their own banks to handle basic transactions. Before concluding the session, the members of the BlockLogy team informed the participants about the internships they provide and how one can work with them.

Entry fee for day 1 & day 2 was 300/- for attending both the days. The session concluded at 5 pm on 29th September 2019.

The hands-on workshop was well organized, and a sufficient amount of time with examples was given to each concept regarding block-chain. Even the committee members got to learn about block-chain and the event ended with a thank you note to the speakers.

B. Expense

Date: 29th September 2019

REPORT

Event Date: 28th September, 2019

Venue: Seminar Hall

Instructor: JUNAID KHATEEB

Time: 4pm - 5pm

No. of Registered Students: 74

Workshop Description:

A seminar was organized by the Computer Society of India - SFIT on the 28th September, 2019.

The seminar was conducted to cover the following points:

1. Briefing on taking the Membership and its benefits
2. Plans for the year
3. How to make the most of the membership
4. Machine Learning
5. Python
6. AWS
7. Certification Courses
8. Internships

It was attended by 70 students in total. The seminar was conducted by Mr. Junaid Khateeb and Mr. Rohit Sharma on Machine Learning, Python, AWS Certification Course and Internship. The convenor of Computer Society of India - SFIT discussed the benefits of taking the CSI membership, whereas the Chairperson along with Technical Team and the Creative Team

discussed their plans for different workshops in the current academic year, 2019-2020. Topics for some of the upcoming workshops that were discussed are as follows:

1. Website Designing
2. Ethical Hacking
3. Graphic Designing

The student body briefed about the above fields and what can the students expect out of the workshop.

TECHNICAL WORKSHOP: FRONT END DEVELOPMENT

REPORT

Event Date: 12th-13th October 2019

Venue: Computer Center

Time: 4pm - 5pm

No. of Registered Students: 67

Instructor: Ms. Jayashree Domala, Mr. Manmohan Dogra

Workshop Description:

A workshop on **Front end development** was organized by the Computer Society of India - SFIT on the 12th and 13th of October, 2019, which was taken by Ms. Jayashree Domala(CSI chairperson) and Mr. Manmohan Dogra(CSI joint technical head) . It was attended by 67 students in total. A report for the same is as follows:

Day 1

All the students gathered at the computer center at 10:00 A.M. Ms. Jayashree Domala started the session with briefing the students about Front end development. She went on to brief the students about how this skill is helpful and the opportunities in this followed by a brief idea of what projects will be ready by the students at the end of the workshop.Mr. Manmohan Dogra then started with the basics of HTML and CSS and completed two mini projects. One was a responsive landing page with image background and the other was a responsive landing page with a moving background. Then the students were given a challenge to perform and the first 3 students to get it got chocolates as the reward. A lunch break was given from 12:30 P.M. – 1:30 P.M. Post lunch, Ms. Jayashree Domala went on to explain the advanced topics in CSS and make a project of to-do list. The session ended at 4 P.M and were given a homework assignment to do.

Day 2

The session on Day 2 was held in the computer center and began at 10:00 AM. Ms. Jayashree Domala began with the revision of the previous session and in that he solved the various doubts the students had from the previous session and homework. Then Mr. Manmohan Dogra started with a project of making a responsive landing page using media query. The lunch break was then given from 1P.M.-2 P.M.

After the lunch break, Ms. Jayshree Domala started with a new topic of bootstrap. She explained the basics and went on to do a mini project on making navigation bar using bootstrap. A challenge was given to the students. Then Mr. MANmohan Dogra started with the final project using HTML, CSS and Bootstrap. After the completion of website. Basics of JQuery was done and the session was ended with students asking doubts.

All the participants were provided with useful links for reference about the content taught in the two days of the workshop. The links which would definitely help the students to apply the concepts learned in the workshop in interesting ways.

REPORT: Video Editing

Event Date: 28th September, 2020

Venue: Computer Center

Instructor: Mr. Anshul Deodia

Time: 10am - 5pm

No. of Registered Students: 25

Workshop Description:

A GFX workshop was conducted by Computer Society of India-SFIT on the 8th and 9th of February, 2020. It was attended by a total of 25 students in total. The workshop instructor was Mr. Anshul Deodia. Day 1 the students gathered in the ARC room at 10:00 AM. Mr Anshul Deodia started the workshop by giving a brief about Video Editing and the application used i.e. 'Premier Pro'. He then went on to show an example of what could possibly be achieved at the end of the workshop. The session was started by showing the students a few basic tools of Premier pro that would be used like 'cutting', 'importing', etc. After the students were thought the basic tools of the application, Mr Anshul Deodia went on to teach them how to do a 'Sky replacement'. There was a break provided at 1:00 PM which lasted till 2:00 PM. After the break the students gathered in the ARC once again. The students were thought how to join to different video and how to add transitions between them. Different types of transitions were tried out by the students. Towards the end of Day1 at 3:00 PM the students were given a task to perform which would be continued in the last 2 hours of Day 2. The task consisted of making a video of their own, the students were divided into groups of 4-5. They explored the SFIT campus to gather footage for the video they were to make. They gathered in the Arc at 4:00 PM. They discussed and edited the footages they gathered for 1 hour, at 5:00 PM Day 1 was ended. Day 2 he students gathered in the ARC at 10:00 AM. On Day 2 Mr Anshul Deodia started the session by giving a quick recap of Day1 and solving some doubts regarding Day 1. The students were thought to add different effects to a video. Students were given time to try and experiment on each effect just after it being though.

The next hour of the workshop Mr. Anshul Deodia thought the students about 'key frames' and their many uses. The students took their time understanding it, and its uses. There was a break given at 1:00-2:00 PM. The students gathered at the ARC once again. Mr Anshul Deodia proceeded with the workshop by teaching hoe to add different sound effects to videos. The students were then thought how to increase or decrease the speed of a video and also how to make a cinematography effect. The students were also thought hoe to put texts in a video and make credits scene. At 3:00 Pm the students were instructed to continue their task from Day 2. The students went on to do so till 4:45. After 4:45 the students were told to submit their video. A presentation was made of the videos made by each group. The group that created the best video was given 'Kit-Kats' as a prize. The volunteers of the group include Ms. Shivani Raul-Creative head, Mr. Gaurav Suvarna-Creative Executive and Mr Shivam Sinha-Technical Head. The volunteers performed admirably. They would always do their best to solve any of the doubts raised by the students as did Mr Anshul Deodia.discussed their plans for different workshops in the current academic year, 2019-2020.

Ms. Amrita Mathur
(Subject In-charge)

Dr. Kevin Naronah
(Dean Academics)

St. Francis Institute of Technology

Borivli, Mumbai

Department of Electronics and Communication Engineering

Event Date: 14 Sep 2019

Time: 9:30 am – 4 pm

Venue: SFIT

Number of Registered Students: 40

Resource Person: Dr. Saurabh Mehta (VIT) and Mr. Hannan Satopay (TinkerCad)

Chapter: IEEE

A. Description:

This workshop helped the students to learn how Arduino platform works. All students were provided with the kit. They learned the role of tools involved in the Arduino IDE. They were also taught about interfacing sensors and actuators and IOT applications using Cloud. Different videos were shown to illustrate the concept. The second half of the workshop emphasized on adding different libraries in Arduino. Examples were given of Blynk library which is used for Wi-Fi. Students also learned about Bluetooth connectivity, LDR connectivity, Servo motor connectivity related to Arduino UNO.

Event Date: 18 Jan 2020

Time: 9 am – 1 pm

Venue: SFIT

Number of Registered Students: 40

Resource Person: Mr. Hannan Satopay (TinkerCad)

Chapter: IEEE

A. Description:

Mr. Hannan Satopay gave an introduction to Alexa and explained how the voice user interface will be dominating the future. Different videos were shown on various topics. Alexa development skill 1-Fact Skill, related to facts like tell me how far is the sun etc. using Python was demonstrated. The second half of the workshop emphasized on development skill 2-API Data and development skill 3-Trivia Skill. Two people came forward and gave a representation of whatever they wrote on their VUI cards and also a standup comedy in which Mr. Hannan asked questions and Alexa gave replies.

Title: Data Privacy

A. Description:

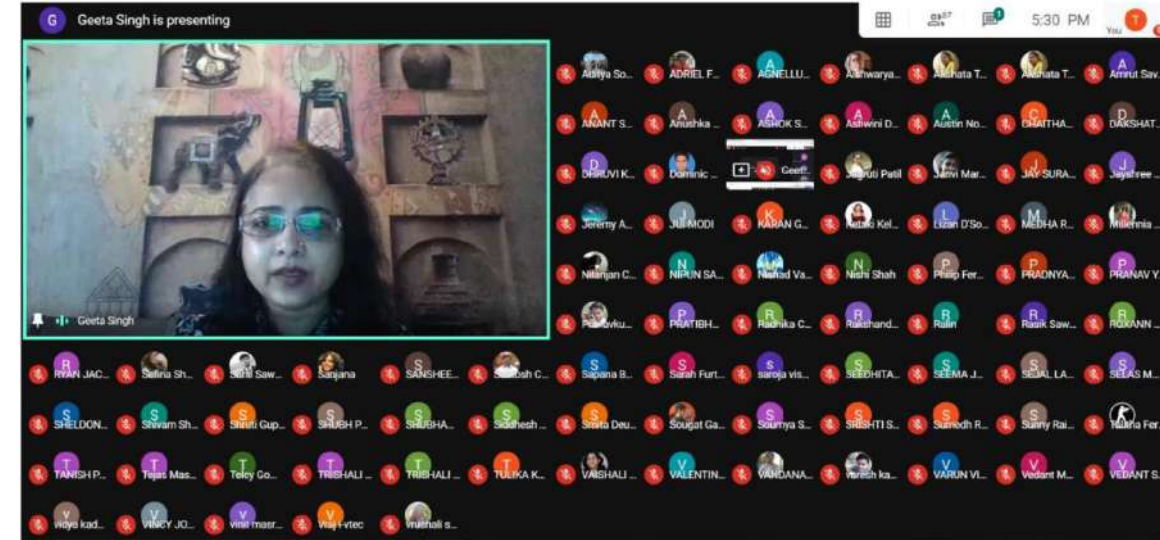

The webinar's aim was to help students learn how to keep their data secure online and also on how they can pave a career path for themselves in cyber security. The speakers delivered the webinar to a strong crowd of 80 students from SFIT belonging to the second, third and fourth year as well as students from other colleges in India. Throughout the seminar, participants were encouraged to ask questions by using the comments section which were answered by the speakers at the end of the webinar.

Using various news articles as evidence, the speaker spoke about various big cyber attacks that have occurred across the world and affected millions. He continued further by giving an insight about how big companies over the world keep our data safe and how all companies are hiring cyber security professionals so that their systems are kept free from any vulnerabilities. Bug bounties in the recent news and how the Coronavirus outbreak has affected the world in terms of cyber security was also explained.

The second part of the webinar was taken by Mrs Geeta Singh who spoke about ways through which we can stay safe and protect our data online from various attacks such as phishing, various malwares, etc. She exposed a few vulnerabilities in commonly used websites and demonstrated certain Google hacking tricks. Various concepts of cyber security such as steganography, etc were also explained.

The third part of the webinar was handled by Mr. Vikash Singh where he counselled the participants and spoke about the various paths available for a career in cyber security and qualifications such as 'CEH',etc required for it. He also spoke at length about the courses Quest Institute of Knowledge provides for people aspiring to begin a career in cyber security and about the various students who have achieved success in the cyber field today.

Report

Event Title	NATIONAL-LEVEL SCIENCE AND CODING E-QUIZ 2020
Committee Name	IETE
Faculty Coordinator	Ms.SHILPA CHAMAN
Venue (Room No.)	ONLINE (GOOGLE FORM)
Date	7th June 2020
Number of Registered Students:	107

A. Description-

“National-level Science and Coding E-Quiz 2020” conducted by IETE committee was organised on June 7th,2020 exclusively for students and faculties nationwide affiliated to IETE. Amidst these difficult times, this was an initiative to get students active and boost their knowledge and test their understanding of engineering sciences. An addition to this quiz was the aspect of coding.

The event focused on the following key-points:

- Testing basic science and coding knowledge of participants
- Preparing the participants for future aspirations
- An advanced round comprising of higher level technical questions

Technical description

The quiz was divided into 3 parts:

- Round I - Basic science Quiz consisting of 10 questions of one mark each.
- Round II- Coding Quiz consisting of 20 questions of two marks each.
- Round III-Technical skill Quiz consisting of 10 questions of five marks each.

The quiz was in total of 100 marks. The participants were required to pass the quiz by acquiring 50% or more(50 marks) and on passing, they were awarded e-certificates. Evaluation was conducted on the basis of performance exhibited by participants in Round I, II and III.

Response

The event was a success with the participation of 107 students and faculties

10th February, 2020

Report on "2D GRAPHICS WORKSHOP"

- Date: - 8th February, 2020
- Time: - 9:00 - 4:00 (1 day)
- Venue: - TPO Room (114)
- No. of Participants: - 13
- Resource Person: - Ms. Priya Menezes

A. Details:

The Information Technology Students' Association (ITSA) had organised 2D Graphics Workshop using Adobe Illustrator and Photoshop. Ms. Priya Menezes, UX strategist and designer at CIO Accenture joined us in the hands-on workshop on 2D Graphics using Adobe Illustrator and Photoshop.

A 45 minute introduction on the creative process was provided, followed by 90 minutes of Photoshop and 90 minutes of Illustrator practise. Basic introduction of the tools in the framework was given, with a mini-project to work on. An hour long QA session was taken to address the questions of the students based on real life job applications of 2D and environment.

The interaction of the students and the resource person was appreciable and there was a good feedback from both sides.

Student Feedback:

Name	ID	Email ID	Quality	Clarity and Quality	Comments	Would you attend more such sessions?
Aksh Sudhakar	192 177	aksh.sudhakar@yahoo.in	5	10	The session was very good. I wanted to know the workshop 2 sessions. Hope as the topic was vast... we give the price that the workshop should have been for four days.	YES
April	199 179	apriltravels123@gmail.com	10	10	The session was very informative.	YES
Ignatius Alimelda	115 127	ignatiusalimelda1999@gmail.com	10	10	It was very good.	YES
Roger	181 127	roger17@gmail.com	5	5	Please get feedback for another session.	YES
Andrew John	171 110	andrew105@gmail.com	5	5	Good.	YES
Jeremy Arman	177 145	jeremyarman7@gmail.com	5	5	Maybe make it a 2 day session. Otherwise you can have an on-day 1 and 2 sessions on day 2.	YES
Marcel	191 176	marcel1999@gmail.com	5	5	Session was very informative.	YES
Anishah Jui	191 171 147	anishah173@gmail.com anishah@gmail.com	10	10	Everything was great, just it took a lot time.	YES
					Try to keep more sessions for students. Today's session conducted by

29th August, 2019

Report on “Industrial Visit: NUOS Home Automation”

Industry	- ‘NUOS Home Automation’
Resource Person	- Mr. Neil Savant
Date	- 28 th August, 2019
Time	- TE IT A 1:00pm onwards TE IT B 10:30am onwards
Venue	- NUOS Home Automation Centre, Bandra (E), Mumbai.
Total number of Participants	- 24 (TEITA) 51 (TEITB) students Total -75 and 2 teachers

A. Details:

Under the guidance of the IT Department, the ITSA committee had organized an Industrial Visit for the Third year students of the IT department.

NUOS is a startup venture which makes **IoT** products which offer solutions that are beyond smart. Products that actually think for themselves. NUOS is an offering born out of that drive. Their holistic home and office automation solutions are thoughtful and intuitive. It is a team of 10, driven engineers headed by founder **Neil Savant**. Mr. Neil Savant has completed his Masters in Engineering from The Ohio State University. He worked for 4 years in the U.S.A.

The IV focused on the following key points:

- Demonstration of the applications of IoT in day to day life.
- Opportunities for startups in the current market
- Skillset requirements for starting a venture.
- Components and machines for home automation.
- Use of Home automation for security system and purposes.

Students learnt how to implement their knowledge in IoT in day to day life for facilitation of daily chores or lifestyle. They also learnt about the hurdles and difficulties faced while starting their own startup venture. The industrial visit was well appreciated by the students present. A small token of appreciation was given to Mr. Neil Savant which consisted of a college calendar and a pen.

Report on “SEMINAR DAY - 2019”

Event Date: **28th September 2019**

Time: **10:00 am to 03:00 pm (5 Hrs.)**

Venue: **Seminar Room SFIT**

No. of Registered Students: **66 (S.E. Mech. Engg.)**

Resource Person: **Mr. Rinkesh Kurkure, Mr. Vivek Ambre, and Mr. Shivam Yadav**

A. Description:

As a part of Activities of the MESA, many seminars are arranged every semester to bridge the gap in the syllabus. This semester for the students of Mechanical Department, a Special Topic Seminar on **“Expectations of industries from Mechanical Engineers”** was conducted on 28/09/2019 in online mode using google meet.

The major objective of the session was to familiarize the attendees with the **“Skills required in the Industry”**

The following topics were covered during the session:

1. Research Industry expectations and requirements
2. Corporate Industry expectations and requirements
3. Start-up or business industry expectations and requirements

The session was a big success, as all the participants had shown keen interest in knowing about the skills in demand and recent trends in various sectors. The Resource Persons delivered an excellent session giving insights in necessities of industries. The response and feedback from the participants, about the session was magnificent and as per the feedbacks, they would want to attend more sessions like this in future.

B. Images of the Session:

C. Attendance of Students:

All Mechanical Engineering students of Second Year.

D. Result:

It was observed that many students came to know about different opportunities in various sectors. They understood what all the trending topics in industries and what are the skills in demand.

Report on “CHANGE YOUR MINDSET”

Event Date: **8th May 2020**

Time: **11:00 am to 12:00 am (1 Hr.)**

Venue: **Online (Google meet)**

No. of Registered Students: **115 (S.E & T.E. Mech.)**

Resource Person: **Dr. Merle Coutinho**

A. Description:

As a part of Activities of the MESA, many seminars are arranged every semester to bridge the gap in the syllabus. This semester for the students of Mechanical Department, a Special Topic Seminar on “**CHANGE YOUR MINDSET**” was conducted on 08/05/2020 in online mode using google meet.

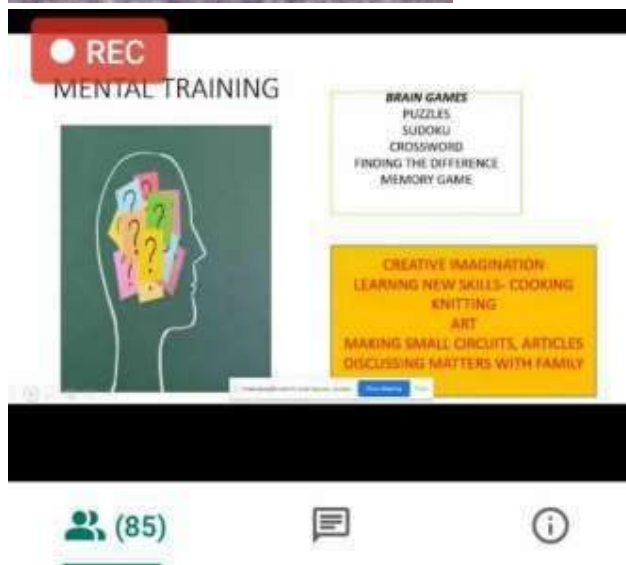

The major objective of the session was to familiarize the attendees with the concept of keeping the mind calm in difficult times of Covid.

The following topics were covered during the session:

1. Mental Training
2. Brain games
3. Creative imagination
4. Discussing matters with families
5. Impact of mental training
6. Challenge your brain
7. Redefining the term Freedom
8. Peace of mind.

The session was a big success, as all the participants had shown keen interest in how to keep their minds stable in difficult times. The Resource Persons delivered an excellent session giving insights in mind tricks. They also gave few tricks to attain mental freedom. The response and feedback from the participants, about the session was magnificent and as per the feedbacks, they would want to attend more sessions like this in future.

Report on “TriVizaRd Challenge”

Event Date: **31st August 2019**

Time: **Full Day Event**

Venue: **Room No. 429**

No. of Registered Students: **54**

A. Description:

- **The event focused on the following key points:**
- **Event Description:** “TriVizaRd Challenge” is a labyrinth where participants have to come out of a virtual maze as fast as they can. In this game, every participant is a student at Hogwarts School of Witchcraft and Wizardry. The school is hosting the grand TriVizaRd Tournament. TriVizaRd Tournament is a **Virtual Reality** take on Harry Potter's Triwizard Tournament. The participants will have to move through this virtual bewilderment tackling technical obstacles and challenges. The one who reaches the TriVizaRd Cup in the least time will be declared the TriVizaRd Champion.
- Every participant was provided with a VR headset where he/she has to play the game. Participants can control the game with his/her movements.
- The game was represented by individuals and not groups. For the flawless execution of this event, the team used Unity and Blender software to design the game.
- The Virtual Reality maze is an original creation of the CODE-X'S Technical team.
- **Balance Sheet**

Budget Allotted [1]	Actual Bill Amount [2]	Total Prize Money [3]	Total Expense [4 = 2+3]	Balance Amount [5 = 1 - 4]	Total Registration * Entry Fees [6]	Final Balance [6 + 5]
Rs. 1500/-	Rs. 1800/-	Rs.1500/-	Rs.3300/-	Rs. -1800/-	Rs. 2700/-	Rs. 900/-

Report on “JavaFX MySQL and JDBC Workshop_”

- Event Date: **21th September 2019**
- Time: **9:15 a.m. to 5:00 p.m.**
- Venue: **Computer Centre, St. Francis Institute of Technology**
- No. of Registered Students: **90 students**
- Resource Person: **Mr. Manas Acharya , Mr. Sanket Dalvi , Mr. Sahil Nirkhe**

A. Description:

- The main idea for the Workshop was inspired by the students’ need to make a Java Project. CodeX Team decided to help and teach, the students of SE CMPN A and B, the basic concepts required to make a Java software which stores the data in a database. It was conducted under the guidance of Prof. Tejal Carwalho (Faculty for OOPM - SE CMPN A and B) and Prof. Rupesh Mishra (CodeX Coordinator).
- The Speakers for the day were:
 - Manas Acharya
 - Sanket Dalvi
 - Sahil Nirkhe
- Assisted by CodeX geeks:
 - Ritika Bhole
 - Daniel Lobo
 - Dwayne Fernandes
 - Leander Fernandes
 - Kevin Fernandes
- **Session 1:**
- The Workshop started at 10:00am. The first session, on JavaFX using SceneBuilder was taken by Manas Acharya. The students followed the steps and progressed towards making their own layout. The Technical Team was handling the doubts of the students while also explaining the necessary content.
- At 12:00pm, the students and the volunteers were given a lunch break of 30 minutes.
- **Session 2:**
- The workshop resumed at 12:45pm and the session was taken over by Sanket Dalvi. The topic was MySQL CRUD using phpMyAdmin. After a short brief on the theory, the students were guided on the practical way to implement it.
- **Session 3:**
- The final session of the workshop on Java Database Connectivity was taken by Sahil Nirkhe. With the explanation of how to connect the previous two sessions and make the project complete, the step by step code and its explanation was given. After the successful compilation and presentation of the code, the technical team volunteers took rounds to solve the errors in the students’ code. By the end of the workshop, students had a functional project ready with them.

Quality of Course content

36 responses

Any Improvements

10 responses

Very well planned! Merci ❤️

It was just perfect

Don't try to take cover-up everything in one session

Take atleast two sessions and keep the course a lil earlier maybe in the August end

Decrease the pace while explaining

Make it interesting and wait for everyone to complete

U guys were excellent

No

Everyone was good; the guy who was teaching the was a bit too fast though

Logic behind the code

Any other topic suggestions

7 responses

No

Ethical hacking 😊

Provide us with more such workshops

Just help use when ever we want 🙏

awt or swing

This workshop was a great experience for me. I hope in future we'll have more helpful workshops like this.

- Quiz Question paper:

Which query is correct to add a value to database?

28 / 36 correct responses

•

Which component allows us to connect to database?

27 / 36 correct responses

The layouts created are saved with which extension?

36 / 36 correct responses

Shortcut in IntelliJ for adding a try-catch block?

30 / 36 correct responses

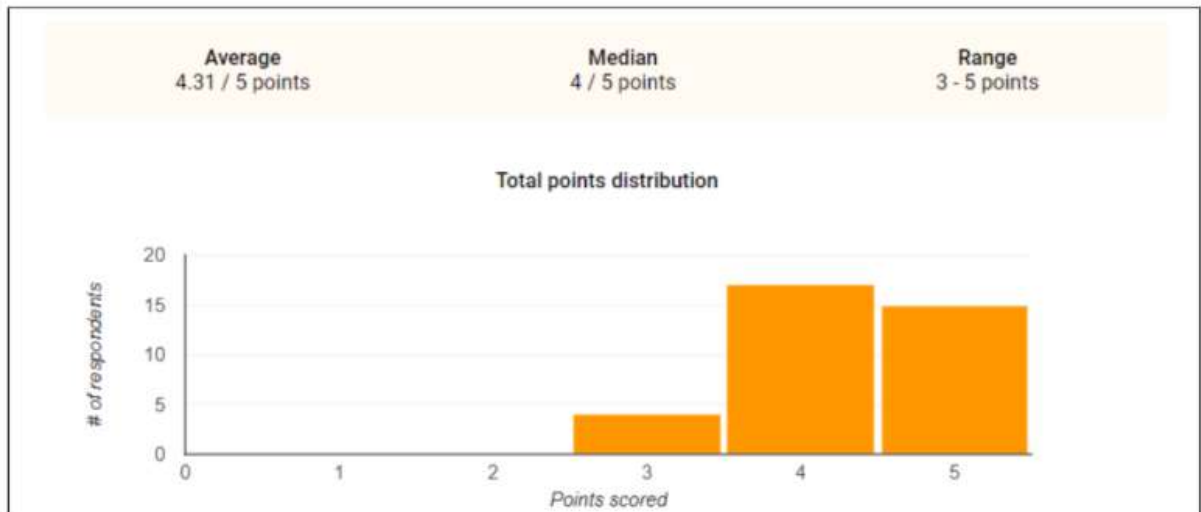

From which package do we import the classes like Stage,(ActionEvent) etc?

34 / 36 correct responses

- **Quiz Result:**

Report on “AI Apocalypse”

Event Date: **31st August 2019**

Time: **Full Day Event**

Venue: **Room No. 404**

No. of Registered Students: **54**

A. Description:

- **The event focused on the following key points:**
- **Event Description:** "A.I. Apocalypse" is an event based on the concept of escape room where clues was provided by a Mobile app which was based on the voice bot theme, created by the CODE-X's technical team. This event offered participants a chance to fight against the evil A.I. which is about to end the entire humankind, the A.I have locked the players into Area 51 and they receive seven minutes to decode the clues and escape Area 51 to preserve the human race. The game typically consists of two areas, which are the security room where the line of work starts followed by the research facility.
- This game consisted of many unique and original puzzles created by the entire CODE-X team to make this event intriguing.
- Participation was in a group of a minimum of three and a maximum of five students.
- For this event, the CODE-X team came up and designed puzzles and props to go along with the puzzles.
- **Points for improvement:**
- Spare laptops or extension boards so the battery charging problem is solved.
- **Balance Sheet**

Report on “BANDERSNATCH”

Event Date: **31st August 2019**

Time: **Full Day Event**

Venue: **Room No. 529**

No. of Registered Students: **20**

A. Description:

- **The event focused on the following key points:**
- **Event Description:** “BANDERSNATCH” was a mystery-solving event where clues were decoded using **Augmented Reality**. It was an extremely thrilling game with multiple endings where every choice you make could alter the story. This event provided the participants to get into the shoes of great private investigators like Sherlock Holmes and Hercule Poirot to find the world-famous fugitive and an Indian businessman Nirav Modi who absconded with \$500 million.
- Participation was in a group of four students.
- In this game, the participants had to find objects and scan them to receive clues. This game is all about solving a mystery story that proceeds as the participants uncover the clues.
- For this event, the CODE-X team created an original script and a mobile Android application with a chat interface.

PRAYAS-2020 REPORT

Date: March 4, 2020

It is said, "Every Accomplishment starts with a decision to try". Prayas is organised by the department of Basic Science and Humanities annually as an exclusive platform for First Year Engineering students to transform knowledge into application while also enhancing soft skills. Prayas started in 2015 with the aim to develop scientific skills and innovative thinking among students.

PRAYAS 2020, saw amazing response from the First year students. The inaugural function commenced at 9:30 am in the New Auditorium (B-Wing), St. Francis Institute of Technology (SFIT). On the dais, we had our honourable dignitaries: Chief Guest, Dr. Vikram Shete, Co – Founder and CEO, Ninsar Agritech Pvt. Ltd., our Director, Bro Jose Thuruthiyil, our Deputy Director, Bro Vijaykumar Pereira, Financial Administrator, Bro. K. C. Joseph, Principal, Dr. Sincy Gorge, Coordinator- Basic Science and Humanities, Dr. Poonam Hemnani, Co-coordinator - Basic Science and Humanities, Ms Preethi Colaco, and Coordinator –PRAYAS 2020, Ms Deepa Panakkal. We also had the encouraging presence of Deans, Heads of all the core engineering departments, the teaching and non-teaching members of the SFIT family and students.

The Inaugural started with the college anthem followed by lighting of the lamp. Coordinator, Basic Science and Humanities, Dr. Poonam Hemnani extended a welcome to the dignitaries and the gathering and highlights of Prayas 2020 were shared by the Prayas 2020 Coordinator, Ms. Deepa Panakkal. Our Director, Bro Jose Thuruthiyil, extended his best wishes and motivated the students and the organising team with his encouraging words.

Our Chief Guest, invested his valuable time in interacting with the students while conducting a session on the topic "Making Sense of the Chaos". While emphasising on the technical and scientific understanding of things he made students focus on practical thinking, getting their priorities right, planning their actions right from the beginning instead of waiting for the final year. With real time examples and experiences, he encouraged them to work for creative autonomy and financial independence. He also discussed importance of communication skills, skill enhancement, humility and ability to respect all kind of work as an important learning experience.

After the Inaugural, our Director, Bro Jose Thuruthiyil, declared PRAYAS open. Our Chief Guest, Dr. Vikram Shete, visited all the projects and shared his feedback with each participant offering them real time analysis, future possibilities and valuable insights.

We had 88 first year students participating with 21 models and 6 PowerPoint presentations. While the Projects were exhibited in the new auditorium, the PowerPoint presentations were showcased in the Seminar room (103). Each of the categories was assessed by our eminent group of judges who not only assessed the performance of the participants but also provided them with much required feedback and encouragement. The teachers who guided our students as supervisors, preparing them for the event and the learning experience thereof, require a special mention here. We are grateful to each one of them.

The visitors included teachers and students from various departments. Few of the parents also visited the exhibition. Students from all FE classes were guided to the venue as per a specific schedule. All of them enthusiastically participated in the activities and were very keen in knowing

the facts about the projects and the presentations. The team of staff was well supported by a group of student volunteers who contributed in a big way in organising the event. Thus, Prayas saw student contribution at various levels as participants, volunteers, comperes and a willing audience. Each role had much to gain from the event in terms of learning.

The valedictory function commenced at 4:00 pm in the presence of all our dignitaries. The Co-coordinator – Prayas 2019, Ms Arti Bhatnagar presented a report summarising the event followed by a video showcasing the glimpses of Prayas 2020. The Chief Guest provided his valuable feedback to all based on his interaction with the students. Two of our student participants also shared their experience with the audience. The prize distribution commenced by declaring the winners. Our dignitaries then presented the certificates to the volunteers and participants. The valedictory function concluded with the vote of thanks delivered by Co-coordinator Prayas 2020, Ms Astrid Dsouza.

Fit India Program

Date: 8th September, 2019

Day: Saturday

Time: 11:00 – 12:00 noon

Venue: SFIT Computer Centre

Recourse Person: Program of Prime minister for FIT India

No. of Participants: 56

CMPN	ELEC	EXTC	INFT	MACH	STAFF	TOTAL
14	03	18	15	4	01	56

Objectives:

- To create awareness about being FIT and healthy.
- To encourage the students to take sports and fitness seriously.

The Fit India program was organized by the Prime Ministers Office. The main objective of the program was to encourage the students to be fit and give importance to their health by exercising regularly and participating in sports and other fitness activities.

Fifty six of our college students took part in this program and benefited from it.

NSS Programme Officer/ Social Service Coordinator

Yoga Training Session for NSS Vols.

Organized by the University

Date: June 17-21, 2019.

Day: Monday - Friday

Time: 9:00am to 2:30pm

Venue: Kaivalyadham, Marine Lines

No. of participants: 2 NSS Volunteers

CMPN	ELEC	EXTC	INFT	MACH	TOTAL
02					02

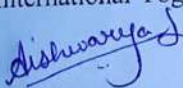

Objectives:

- To train youth into basics of Yoga with all its pure and pristine form.
- To enable the student to have good health
- To help the students in self discipline and self-control, leading to immense amount of awareness, concentration and higher level of consciousness.

The Yoga Common Protocol workshop was organised by the university to the NSS Volunteers. It was conducted by the Staff of Kaivalyadham.

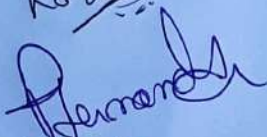

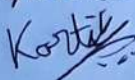

The inauguration of the workshop was held on 17th June at K.C. College Churchgate. Thereafter the work shop was held at Kaivalyadham. The volunteers were given training in yoga common protocol, yoga philosophy, importance of yoga and the health benefits from yoga.

The workshop gave the students awareness on yoga philosophy and they learnt common yogaasanas and the purpose of this workshop was to train the students in yoga and they will in turn train other students of the college. Every year we have 3-4 NSS Volunteers attending this workshop and these volunteers conduct the International Yoga Day program on the occasion of International Yoga Day 21st June.

Women Safety Training Programme

Date: Saturday, 7th March, 2020

Venue: Auditorium, St. Francis Institute of Technology, Sardar Vallabhbai Patel Rd, near Bhagwati Hospital, Mount Poincur, Borivali West, Mumbai, Maharashtra 400103.

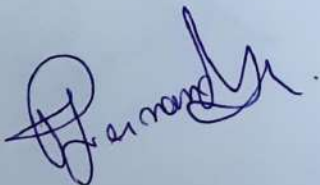

Resource Person: Mr. Amit Singh Bist, Karate Black Belt

A Self Defense Programme for all the women students of the Institute was held on March 7 on the occasion of International Day. The main objectives of the programme is to empower women, enable them to defend against any type of physical assault and to build self-confidence so that they can contribute significantly to their own development, shape their own destiny and capacity enhancement through Self-defence training. The programme was open for all the girl students and the female faculty members.

The resource person Mr. Amit Sing Bist spoke of the various schemes that the Government of India focuses upon such as Beti Bachavo Beti Padao. He also stressed the need of safety and security of the girl students and encouraged the participants to learn a few self defense techniques. These defense techniques was to create awareness among the students how to respond to the situations related to eve teasing, molestation, mobile snatching, purse snatching and such. This kind of training is the need of the hour as the cases of such crimes are increasing. The self defense training would empower them to fight back which is most important in today's age of power imbalance.

The world in which we are living is changing drastically and the people are becoming more and more unpredictable. The girls and women are stereotyped as the weaker sex and they become easy targets. In such an environment a program of such self-defense training is must for every girl inorder to resist any kind of sexual assault as well as random attacks.

The outcome of the program was that the girl students learnt self-defense skills which would benefit them throughout their life to protect themselves. It will also increase their self confidence, boosts their self- esteem and positively and help them develop their personality.

REPORT

Yoga day celebration at SFIT

Date: June 21, 2019.

Day: Friday

Time: 9:00am to 11:30am

Venue: St. Francis Institute of Technology Campus, Borivali

No. of participants: 28 NSS Volunteers and one Staff member

CMPN	ELEC	EXTC	INFT	MACH	TOTAL
09	03	13	03	00	28

Objectives:

- To develop the habit of meditation among youngsters so that they can enjoy more peace of mind and self-awareness, which is essential for a stress-free existence.
- To educate people about the various means of overcoming stress naturally without resorting to any artificial medicine.

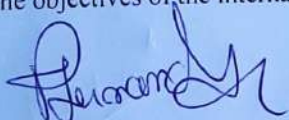

About 46 NSS volunteers came together and celebrated international yoga day. It was conducted in the new library hall of St. Francis institute of technology on June 21, 2019. One of our Alumnus Mr. Saurabh Gurav a yoga trainer conducted the whole program.

We started with the session at 9:00 am by a briefing on the importance of yoga, and slowly but steadily we moved towards the basic yoga protocol. Few of the asanas we covered were trikonasan, anulom vilom, ardha chandrasana and many more. The session ended at 10:30.

After the yoga session refreshments were served to all.

Outcome:

The objectives of the international yoga day were achieved.

SOFT SKILLS

Seminar on “Social Media Ethics”

A special seminar on “Social Media Ethics” for the students of Second-year Information Technology on 28th August 2019. The session focused on ethics in both personal and professional life with a special reference to social media. The relevance of maintaining a genuine social media page in professional life and especially during recruitment process was highlighted in the session. It also covered the issues like selfie addiction, and identity crisis, sexting, catfishing, and cyberbullying. The session aimed to provide awareness on social media ethics and cybercrimes. Mr Praveen Mathew Kurien, Assistant Professor, FE Department, SFIT was the resource person for this session.

Career training session by Global Talent Track

Academic Year: 2019-20

Dates of Training: 08/07/2019- 11/07/2019

No of students: 360 BE all branches

The Global Talent Track with whom the Institute has a memorandum of understanding conducted a training program for the BE students of all the departments. They provide skills to students and make them Industry ready. The training program is for 24 hours.

Objectives:

- To transform individuals into problem solver, achievers, change makers and leaders.
- To guide the students to acquire soft skills.
- To enhance the students communication and presentation skills.

The Topics Covered are the following:

- Expectation Setting
- Organizational structure
- Goal setting,
- SWOT Analysis,
- public speaking,
- presentation skills,
- Email Etiquette,
- Telephone Etiquette,
- Grooming, body language,
- Resume writing and personal mock interviews.

As part of their CSR initiative Barclays conducted this programme for all the students of BE at the beginning of their 7th Semester so that they are well equipped in appearing for their interviews.

Respected College,

Greetings from **Global Talent Track !!**

It is my pleasure to introduce Global Talent Track (GTT); an education and training venture, set up by some of the best minds from the industry, education and technology domains. The venture aims to provide 'quality with scale' through programs delivered with the help of innovative technologies and compelling content.

Among others we provide training to fresher's hired by companies such as Cognizant, Capgemini, Genpact, Infosys, Oracle, Hexaware, etc.

As part of their CSR initiative, **Barclays** has decided to skill unemployed youths as per the industry requirement. Barclays has decided to partner with **GTT & HOPE Foundation** in this initiative. GTT would be executing the training program under this initiative, with limited number of colleges across India.

Training Programme Details:

- 24 Hrs. of high impact workshop by industry expert on Soft Skills and Communication, topics are mentioned below:

BARCLAYS JOB READINESS WORKSHOP - CONNECT WITH WORK (F2F)

Report on Industrial Visit 2018 – 2019

Date: 30th September 2018 & 01st October 201

No. of students: 412

Industries Visited in Pune – CDAC, Sakal newspaper, WTE, India Auto Ltd., Everest spin Pipes and Indian Express

Industries Visited in Silvassa- Alok industries, Navneet publications, Parle-G and Kryfs

Report on Industrial Visit 2018

St. Francis Institute of Technology has organized industrial visit for first year students of engineering. The purpose to organize this industrial visit was to get students familiar with various industry work process. It was arranged during September 30, 2018-October 1, 2018. The visit was bifurcated between two groups. First group including INFT A, B and CMPN A, B were taken to Pune. Whereas EXTC A, B and Electrical and Mechanical classes were taken to Silvassa.

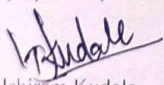

The entire Industrial visit was planned and executed under the supervision of FE SFTT IV Committee. The members of Committee are as follows: Preethi Colaco (coordinator), Rekha Ajikumar, Deepa Panakkal, Babasaheb Shinde, Tulshiram Kudale and Suresh Lad. For the Silvassa visit Dr. Hariprasad, Mr. Sunil Pansare, Mr. Ravindra Garnode, Rekha Ajikumar, Mohmad Faiz Ansari, Rachel Pereira and Sainath Ghosalkar were the teacher in charge. On the other hand Preeethi Colaco, Arti Bhatnagar, Babasaheb Shinde, Tulshiram Kudale, Vipin Kallingal, Gauri Jaugshete, Asma Hazir, Nandkumar Nagothkar and Sheba varghese were the teacher in charge for Pune visit.

Around 412 students participated in visit and these students were bifurcated in two groups respectively Pune217 and Silvassa195. Silvassa visit was organized by Ashish Holidays and Around Globe organized Pune visit. The industries visited in Pune were CDAC, Sakal Newspaper, WTE, India Auto Ltd., Everest Spin Pipes and Indian Express. The industries visited in Silvassa were Alok Industries, Navneet Publications, Man Foods(Parle-G) and KRYFS.

Every student participated in industrial visit got the ample information regarding the industry work culture and work process. In addition, students were taken for sightseeing where they enjoyed a lot and tried to get information about different places and their features. Overall industrial visit was fruitful, as students got familiar with different machines and their operating system as well as an essence of teamwork.

A journey details are mentioned in the itinerary, which is attached with this document.

To
The Director
S. F. I. T

List of faculty of F.E. attending the Industrial Visit

Respected Sir,

The F.E. students are going on an Industrial Visit to Silvassa and Pune on 30/9/2018 and 1/10/18.
The number of students attending Silvassa are 190 and Pune are 220.

The following staff of F. E. Is accompanying the students for the same.

Staff attending Pune I.V.

1	Ms. Preethi Colaco	8	Mr. D. V. Khalap
2	Ms. Arti Bhatnagar	9	Ms. Asma Hazir
3	Mr. Babasaheb Shinde	10	Ms. Gauri Jagushete
4	Mr. Vipin Kallingal	11	Mr. Tulsiram Kudale
5	Ms. Sheeba Varghese	12	Mr. Nilesh Daddikar
6	Mr. Ashok Sapkale	13	Mr. Suresh Lad
7	Mr. Dinesh Salunke	14	Mr. Nandkumar Nagothkar

Staff attending Silvassa I.V.

1	Ms. Rekha Ajikumar	7	Mr. Sandeep Shetge
2	Mr. Sunil Panasare	8	Dr. C. Hari Prasad
3	Mr. M.K.Bysani	9	Mr. Mohammad Faiz
4	Ms. Rachael Periera	10	Mr. Harish Arekar
5	Ms. Amruta Periera	11	Ms. Nidhi Tiwari
6	Mr. Ravindra Garmode	12	Mr. Sainath Ghosalkar

Kindly consider the attendance of the above staff on the above mentioned dates. Requesting you to grant a compensatory off for 30/9/18 being a Sunday as an appreciation and encouragement for the staff.

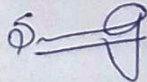

Thanking you.

Yours sincerely

26/9
F.E. Coordinator

(Dr. Poonam Hemnani)

Report on Value Education 2018 – 2019

Date: 22nd February 2019

Time: 10.15 am To 12.15 pm and 2.00 pm To 4.00 pm

No. of Students: Morning Session – 236, Afternoon Session - 244

Resource person: Ms. Deepa Panakkal

Value Education Seminar for First Year Engineering students

Organised by Basic Science and Humanities Department
on Friday, 22 February 2019 (10:15 to 12:15 and 2:00 to 4:00)

Seminar Title: 'Make Each Day your Masterpiece'

Resource person: Ms Deepa Panakkal

(Sub topics: life skills like mechanisms to cope with stress, goal setting, being assertive, handling failure, empathy and humility.)

Some key issues and concerns observed among adolescents include those relating to forming a self-image, managing emotions, building relationships, strengthening social skills, and dealing with or resisting peer pressure. Students at this stage are more prone and vulnerable to high risk situations and may easily succumb to it.

How well an adolescent deals with these issues is decided by a host of factors that include their personality, psychosocial support from the environment (that includes parents, teachers and peers), and the life skills that they possess. As educators this has to be one of our prime focus. The value education seminar that was organised for our First year Students was one important step towards the same.

The value education seminar was organised for all the 8 classes of first year engineering. Given the large no. of students, the sessions were conducted in two slots for 4 classes each. The resource Person, Ms Deepa Panakkal, focussed majorly on helping students identify and enhance upon some of the important life skills using real time examples that were easily relatable to students. She emphasized on how students need to focus on their ability for adaptive and positive behaviour that would enable them to deal effectively with the demands and challenges of life and also better equip them to handle failure as a learning experience. 'Positive behaviour' implies that a person is forward looking and even in difficult situations, can find a ray of hope and opportunities to find solutions. This was one of the main messages extended to students.

The session also focussed on interpersonal skills that help people make informed decisions, solve problems, think creatively, communicate effectively, empathize with others, and cope with managing their lives in a healthy and productive manner. While all these capabilities were discussed, the importance of being respectful and humble was also emphasized.

Thus the session focussed on helping students to value their own self and the skills that make them not just competent professionals but also individuals with strong sense of values and character.

Value Education seminar for FE students

on Friday, 22 February 2019 at the New Auditorium

Morning Session : 10:15 to 12:15

Afternoon Session : 2:00 - 4:00

Classes: FE ELEC / CMPN A/ EXTC A / IT A

Classes: FE MECH / CMPN B/ EXTC B / IT B

Roles and responsibilities

Sr. no	Roles	Responsibility	In charge	Morning Session	Afternoon Session
1	Banner Printing	# Finalising design and printing 03 A3 size banners for the session	Mr. Babasaheb and Mr. Nandkumar		
2	Guiding students to venue and their attendance	# teachers who have a session shall accompany the class to auditorium	Subject Teachers (who have a session in the class or a batch for practicals at 10:15/2:00 shall bring students to auditorium. Also, teachers whose names are mentioned in the adjacent columns shall come to the auditorium)	Ms. Belinda M. Ms. Grishalida D. Ms. Renita D. Mr. Faiz	Mr. M. K. Bysani Mr. Vipin Ms. Megha F. Mr. Tulsiram
		# all teachers present shall take care of discipline during the session			
		# attendance sheet has to be circulated and collected back			
		# Class wise printouts for attendance			
				Mr. Vishal	
3	Venue Arrangement	# Arranging Chairs for 250 students	Mr. Sainath (teacher in-charge) Mr. Khalap Mr. Nilesh	Mr. Suresh Mr. Ashok Mr. Vishal	
		# Arrange for white board and Marker			
		# Arrange for 3 display boards for the banner			
		# help in maintaining discipline during the session			
		# Guiding students with regard to filling of feedback			
4	Photography	# collect camera a day before from Director and check charge/ storage	Mr. Dinesh S.	Mr. Harish	
		# Taking photographs of the session			
5	Audio Video	# Audio video set up	Ms. Rebecca D.	Mr. Sandeep S.	
		# Smooth functioning throughout the session			
		# Usage of screens at the back			
6	Feedback Analysis and Report	# Analysing the feedback received from students to make a comprehensive report	Mr. Sandeep and Ms. Rebecca

A SEMINAR ON VALUE EDUCATION

CODEX-SFIT (2018-19)

Codex was created to transform the students to be intellectual coders and thinkers who can efficiently solve problems using state of art technology. Also provide a platform for an extreme coding experience which will not only sharpen but also enthrall young minds and ensure that they reach the zenith of coding by developing effective problem-solving skills.

1. VR-Trapped:

Date: 1st September 2018.

Venue: 409 (New Building)

The event requires you to find their way out of a challenging virtual maze before the time runs out. It is an individual event and is open to both the teachers and students. Each individual will have a time limit of 3-5 minutes in which they will enter a virtual world which is a maze. They have to find their way out and solve the maze. The individual will not move from their place during this event, their head movement will decide their path. There are unlimited tries for each individual in this event.

ST. FRANCIS INSTITUTE OF TECHNOLOGY

Mount Poinzur, Borivli (West), Mumbai-400103

Department of Information Technology

Information Technology Students' Association

24th March, 2019

Report on "Intra-Department Debate Competition"

- Event - Intra-Department Debate Competition
 - Date - 20th March, 2019
 - Time - 3.15 pm onwards
 - Venue - 301 A, 302 A, 302 B
- No of participants: 27
- Winners : Jason Mendes Sanjana Bhairi Matthew Lepcha
 - 1st runners up : Jessica Kakkanad Prem Shah Rohan Rajak Deep Shah
 - Names of judges : Ms. Prachi R. and Ms. Elizabeth G.

A. Details:

The ITSA committee had organized an Intra-Department Debate Competition for the all students of the IT department with an aim to make students reflect on the day to day issues and to help them put forth their views and ideas regarding the same.

The competition comprised of three rounds, at the end of which, teams were eliminated. The topics were decided forthwith. The competition was conducted simultaneously in labs- 301 A, 302 A, 302 B.

Topics for the debate are listed below:

1. Should 75% attendance be mandatory.
2. Should cigarettes be banned in society?
3. Is a week's holiday required between two consecutive paper?
4. Are video games violent and do they affect day to day life?

Results of the competition:

Winners : Jason Mendes Sanjana Bhairi Matthew Lepcha - 1st runners up : Jessica Kakkanad Prem Shah Rohan Rajak Deep Shah

Debate competition helped the students realize that choosing words wisely is more important than raising voice. It also helps students improvise their critical-thinking and presentation skills.

CODEX-SFIT (2018-19)

Codex was created to transform the students to be intellectual coders and thinkers who can efficiently solve problems using state of art technology. Also provide a platform for an extreme coding experience which will not only sharpen but also enthral young minds and ensuring that they reach the zenith of coding by developing effective problem-solving skills.

1. Hunt-AR 2.0:

Date: 1st September 2018.

Venue: 403 (New Building)

We are remastering the event which was a super hit last year – HuntAR, which had the event with the most participants for MOSAIC 2017.

The scene's unfolds through Augmented Reality, where clue will pop. The clues have a technical twist to it and will be small pieces of big mystery to be decoded.

Each team will be given a device with APK Installed and 60 minutes to find culprit. If you solve the mystery in best time you are the winners

</>Winner **First Place**

Yash Prasad
Goodlish Mourya
Jeff Cliffors
Ryan Rony Peirera
Aston Jimmy Lopez

</>Winner **Second Place**

Amritha Prakash
Nishita Dubey
Snovia Gonsalves
Sneha Jha

</> Winner **Third Place**

Almash Alam
Mrudula Acharya
Priya Ratnagharya
Karan Surve

HuntAR 2.0 was a treasure hunt event conducted and organized by Code-X committee in the technical fest, Mosaic 2018 of the St. Francis Institute of Technology. Last year HuntAR was a success, so this year all the committee members were determined to make this sequel a success. The event included clues that had to be decoded using AR (Augmented Reality) technology. Participation was in 4-5 students and 23 groups had participated in the HuntAR event. Top three groups from among the all groups with the least amount of time were selected as the ultimate winners for the HuntAR event.

CODEX : CodeXpress

Date: 20th September, 2018

Day: Saturday

Time: 10:00 am to 5:00 pm

Venue: Room 111, SFIT.

A. Description

CodeXpress is the coding competition organized by Code - X committee. The competition was conducted on online platforms like codechef, hackerrank, etc. This completion aimed at promoting computer programming and building a strong community of programmers with the intent of creating a community that shares a common love for coding.

In the event, participants were exposed to 8 problems from beginner to expert level. These problem statements were formed and uploaded by the Code-X team on the hackerrank platform. Since the event was conducted for 7 hrs refreshments were provided to the students. The event conducted in two sessions began at 10 a.m. where all the participants had assembled in Room 111. There was no particular order in which participants had to attempt the questions.

A total of 21 participants were attempting the competition. All the participants were enthusiastic towards the competition. The first prize was tied between two teams. Following the end of the hackathon at 5.00 p.m.

B. Images of the Session

C. Final Comment

Winners which are as follows:

- 1. Mr. Aston Lopes (SE CMPN A)**
- 2. Maroof Khatib & Jowin Jestin (TE CMPN A)**
- 3. Manas Acharya and Sanket Dalvi (SE CMPN A)**

This event was the second coding competition held by the Codex. The members of the committee are enthusiastic to conduct such events on an even larger scale.

D. Final Comment

Winners which are as follows:

1. **Mr. Aston Lopes (SE CMPN A)**
2. **Maroof Khatib & Jowin Jestin (TE CMPN A)**
3. **Manas Acharya and Sanket Dalvi (SE CMPN A)**

This event was the second coding competition held by the Codex. The members of the committee are enthusiastic to conduct such events on an even larger scale.

Neural Network and Natural Language Processing

Event Date: **2th March & 9th March 2019** Time: **10:00 AM - 4:00 PM. & 9:00 AM - 5:00 PM**

Venue: ARC Center, CAD Lab SFIT No. of Registered Students: **96 (TEITA/B)**

Resource Person: Mr. Gaurav Modi (Software developer from Merilent India Pvt Ltd.), Mr. Surendra Mishra (Sr. Analyst, Bank of America)

A. Description:

The **Neural Network and Natural Language Processing** workshop was organized by Code-X committee on 2nd and 9th March 2019. As it was a hands-on workshop, the sessions were divided into 2 days and covered the basics of machine learning.

The session was conducted by Mr. Gaurav Modi on Day 1 and Mr. Surendra Mishra on Day 2 along with the help of Mandar Acharekar, Maria Varghese, Veerus D'mello, and Vinay Deshmukh of who are all third-year computer engineering students of SFIT under the guidance Mr. Rupesh Mishra (Assistant Professor) and Ms. Rutuja More (Lab Assistant) from Computer Engineering Department. Total 32 participants were involved in Day 1 of the workshop and 24 participants were involved in Day 2.

On first day session one, "Introduction to machine learning" was covered, which included explanation of basics of python, Introduction to neural networks, intro statistical libraries such as numpy, pandas, and matplotlib. The instructors initially focused on the introductory topics and making sure that all participants were able to follow these terminologies. In session two, the focus was on explanation of Neural Networks. In this, the instructor covered Natural language processing using NLTK library, implementation of neural networks in R.

Second day, the first session continued on neural networks where major concepts such as forward and backward propagation, activation function, and multi-layer networks were taught. In order to know the performance of the network, concepts like error calculation, improvisation, and optimization were taught along with examples.

In the final session, the main focus was on practicing all the concepts learnt till then. A project was built on classification of mail being spam or not, which was a key part of the workshop. All the concepts were implemented in python. Participants were made aware of different python libraries and their functionalities in order to use them for implementing machine learning. Different classification problems and visualization methods were taken by the instructors.

Entry fees for Day 1 & Day 2 were Rs. 210/- and 240/-, respectively. It was charged 350/- for participants attending both the days. On both days, refreshments were provided for the participants. The session concluded at 5 pm on 9th March 2018 with certificate distribution.

The hands-on workshop was well organized and a sufficient amount of time with examples were given to each concept regarding machine learning, which was learnt by the participants. Even the committee members got to learn about Machine Learning and the event ended with a thank you note to the speakers.

The aim was to provide a course path on how to develop projects in the machine learning domain, ensuring it was a more practical project-based approach rather than regular theoretical methodology.

First day of the workshop started with basics of python, intro to statistical libraries like NumPy, pandas, etc. Later core NN were being taught, to assist the understanding of NN a simple project of MNIST classification was taken.

For the second session, the topic was NLP. The day started with basic concepts and terminologies in NLP. Then later part a simple classification project of email being spam or not was taken.

Workshop Report on JavaFX and MySQL

Event Date: 29th September, 2018

Time: 9:00 am to 5:00 pm

Venue: Room 111, SFIT

No. of Registered Students: **56 (SECMPTNA/B)**

Resource Person: **Mr. Manas Acharya, Mr. Sanket Dalvi & Mr. Sahil Nirkhe**

A. Description:

The main idea for the Workshop was inspired by the students' need to make a Java Project. Workshop was organised to teach the basic concepts required to make Java projects which store the data in a database. The speakers were amongst us who knew the topic and achieved sufficient proficiency. The Speakers for the day were **Mr. Manas Acharya, Mr. Sanket Dalvi & Mr. Sahil Nirkhe**, members of IWS Team.

The Workshop started at 9:00am. The first session, on JavaFX using SceneBuilder was taken by Manas Acharya. The students followed the steps and progressed towards making their own layout. The Technical Team was handling the doubts of the students while also explaining the necessary content.

At 12:30 pm, Refreshments were provided to all the participants. The workshop resumed at 1pm and the session was taken over by Sanket Dalvi. The topic was MySQL CRUD using phpMyAdmin. After a short brief on the theory, the students were guided on the practical way to implement it.

B. Images of the Session:

The final session of the workshop on Java Database Connectivity was taken by Sahil Nirkhe. With the explanation of how to connect previous two sessions and make the project complete, the step by step code and its explanation was given. After the successful compilation and presentation of the code, the Technical team volunteers took rounds to solve the errors in the students' code. By the end of the workshop, students' had a functional project ready with them.

REPORT: VR-Gaming

Event Date: 19-20 January 2019

Venue: Computer Center

Instructor: CSI-Committee

Time: 10am - 5pm

No. of Registered Students: 10

Workshop Description:

A workshop on “VR Gaming” was organized on 19-20 Jan 2019 in association with *TechCrypto* to provide training on topics, viz. VR Games, 3D object, Graphics and many more. After the completion of the workshop, a competition on VR gaming was organized and the winner of the competition was awarded with VR glasses.

Topics Covered:

- Installing Unity
- Build 2-D and 3-D games using Unity
- Deployment on mobile
- Camera viewing
- Making object
- Coloring objects
- Resizing objects

REPORT: Tableau Workshop

Event Date: 2nd and 7th October 2018

Time: 10am - 5pm

Venue: Computer Center

No. of Registered Students: 21

Instructor: Mr. Pawan Lalwani

Workshop Description:

A workshop on 'Tableau' was organized by the Computer Society of India - SFIT on 2nd and 7th of October, 2018. Being an extremely powerful data analytics and visualization tool a workshop on the same was able to provide an in-depth look into the world of data sciences. Conducted by Mr. Pawan Lalwani, a frontrunner in Tableau training at industry level, following is a report of the 2-day workshop. About the resource person Mr. Pawan Lalwani is a Freelancer Corporate Trainer for Microsoft Products, Manual Software Testing, Automation Testing, OpenOffice Products, HP Products, and IBM Rational Products. He is the most popular trainer for Tableau on YouTube. Day 1 We started our session at 9:30 am with batch of 21 students not only from college but from other engineering colleges as well. The instructor started off by helping the students get the software on their respective pc. Then he did a briefing of the topics that would be taught on that day. He started by teaching the basic things and introduced the topic and also explained where this software can be used and how useful it is. After reaching the basics and building the foundation he went deeper in the topic and covered other functions like connecting the tableau with database, the difference between the excel and tableau and also told why we prefer tableau over excel, then told in detail about the tools and filters available for the respective tools. After that he introduced the concept of charts and how it can be used for efficient representation of data in data analytics and told about types of charts such as scattered charts, line charts, and then the world maps. Then after 4 hours of working on it students were given a lunch break for 45 minutes. After the break few more concepts were taught like he introduced students now with the concept

of maps which he had discussed shortly before break in form of world maps and its layers and did presentation on region wise population on map and highlighting the different data or information in it. Then the charts which he started pre break now he continued with it and covered some more types of charts like bar chart, lollipop chart and pie chart. In the end he taught actions url and actions filter and then finally day 1 of workshop was successfully completed. Day 2 The second day of the workshop had the same strength of participants as Day 1. We started the session same time like Day 1. Trainer requested the students to create another Tableau book to start. Methods to make the previously created book more attractive and more informative were explained by him which was easy enough for the participants to grasp and at the same time impressed them about how well data representations could be bettered. And then after this initial warm up he started day 2 by concept of last type of chart called as funnel chart. After that he started new topic of dashboard. He first gave the introduction of dashboard and then the format of dashboard and taught how to create the dashboard web pages. After these 3.5 hours of session students were given lunch break of 45 minutes. Post break he started with tableau software as a tool for story telling. Then he started with tableau online tool. He first gave introduction of it briefing about how to use it. Then he did carried out various activities involving interaction with tableau online. Then last topic he taught was how to publish reports. And the session ended on a good note by encouraging students to apply on job websites and adding Tableau as their skill which would help them in getting an upper hand in job placements. While commencing the session, we noticed that the participants were pretty much thrilled to have the session and were satisfied. Hence, our tableau workshop ended in a way that benefited a lot of participants.

A. Description: A hands-on workshop on Python programming language was conducted by IEEE SFIT Student Branch (ISSB) on 25th Aug 2018 from 10 am – 2 pm. Concepts such as NumPy, SciPy, matplotlib, Pandas, etc. were covered in detail. Each concept was explained with examples and its application was highlighted. While practising the concepts of Python, the speaker emphasized on the importance of Python with its various applications in industrial field. The second half of the workshop was more emphasized on Python as a base of machine learning and deep learning. Different graph plotting techniques using Python was taught to the students.

A. Description:

3 techniques of unsupervised technique, supervised technique and reinforcement technique were explained with several examples. For Machine Learning in Python, Scikit-learn was introduced which is a simple and efficient tool for data mining and data analysis. Machine learning algorithms such as Logistic Regression, Support Vector Machines, Model Evaluation, Principal Component Analysis were discussed in detail with a hands-on implementation by every participant.

A. Description:

The instructor revised fundamental concepts of machine learning to establish the pre-requisites needed to understand deep learning. The advantage of deep learning over machine learning is that the deep learning architecture has the capability to learn on its own via feature learning as opposed to manual feature extraction in machine learning. The workshop took its pace when the concepts of MLP (Multi-Layer Perception), deep MLP and CNN (Convolution Neural Network) were introduced. Several concepts such as activation functions, back-propagation, losses, TensorFlow and Keras were introduced. The second half of the workshop focused on the implementation aspect with some applications. Google Colab was used for the implementation via Keras API and Jupyter notebook.

A brief about PRAYAS-2019

Date: March 6, 2019

It is said, “Every Accomplishment starts with a decision to try”. Prayas is organised by the department of Basic Science and Humanities annually as an exclusive platform for First Year Engineering students to transform knowledge into application while also enhancing soft skills. Prayas started in 2015 with the aim of developing scientific skills and innovating thinking among students.

PRAYAS 2019, saw amazing response from the First year students. We had our honourable Chief Guest, Mr. SantoshTakale, Senior Scientific Officer, Bhabha Atomic Research Centre (BARC) investing his valuable time in interacting with the students while delivering the keynote address on the topic “Scientific

temperament of the Universe”. While emphasising on the technical and scientific understanding of things he made students focus on practical thinking, getting their priorities right, professional ethics and learning to value important values that will contribute to their growth as not only a competent professional but also a better human being.

We had more than 100 first year students participating with 22 models, 3 Posters and 10 Powerpoint presentations. While the Projects and posters were exhibited in the new auditorium, the Powerpoint presentations were showcased in the Seminar room (103). Each of the categories was assessed by our eminent group of judges.

30th September, 2018

Report on “Seminar on Industry 4.0 and other contemporary ideas”

- Topic - ‘Industry 4.0 and other contemporary ideas’
- Speaker - Dr. Prachi Raut
- Date - 28th September, 2018
- Time - 3.00 PM to 5:00 PM (2 hrs)
- Venue - Seminar Room – 103
- no of registered students 61

A. Details:

Under the guidance of the IT Department, the ITSA committee organized a Seminar for the Third year and Fourth year students of all departments.

Dr. Prachi Raut holds an expertise in:

- Application software: Matlab and Simulink, NS-2, PSpice, GPSS.
- Computer language: C, C++, Java
- Active Research in
 - Nano scale communication
 - Simulation and modeling of communication systems
 - IoT based applications

The seminar focused on the following key points:

- Industrial revolution 4.0
- Fusion of technologies
- Various sub-topics and new concepts:
 - Distributed Ledger
 - Additive manufacturing
 - Data Lake
 - Blue Ocean, and many other technologies.

ST. FRANCIS INSTITUTE OF TECHNOLOGY

Mount Poinzur, Borivli (West), Mumbai-400103

Department of Information Technology

Information Technology Students' Association

The students were given a sheet of questions which was considered to be a quiz. The Seminar was very well received by the students and they actively participated in the discussion regarding key points. The Seminar helped students to get an idea regarding the upcoming technology and how to prepare themselves regarding the same.

25TH August, 2018

Report on “Industrial Visit: NUOS Home Automation”

- Industry - ‘NUOS Home Automation’
- Resource Person - Mr. Neel Sawant
- Date - 21st August, 2018
- Time - TE IT A: 12:30pm onwards
TE IT B: 2:00pm onwards
- Venue - NUOS Home Automation Centre, Bandra(E), Mumbai.
- No of participants: 39 (TEIT B) 68 (TEIT A) TOTAL- 107

A. Details:

Under the guidance of the IT Department, the ITSA committee had organized an Industrial Visit for the Third year students of the IT department.

NUOS is a startup venture which makes **IoT** products which offer solutions that are beyond smart. Products that actually think for themselves. NUOS is an offering born out of that drive. Their holistic home and office automation solutions are thoughtful and intuitive. It is a team of 10, driven engineers headed by founder **Neil Savant**. Mr. Neil has completed his Masters in Engineering from The Ohio State University. He worked for 4 years in the U.S.A.

The IV focused on the following key points:

- Demonstration of the applications of IoT in day to day life.
- Opportunities for startups in the current market
- Skillset requirements for starting a venture.
- Components and machines for home automation.
- Use of Home automation for security system and purposes.

Students learnt how to implement their knowledge in IoT in day to day life for facilitation of daily chores or lifestyle. They also learnt about the hurdles and difficulties faced while starting their own startup venture. The industrial visit was well appreciated by the students present.

International Yoga Day Celebrations at SFIT

Date: 21st June 2018.

Day: Thursday

Time: 9:30 am- 11:30 am

Venue: New Auditorium

No. of Participants: 15NSS Volunteers

Department	CMPN	EXTC	INFT	Total
No of Participants	04	06	05	15

Objectives:

- To Celebrate International Yoga Day.
- To create awareness about the benefits of Yoga.

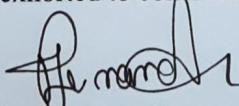

On the occasion of International Yoga Day the NSS unit of SFIT organized a session on Yoga. About 15 NSS volunteers participated in it. The session was guided by Mr. Vikram Kudva and Godwin Emmanuel, the senior NSS volunteers who had undergone week long yoga training at the University of Mumbai.

The session began by creating a conducive environment for yoga. Then followed Yoga asanas. The participants had an experience of enjoying the benefits of yoga. Yoga creates strength, awareness and harmony in both the mind and body. As Yoga includes breathing exercises, meditation, and assuming postures that stretch and flex various muscles. It would be helpful in enhancing overall wellbeing. The participants were exhorted to continue the practice of yoga.

Paul Fernandes

NSS PO / Social Service Coordinator

Report

International Yoga Day Celebration

Date: 15th to 21st June, 2018

Venue: Mumbai University, Kalina

Time: 9:00am – 1:00 pm

No of Participants:

CMPN	EXTC	INFT	TOTAL
0	0	2	2

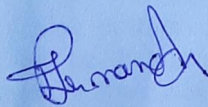

Rodney Pinto - 

Shivani Pandit - 

Objective:

- To train the NSS volunteers in Yoga.
- To patronize Yoga and it's importance.

Keeping the spirit of International Yoga Day alive all across the world, Mumbai University organized Yoga Day Camp for the students from 14th June 2018- 21st June 2018. A total of 250 students from different colleges took part in the Camp. The students were educated on the importance of Yoga. They were explained that yoga helps in maintaining not only physical and mental health but also a healthy social life. The students were taught various Asanas starting with warming up and stretching followed by the series of Padmasana, Muktasana, Vajrasana, Dhanurasana, Chakrasana, Sarvangasana, Halasana, Bhujangasana, and ending with Shavasana. After Asanas session students were also taught the Pranayama – For Longevity. Addressing the students on the occasion of Yoga Day, the Program Co-ordinator of Mumbai University Prof. Bidve sir appealed to the students to include yoga in their daily routine to keep body mind and soul healthy.

REPORT

AWARENESS ON HYGEINE/ CLEANLINES AND HEALTH/DENGUE AND MALARIA

Date: August 4, 2018 (Saturday)

Time: 10 am to 1pm

Venue:

- Shivaji nagar chawl, borivali-west
- sheetal Nagar Borivali
- Slums behind SFIT

No. of participants: 53 NSS Volunteer

Department	CMPN	IT	EXTC	TOTAL
No. of Volunteers	20	14	19	53

Objectives:

- To spread out the awareness about Cleanliness and Hygiene
- To make people aware of the symptoms and preventive methods of dengue and malaria
- To impart the knowledge of Do's and Don'ts in order to keep the living places clean and hygienic.

About 53 NSS volunteers gathered around 10am at the SFIT College premises to participate in the Awareness on Hygiene/ Cleanliness and Health/Dengue and Malaria.

After preparing the posters the NSS Volunteers proceeded to their selected areas. By seeing their living conditions which are very unhygienic and unhealthy they felt that the people in those areas need such kind of awareness programmes. There may not be change overnight but constant repetition of such awareness programmes will surely make a difference. The people took interest to know about the clean India Campaign and about health problems due to uncleanliness.

The objectives of the programme were achieved and the volunteers felt that they need more such programmes to help the people to lead a clean, healthy and hygienic life. The people appreciated the efforts taken by our NSS volunteers.

Report

Awareness on Drug abuse

Duration : 8th September, 2018

Venue: SFIT Seminar Hall

No of Participants:

CMPN	EXTC	INFT	TOTAL
17	22	20	59

Objective:

- To create awareness on Usage of drugs.
- To educate the youth about the negative effects of drugs.

NSS SFIT organized an awareness program on Drug and Alcohol use. The event was conducted by Sir R.N.Ram and Prof. Manoj Kumar from Jeevan Sahara Charitable Trust. About 59 volunteers participated in the seminar. In the seminar, the negative effects of usage of drugs and alcohol were highlighted.

After the seminar an interactive session was conducted, where the doubts of our students were cleared. Since the volunteers actively participated the seminar was ended on a good note.

SOFT SKILLS

Career training session by Global Talent Track

Academic Year: 2018-19

Dates of Training: 11/03/2018- 20/03/2018

No of students: 360 BE all branches

The Global Talent Track with whom the Institute has a memorandum of understanding conducted a training program for the BE students of all the departments. They provide skills to students and make them Industry ready. The training program is for 24 hours.

Objectives:

- To transform individuals into problem solver, achievers, changemakers and leaders.
- To guide the students to acquire soft skills.
- To enhance the students communication and presentation skills.

The Topics Covered are the following:

- Expectation Setting
- Organizational structure
- Goal setting,
- SWOT Analysis,
- public speaking,
- presentation skills,
- Email Etiquette,
- Telephone Etiquette,
- Grooming, body language,
- resume writing and personal mock interviews.

As part of their CSR initiative Barclays conducted this programme for all the students of BE at the beginning of their 7th Semester so that they are well equipped in appearing for their interviews.

Soniya Patil <soniyap@my-rubicon.com>

22 October 2019 at 13:42

To: tpo@sfit.ac.in, wilsonpinto@sfit.ac.in

Cc: Sruchi Mench <sruchim@my-rubicon.com>, Dipika Patil <dipikap@my-rubicon.com>

Respected Sir,

Greetings from Rubicon!

It is my pleasure to introduce **Rubicon**; **Rubicon** was incepted with a dream of a world where every youth has the power to transform lives for themselves and others around them. We strongly believe that every youth has the potential to make a difference in their personal lives as well as the community around them. We build competencies, which would help youth seek careers and prosper in their career of choice. We bring excitement into learning by developing and harnessing, their curiosity and intrinsic motivation for learning.

Rubicon's "Connect with Work" Program, supported by Barclays aims at improving the employability skills of the youth. This initiative is supported by Barclays. Under this program, students will be trained by Corporate Trainers to enhance their Life skills which would help them significantly to increase their chance of succeeding in a job interview. This program is being launched with limited no of colleges in India.

We are looking forward to partner with your institute and plan to run the below initiatives:

1. 24 hrs. classroom training on Interview Skills (Details mentioned below)
2. Industry visit of students to various organizations.
3. Post Placement Mentoring and Career Counselling for one year.

In Life Skills training, we will be covering the below topics:

1. Organizational Structure
2. Public Speaking
3. Presentation Skills
4. E-mail Etiquette
5. Grooming
6. Group Discussion
7. Personal Interview

Assessment will be conducted on Group Discussion and Personal Interview.

Note: We would like to clarify that neither the student nor the college is required to pay anything for this program.

Regards,

Soniya Patil

Value Education Seminar for First Year Engineering students of SFIT

Value Education Seminar for First Year Engineering students
Organised by Basic Science and Humanities Department
on Friday, 22 February 2019 (10:15 to 12:15 and 2:00 to 4:00)

Seminar Title: 'Make Each Day your Masterpiece' Resource person: Ms Deepa Panakkal
(Sub topics: life skills like mechanisms to cope with stress, goal setting, being assertive, handling failure, empathy and humility.)

Some key issues and concerns observed among adolescents include those relating to forming a self-image, managing emotions, building relationships, strengthening social skills, and dealing with or resisting peer pressure. Students at this stage are more prone and vulnerable to high risk situations and may easily succumb to it.

How well an adolescent deals with these issues is decided by a host of factors that include their personality, psychosocial support from the environment (that includes parents, teachers and peers), and the life skills that they possess. Our contribution as teachers, came in the form of the value education seminar that was organised for our First year Students.

The value education seminar was organised for all the 8 classes of first year engineering. Given the large no. of students, the sessions were conducted in two slots for 4 classes each. The resource Person, Ms Deepa Panakkal, focussed majorly on helping students identify and enhance upon some of the important life skills using real time examples that were easily relatable to students. She emphasized on how students need to focus on their ability for adaptive and positive behaviour that would enable them to deal effectively with the demands and challenges of life and also better equip them to handle failure as a learning experience. 'Positive behaviour' implies that a person is forward looking and even in difficult situations, can find a ray of hope and opportunities to find solutions. This was one of the main messages extended to students.

The session also focussed on interpersonal skills that help people make informed decisions, solve problems, think creatively, communicate effectively, empathize with others, and cope with managing their lives in a healthy and productive manner. While all these capabilities were discussed, the importance of being respectful and humble was also emphasized. Thus the session focussed on helping students value skills that truly matter to make them not just competent professionals but also individuals with a strong sense of values and character.

CSI SFIT STUDENT CHAPTER

ST. FRANCIS INSTITUTE OF TECHNOLOGY

Mt. Painsur, Borivali (W).

REPORT: Augmented Reality

Event Date: 2nd October 2017

Venue: CAD Lab

Instructor: Mr. Anurag Mishra

Time: 10am - 5pm

No. of Registered Students: 56

Workshop Description:

A workshop on Augmented Reality was organized by the Computer Society of India - SFIT on the 1st and 2nd of October, 2017, in association with TechCryptors. It was attended by 56 students in total. The workshop was conducted by Mr. Anurag Mishra. Day 1 All the students gathered at the CAD lab at 10:00 A.M. Mr. Anurag Mishra started the session with briefing the students about Augmented Reality. He went on to brief the students about the Vuforia plug-in used to implement Augmented Reality. He then demonstrated the students how to place a moving dinosaur over a Rs. 100 note. A lunch break was given from 12:30 P.M. – 1:30 P.M. Post lunch, the students used the concepts learned while implementing the Moving Dinosaurs project to place Christmas gifts on the Rs. 100 note and used custom animations and scripts to animate the Christmas gifts on click. The session ended at 5 P.M. Day 2 The session on Day 2 was held in the CAD lab and began at 10:00 AM. It was conducted by Mr. Anurag Mishra. He began with the revision of the previous session and in that he solved the various doubts the students had from the previous session. The students began with a new project where the students were given a restaurant menu card and were shown how to place 3D models of the food items on the menu card. This was accompanied with a brief description of the food item. The lunch break was then given from 1P.M.-2 P.M. After the lunch break, Mr. Anurag Mishra solved some doubts which the students had over the course of the workshop. Later, Mr. Anurag Mishra demonstrated another project where the students were given two sheets which when brought together would result in lightning and thunderstorm animations. Mr. Anurag Mishra explained the scripts behind these custom animations, thereby allowing the students to go ahead and do their own modifications to the project. All the

participants were provided with participation certificates and useful links for reference about the content taught in the two days of the workshop. The links which would definitely help the students to apply the concepts learned in the workshop in interesting ways. About the resource person: Mr. Anurag Mishra is one of the instructors at TechCryptors. He has conducted various workshops across India..

REPORT: It's ShowTime Take 2

Event Date: 16th September 2017

Venue: 311

Time: 10:30-4:00pm

No. of Registered Students: 60

Instructor:

Workshop Description:

Name of the event: It's ShowTime Take 2 Venue: Room No 311, St Francis Institute of Technology 1. Flagging: Start time: 10:30 am End Time: 4:00 pm 2. Details of the event conducted: 'It's ShowTime: Take 2' was organized by Computer Society of India, SFIT- Student Chapter during Mosaic, the Annual Technical Festival on 16th September, 2017. Students participated in groups of 3-5 members. During the first round 'Wordsworth', the participants had to decipher the various logos and doodles as well as solve logical questions. The second round, aptly named 'Sherlocked' was a treasure hunt. Participants were given a clue which led to a location in the SFIT campus where they were given a technical code to crack. Four teams qualified for the third and final round, 'The Human Board Game', which was modeled on the business game Monopoly. At every step the participants were asked brainteasers, technical and general knowledge questions. The team with the maximum score was declared the winners. 3. Number of Participants: 60 participants (14 Teams) 4. Staff in- charge: • Mr Shamsuddin Khan, Assistant Professor, CMPN. • Ms Amrita Mathur, Assistant Professor, IT. 5. Coordinators: • Saheel Sawant • Apurva Naik • Masira Mulla • Roshan Salian • Yash Kulkarni • Vishesh Mehra • Miraaj Bhandari • Remon Periera • Chelsea Fernandes • Vinit Masrani • Megha Chovatiya 6. Winners and Prize: • First Place: 1000 Rs Nikhil Mishra Piyush Punmiya Chinmay Tawde Ayushya Chauhan Sid Parker • Second Place: 750 Rs Rohan Suresh Kadambari Shinde Faizan Shaikh Vishal Shetty

REPORT: Right to do and Right things to do

Event Date: 23rd August 2017

Venue: Assembly Hall

Instructor: Ms. Deepa Panakkal

Time: 3:15 pm

No. of Registered Students: 58

Workshop Description:

The Computer Society of India (CSI), SFIT student chapter organized a seminar on Right to do and Right thing to do – Knowing the difference matters which was aimed at developing professional ethics on 23rd August, 2017. The seminar was conducted by Ms Deepa Panakkal. It was free of cost and was attended by 58 CSI members. Ms Amrita Mathur, CSI- SFIT faculty coordinator supervised the seminar. The seminar started at 3:15 pm in the Assembly Hall. It focused on the following points: • Need of professional ethics. • Assertive, Passive and aggressive behavior. • Leadership skills. • Ways to deal with professional issues ethically. At the end of the session, Ms Amrita Mathur thanked Ms Panakkal on behalf of the CSI-SFIT team. The workshop was appreciated by all the attendees. It was concluded at 5:00 pm. About the resource person: Ms Deepa Panakkal Ms Deepa Panakkal is an MH- SET qualified assistant professor at St Francis Institute of Technology with over 8 years of teaching experience. She is an excellent orator skilled in English as a Second Language (ESL), Feasibility Studies, Educational Technology, Creativity Skills, and Public Speaking. Ms Panakkal is an experienced facilitator who has been guiding and motivating students through interactive and effective teaching - learning methods

PYCODE – DATA SCIENCE AND MACHINE LEARNING REPORT

DAY 1

- Date : February 18, 2017
- Venue : Labs 401A, 410B, 409B and 701B(Language Lab)
- No. of participants : 82
- Time : 9:00am – 5:00 pm

The first day began at the registration desk with a huge crowd lined up excited for the workshop. The participants were allocated rooms and then sent to their respective rooms just before getting started with the workshop.

The workshop began sharp at 9:00 am with Mast. Archillies Rashquina's PC live streamed on YouTube to the rest of the Laboratories beginning with an introduction to the workshop and how it will flow throughout the days.

After a brief introduction to the workshop, he started with an introduction to python and its basics, Jupyter notebook, setting up Anaconda, GitHub, git basics and all other activities lined up for the morning session of day 1.

At 12:15 pm, there was a lunch break for all the participants as well as the volunteers to fill their empty stomach after having a great learning session. The lunch was over by 1:00 pm.

After lunch, the participants moved back to the respective classes and sat down to their PCs. Live streaming has started again. All the participants were excited for this session as they were going to be taught to create filters like on Instagram. They learnt image processing using pillows, image manipulation and creating photo filters.

In the end, the workshop ended on a thanking note to all the participants who attended the workshop and hoped that they learned something new today.

- **Problems faced in the event**
 1. The first session of the workshop was pretty good, though there were severe lags in many rooms due to some issues.
 2. The second session was pretty bad as things didn't go as they were planned. The network crashed and there were no internet connections to stream to the PCs in different rooms and due to this the speakers had to go to different rooms to explain

the same things to the students.

Day 2

- Date : February 24, 2017
- Venue : Computer Room (112 ARC Lab)
- No. of participants : 86
- Time : 9:00am – 5:00 pm

Due to the problems we faced on day one, we shifted the workshop to the computer room where we could accommodate all the participants.

The day began with Achilles revising a few topics that we did on the first day and continued with the new points as mentioned.

Day 2 being much better than day one, all of the participants enjoyed the workshop.

They were taught to predict and the Titanic prediction was one of the most interesting segments.

We ended day 2 on a thanking note to all the participants for attending the workshop and inspiring them to learn something new every day.

Day 3

- Date : February 25, 2017
- Venue : Computer Room (112 ARC Lab)
- Time : 9:00am – 5:00 pm

Day three was an optional day for all the participants as we had kept a doubts/revision session for all.

More participants than expected turned up for this session.

The committee members also got involved with the speaker to discuss the feedback from the participants regarding the event.

Even the committee members got to learn about Data Science and the event ended with a thank you note to the speakers.

CODEX – CodeXpress

Date: 9th September, 2017

Day: Saturday

Time: 9:00 am to 5:00 pm

Venue: Room 401A and 401B, SFIT.

CodEXpress is the coding competition organized by Code - X committee. The competition was conducted on Codechef platform. In the event, participants were exposed to 8 problems from beginner to expert level.

These problem statements were formed and uploaded by the Code-X team on the codechef platform.

The event conducted in two sessions began at 9 a.m. where all the participants had assembled in Room 401 A and B. There was no particular order in which participants had to attempt the questions. A total of 46 participants were attempting the competition. All the participants were enthusiastic towards the competition. Following the end of the hackathon at 5.00 p.m. there were top 3 winners which are as follows:

1. Rahul Dubey (BE CMPN)
Bini Edward (BE CMPN)
Price Money ₹ 4000/-

2. Manan Sheth (TE IT)
Het Shah (TE IT)
Price Money ₹ 2000/-

3. Sahil Nirkhe (FE CMPN)
4. Price Money ₹ 1000/-

This event was the first coding competition held by the Codex. The members of committee members are enthusiastic to conduct such events on an even larger scale.

Final Comment

Top 3 winners which are as follows:

1. Rahul Dubey (BE CMPN)
Bini Edward (BE CMPN)
Price Money ₹ 4000/-

2. Manan Sheth (TE IT)
Het Shah (TE IT)
Price Money ₹ 2000/-

3. Sahil Nirkhe (FE CMPN)
4. Price Money ₹ 1000/-

This event was the first coding competition held by the Codex. The committee members are enthusiastic to conduct such events on an even larger scale.

CODE – X MOSAIC 2017 - HUNTAR

Date: 16th September, 2017

Day: Saturday

Time: 11:00 am to 4:00 pm

Venue: Room 004 and SFIT Campus.

As this is the first year of the Mosaic for Code-X committee, every committee member was enthusiastic and had worked towards leading **HuntAR** to success. **HuntAR** was a treasure hunt event conducted and organized by Code-X committee in the technical fest, Mosaic 2017 of the St. Francis Institute of Technology. The event included clues that had to be decoded using AR (Augmented Reality) technology.

Participation was in 4-5 students and 40 groups had participated in the HuntAR event. Top three groups from among the all groups with the least amount of time were selected as the ultimate winners for the HuntAR event.

1. First Place:

- a. Kaustusbh Acharekar, SE IT A
- b. Sanket Dalvi, SE IT A
- c. Mitali Deshpande, SE IT A
- d. Pranav Khedekar, SE IT A
- e. Rushikesh Jalvi, SE IT A

2. Second Place:

- a. Bhavi Maniar, TE IT A
- b. Bhumi Mehta, TE IT A
- c. Krisha Kothari, TE IT A
- d. Aaditya Amin, TE IT A

e. Jitendra Purohit, TE IT A

3. Third Place:

- a. Malhar Sawant, FE EXTC B
- b. Anirudha Nevgi, FE EXTC B
- c. Sahil Surve, FE EXTC B
- d. Onkar Pednekar, FE EXTC B

Apart from winners, the first 30 registrations were also awarded by Rs. 100 off Vouchers sponsored by Royal Neshor. With **172** student participation in the event, it was a wonderful response and a feat which was achieved in the first year of Mosaic for Code-X committee. The event was a grand success for the committee and expectations were set high for the next year's Mosaic and the team is committed to deliver.

CODE – X Deep Learning Hands-on Workshop

Date: 29th March & 31st March 2018

Day: Thursday & Saturday

Time: 11:00 am to 4:00 pm

Venue: Room 112, Computer Center, SFIT.

The deep learning workshop was organized by Code - X committee on 29th and 31st March 2018. As it was a hands-on workshop, the sessions were divided into 2 days and covered the basics of deep learning.

The session was conducted by Mr. Mohd. Akib Kabani along with the help of Neha Nagarkoti, Nachiket Makwana and Vishal Shetty who are all final year students of SFIT under the guidance Mr. Rupesh Mishra and Mr. Vivian Lobo Assistant professor from Computer Engineering Department. Total 34 participants were involved in the workshop out of which 11 students were from other colleges.

On the first day session one, “*Introduction to deep learning*” was covered which included explanations of Introduction to Machine Learning, Introduction to Deep Learning, difference between Machine Learning and Deep Learning. The instructors initially focused on the introductory topics and making sure all participants were able to follow these terminologies. In Session two, the focus was on explanation of Neural Networks. In this the instructor covered different types of neural networks, namely Deep Belief Networks, Convolutional Networks and Recurrent Networks. The difference between those types and their significance was a key part of deep learning.

Second day's first session continued on neural networks where major concepts such as forward and backward propagation, activation function, multi-layer network were taught. In order to know the performance of the network, the concepts error calculation, improvisation and optimization were taught along with examples.

In the final session, the main focus was on practicing all the concepts learnt till then. All the concepts were implemented in python. Participants were made aware of different python libraries and their functionalities in order to use them for implementing deep learning. Different classification problems and visualization methods were taken by the instructors.

On both days, refreshments were provided for the participants and were accompanied by Mr. Rupesh Mishra and Mr. Vivian Lobo. The session concluded at 5 pm on 31st March 2018 with certificate distribution.

Although the event was successful, there was not much surplus profit obtained even though the numbers of registrations were approximately 60. The other reason could be the holiday that came in between the workshop (i.e., 30 March 2018)

The hands-on workshop was well organized and a sufficient amount of time with examples were given to each concept regarding deep learning which was learnt by the participants.

REPORT: Augmented Reality

Event Date: 2nd October 2017

Venue: CAD Lab

Instructor: Mr. Anurag Mishra

Time: 10am - 5pm

No. of Registered Students: 56

Workshop Description:

A workshop on Augmented Reality was organized by the Computer Society of India - SFIT on the 1st and 2nd of October, 2017, in association with TechCryptors. It was attended by 56 students in total. The workshop was conducted by Mr. Anurag Mishra. Day 1 All the students gathered at the CAD lab at 10:00 A.M. Mr. Anurag Mishra started the session with briefing the students about Augmented Reality. He went on to brief the students about the Vuforia plug-in used to implement Augmented Reality. He then demonstrated the students how to place a moving dinosaur over a Rs. 100 note. A lunch break was given from 12:30 P.M. – 1:30 P.M. Post lunch, the students used the concepts learned while implementing the Moving Dinosaurs project to place Christmas gifts on the Rs. 100 note and used custom animations and scripts to animate the Christmas gifts on click. The session ended at 5 P.M. Day 2 The session on Day 2 was held in the CAD lab and began at 10:00 AM. It was conducted by Mr. Anurag Mishra. He began with the revision of the previous session and in that he solved the various doubts the students had from the previous session. The students began with a new project where the students were given a restaurant menu card and were shown how to place 3D models of the food items on the menu card. This was accompanied with a brief description of the food item. The lunch break was then given from 1P.M.-2 P.M. After the lunch break, Mr. Anurag Mishra solved some doubts which the students had over the course of the workshop. Later, Mr. Anurag Mishra demonstrated another project where the students were given two sheets which when brought together would result in lightning and thunderstorm animations. Mr. Anurag Mishra explained the scripts behind these custom animations, thereby allowing the students to go ahead and do their own modifications to the project. All the

participants were provided with participation certificates and useful links for reference about the content taught in the two days of the workshop. The links which would definitely help the students to apply the concepts learned in the workshop in interesting ways. About the resource person: Mr. Anurag Mishra is one of the instructors at TechCryptors. He has conducted various workshops across India..

IETE REPORT

Event Title: Home Automation Using Iot.	Event Date: 24th-25th of February 2018
Faculty Coordinator: Ms. Jovita Serrao Mr. Ramjee Yadav	Number of Registered Students: 16 students
Resource Person: Dharmesh Korla sir. In association with Prako Technocrat.	Committee Name : IETE-SF

A. Description:

Home Automation using IOT workshop organised by IETE-SFIT was held on 24th-25th of February 2018, in association with Prako Technocrat. It was a two day national level workshop.

Day 1: A total of 16 students attended the workshop. On the first day of workshop, students

were informed about what is IOT and how IOT has become a part of day-to-day life. The basic idea of IOT was given to make the students understand and have a rough idea of the topic. Students were given the IOT workshop folders and were told about the advantages of using IOT. Later they were divided into a group of 5 and were asked about their idea of what they thought IOT was. After that students were asked to open ARDUINO IDE software. All the basics needed for development were taught. The use of void setup and void loop were explained. Then the students were taught some basic steps on how to write a program in the software and upload it. For this, an Led was connected to the Arduino Nano and code was written to alternatively switch it on and off and importance of delay was taught. Interfacing of WIFI module (ESPS266-01) with Arduino Nano was taught and various AT commands were explained.

Day 2: On the second day, students revised the important concepts and they were informed about the various errors they might face while uploading code to the Arduino Nano and the errors while connecting the wifi and hotspot. Later interfacing of temperature sensor along with its Arduino IDE code was taught. Further students were asked to register on thingspeak so that they

can view graphical representation of the output of the temperature sensor interfaced with Arduino Nano. They were also told to download the Blynk app and were shown the working of a relay and how they can remotely control its function using IOT and the Bynck app.

IETE REPORT

Event Title: Python And Django Workshop.	Time: 9 am-1 pm : Python 2 pm-4:30 pm : Django Date : 24th of March 2018
Faculty Coordinator: Ms. Jovita Serrao Mr. Ramjee Yadav	Number of Registered Students: 51 students : 46
Event Location: Room No. 511 (Class room BE EXTC A)	Committee Name : IETE-SF Resource Person: Dr. Joanne Gomes Mam

A. Description:

In the first session, python was taught. Students were asked to open Python 3.6 software. Mam started python from the scratch including how to assign a variable, functions like print, how to concatenate, variable types were also explained. Further, looping statements were taught as well as different data types, strings, lists, tuples, dictionaries were taught. GUI interfacing in python was also introduced including GUI library tkinter, Widgets of tkinter, Attributes of widgets, Layout managers and grid layout managers.

In the second session, students revised the important concepts and they were informed about the various errors they might face while coding in python and the troubleshooting them. Then the students were introduced Django and they were taught about the installation of Django which included creating an virtual environment and activating it, then Django was installed using “pip install Django” and its version was checked using “python -m django - -version”. Later they were taught how to create a website skeleton and Django server webpage.

SKEP on Business Intelligence Tools Using Orange

A. Description:

With data-driven processes running across organizations, Business intelligence allows small, medium and large businesses to make better decisions by accessing big data. Business Intelligence is an umbrella term that includes best business practices, software, infrastructure, and any other tools to optimize decision making and enhance performance. In turn, this makes it easier to identify trends and issues, uncover new insights and fine-tune operations to meet business goals.

Report on PRAYAS 2017 – 2018

Event Date: 7th March 2018

Time: 10:00 am to 3.00 pm

Venue: Auditorium

No. of Registered Students: 53

Chief Guest: Ms. Jessline Coutinho

Description:

PRAYAS-2018 REPORT

Date: March 7, 2018

Prayas-2018 is a Project/Presentation Competition for First Year students of St. Francis Institute of Technology, Borivali (W). The main aim of this competition is to give the FE students a platform to showcase their technical and presentation skills through working models and PowerPoint presentations. The said platform is exclusively for FE students who have just entered the engineering field and want to gain knowledge by working in a small group.

Prayas-2018 in numbers:

- No of Working Models Exhibited – 09
- No of presentations – 10
- Total No of participants - 53
- No of Supervisors - 14
- No of Judges - 06
- No. of Parents Present for the event - 06
- Total No of Student Organizers - 29

Names of Sponsors:

1. SFIT-ISTE Students' Chapter – Rs 10,500/-
2. Ashish Holidays – Rs. 11,000/-
3. Chetan Bearing Centre, Kandivali (E) – Rs. 4,000/-

Names of Coordinators:

1. Sunil R. Pansare – Coordinator
2. Ms. Beatrice Lobo – Co-coordinator
3. Mr. Ravindra Garmode – Co-coordinator

Inauguration of Prayas-2018 took place at 10 am on March 7, 2018 in the New Auditorium. The dignitaries present were Honourable Director Bro. Jose Thuruthiyil, Principal-in-charge, Dr. Gautam Shah and FE Coordinator Dr. Poonam Hemnani. The Chief Guest for the event was Ms. Jessline Coutinho. She is the co-founder and Director of a start-up called Royale Neshar. Dr. Poonam Hemnani welcomed all the dignitaries with bouquet of flowers. During her speech, the chief guest shared her experience of working for a start-up. She said that a business need 24 x 7 attention. She gave the students important tips on how to work for a successful start-up. The Director, FE Coordinator and Prayas Coordinator also gave their on this occasion. All the Head of Departments, Deans, Training and Placement Officer were also present. The students from two of the FE Classes were present for the inauguration function.

The Director and The Chief Guest then cut the ribbon and declared the event open. All the dignitaries took a round in the Exhibition Arena. All of them showed keen interest in all the displayed projects. Especially, Ms. Jessline went to all the Student Groups and had a nice interaction with them. She gave them feedback about what she thought about their projects. She congratulated them for their effort and even gave them advice on taking their ideas to different level of achievement. Ms. Sridari Iyer, Computer Department, Ms. Namrata Mankad, EXTC Department and Mr. Vaibhav Kala, IT Department helped us in judging the working models. The Interactive Hologram group, The Plotter Machine group and The Pneumatic Transit System groups were adjudged as winners.

Meanwhile, the Presentation groups delivered their presentations in front of Judges. Dr. Vaishali Jadhav, IT Department, Ms. Snehal Kulkarni, Computer Department and Mr. Santosh Chapaneri, EXTC Department helped in judging the presentations. The Sockett group, the Traffic Management System group and The Piezoelectricity groups were the winners in this category. All the presentation groups then arranged their posters for the benefit of visitors.

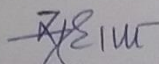

The visitors included teachers and students from various departments. Few of the parents also visited the exhibition. Ms. Rekha Ajikumar along with her team consisting of Staff members and Students brought students from various FE classes in various slots to the venue. All the students enthusiastically participated in the activities and were very keen in knowing the facts about the projects and the presentations.

The Valedictory function started at 3 pm. The Training and Placement Officer, Mr. Wilson Pinto, was invited as Chief Guest for the function. Other dignitaries present were FE Coordinator, Dr. Poonam Hemnani, Dr. Kevin Norhona, Dean Academics and Sunil Pansare, Prayas Coordinator. In his speech, Mr. Wilson Pinto insisted on the importance of innovation in the life of engineers. Mr. Ravindra Garmode, Prayas Co-coordinator presented the salient points of the event. Mr. Pinto, Dr. Norhona, Dr. Hemnani and Mr. Pansare then distributed the certificates and winner prizes. Ms. Preethi Colaco presented the Vote of Thanks.

The snacks were arranged for all present in the New Canteen. Ms. Arti Bhatnagar and her team had made all these arrangements for the same.

Report on Industrial Visit 2017 – 2018

Event Date: 16th February 2018 & 17th February 2018

No. of students: 302

Industries Visited - Navneet Publications, Kryfs power components, Nilkamal plastics factory, Alok industries, Sudhir generators, Universal & Amber Cosmetics

St. Francis Institute Of Technology

16 Feb – 17 Feb 2018

Two days one night stay.

No of students attended 302, from First year IT, EXTC, CMPN branches

Accompanied by Ms. Preethi Colaco and other 13 staff members

Tour operator: Ashish Holidays,

Hotel Stay at Pluz Resort; 4 students in a room; Travelled by Bus;

Industries Visited:

- 1) Navneet Publications
- 2) Kryfs Power Components
- 3) Nilkamal Plastics Factory
- 4) Alok Industries
- 5) Sudhir Generators
- 6) Universal Cosmetics
- 7) Amber cosmetics

This industrial visit helped the students observe and learn how the delicate and complex process of production works. The Plant supervisors were very informative and demonstrated the process of manufacturing of various products. We received excellent service and reception from the hotel management.

The amenities provided exceeded our expectations. 302 students from the FE department accompanied by 14 staff visited various Industries and entertainments locations like Butterfly Park, etc.

Navneet Publications allowed us a glimpse of their manufacturing secrets. It was a first- hand experience of the various types of books and documents. Navneet produces books and documents in all ranges like small books, long books , drawing books , notepads , etc.

Kryfs Power Components showed us their intricate process of core making of a transformers where silicon steel was used in the core of the transformer which were exported out for further processing.

Nikamal Plastics displayed us the process of injection moulding. We saw the material Polypropylene transforming into end products like chairs, crates, etc. We saw the various intense tests for durability of the product. It was astonishing that the process was completed in just 54 seconds.

Aluk industries explained the working and functioning of the machine which weaves textile. The supervisor explained the entire process of manufacturing and dyeing of products till the final roll out of products. The machines run 24/7 with four backup generators in case of power outage.

Sudhir Generators convert the generators received from external suppliers to silent generators. We saw the process of soldering, welding, painting of generators.

Universal Cosmetics showed us process of manufacturing of the chemicals required to make face wash. They demonstrated the filling and packing of the final product. They told us the statistics and income from distribution and selling.

Amber cosmetics showed the production and packaging of lipsticks, compact powder, nail paints. They explained to us the different chemicals used for the synthesis of these products.

Overall the I.V. was tantalizing and the learning experience was far better than theoretical books. The students could relate the theoretical knowledge in practical life. The students are grateful to the FE department for giving such a great experience.

Dear Sir,

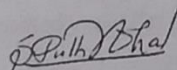

On behalf of the First Year engineering students and staff of Basic Sciences & Humanities Department of St. Francis Institute of Technology, Borivali, we thank you for the time you took to organize and host our tour of your plant on 16th & 17th February 2018. The tour was informative and the commentary helped us to make the best use of our limited time.

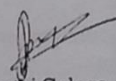

All your employees were extremely courteous and went out of their way to explain various functions and operations of the industry and took time to answer our queries. The visit helped our students to understand that through education and hard work, opportunities for career success are available to them.

Thank you again, for giving us of your valuable time. It was a most enlightening experience for our students. We look forward for your kind cooperation in coming years.

Thanking You,

Yours sincerely

Proposed Itinerary for Industrial Visit to Silvassa (2 days)

Days	Time	Tour Itinerary
1 16.02.18 Fri	06.00	Assemble at College premises.
	06.30	Departure for Silvassa. Enroute Breakfast will be provided in Silver Mine.
	11.30	Industrial visit
	12.00	After Lunch Industrial visit
	17.00	Check into hotel & rest.
	19.00	DJ night at Hotel.
	20.30	Dinner and Night stay at hotel.
2 17.02.18 Sat	08.30	Breakfast
	09.30	Checkout from Hotel and Industrial visit.
	14.30	After Lunch Butterfly Garden
	16.00	Industrial visit.
	17.30	Return journey to Mumbai.
21.30	Arrival at College premises.	

Names of Industries: Neel Kamal, Sudheer Generator, Kryfs Power Components Ltd & Alok Industries, Universal Health Care, Navneet Publications etc.

Inclusions:

- Road Journey: Travel by comfortable bus as mentioned above.
- Accommodation:

Silvassa
Pluz Resort

Report on PYTHON Workshop

The ITSA committee organized a hands-on workshop for TE AND SE IT students. A total of 53 students attended the workshop. The details of the workshop are as follows:

- **TOPIC- 'Python Workshop'**
- **RESOURCE PERSON – 1)Mr. Pravin Pandey
2)Mr.Nirantak Raghav.**
- **DATE - 9th August ,2017**
- **TIME - 1-5 pm**
- **VENUE - ARC Lab**

The seminar focused on key points like:

- Python basics
- Data analysing using python
- Image manipulation using python
- Git

Students learnt how to use the python and also realized how easy it is to analyse data in python and python handling. The workshop was well appreciated by everyone present.

Report

International Yoga Day Celebrations at SFIT

Date: 17th June 2017.

Day: Saturday

Time: 9:30 am- 11:30 am

Venue: Gymkhana (B Wing)

Recourse Persons: ISHA Foundation Members

No. of Participants: 29 Staff members

Organizers: 04 NSS Volunteers

Department	CMPN	EXTC	INFT	FE	OFFICE	LIBRARY
No of Participants	04	11	11	02	01	04

Objectives:

- To Celebrate International Yoga Day.
- To enable the student and staff members to practice yoga and to have good health.
- To create awareness about the benefits of Yoga.

On the occasion of International Yoga Day the NSS unit of SFIT organized a session on Yoga in collaboration with Isha Foundation which is dedicated to raising human consciousness through yoga.

About 29 staff members and 4 NSS volunteers organizing team participated in it. The session was guided by Mr. Anant Bhat, Ananya Bhat and Veidehi Mody, ISHA Foundation members.

The session began by creating a conducive environment for yoga. The Director Brother Jose Thuruthyil and Principal Dr. Sincy George welcomed and felicitated the resource persons, presenting them with a tulsi plants.

SOFT SKILLS

Career training session by Global Talent Track

Academic Year: 2018-19

Dates of Training: 9/08/2018- 12/8/2018

No of students: 360 BE all branches

The Global Talent Track with whom the Institute has a memorandum of understanding conducted a training program for the BE students of all the departments. They provide skills to students and make them Industry ready. The training program is for 24 hours.

Objectives:

- To transform individuals into problem solver, achievers, changemakers and leaders.
- To guide the students to acquire soft skills.
- To enhance the students communication and presentation skills.

The Topics Covered are the following:

- Expectation Setting
- Organizational structure
- Goal setting,
- SWOT Analysis,
- public speaking,
- presentation skills,
- Email Etiquette,
- Telephone Etiquette,
- Grooming, body language,
- resume writing and personal mock interviews.

As part of their CSR initiative Barclays conducted this programme for all the students of BE at the beginning of their 7th Semester so that they are well equipped in appearing for their interviews.

Respected All,
Greetings!

As discussed, PFA the JD for Barclays Technology India Pvt. Ltd., Pune.

Note:

1. Only the students which are trained under Barclays Connect with Work Programme can apply.
2. College has to share the list of students along with their resumes who have applied – Student full name, Email ID, Mobile No., Dept., Enrolment no.
3. Student should be passionate about Technology & should have excellent Communication Skill.
4. Student should be ready to relocate to Pune.
5. Student should be good in academics.
6. Student should not have any backlogs before the final semester exam & should clear the final exam without any backlogs.
7. Students from IT, Computer Science, E&TC back ground can apply for the Job (2018 pass outs only).
8. Last date to apply is 21st March 2018.

Once i receive list from your side, will share the link.

Thank You

Warm Regards,

Memorandum of Understanding

This Memorandum of Understanding is made at **MUMBAI** on **28th** day of **July**, 2017.

BETWEEN

Global Talent Track Private Limited a Company incorporated under the Companies Act, 1956, having its Registered Office at 401, 4th Floor, Zero One IT Park, Ghorpadi- Mundhwa Road, Mundhwa, Pune-411036, Maharashtra, hereinafter referred to as "**GTT**" (which term shall so far as the context admits be deemed to mean and include its successors, administrators, executors and assignees) of the **First Part**.

AND

St. Francis Institute Of Technology located at **S.V.P.Road, Next to Bhagavati Hospital, Borivali West, Mumbai 400103** hereinafter referred to as "**SFIT**" (Which term shall so far as the context admits be deemed to mean and include its successors and assigns) of the **Second Part**,

WHEREAS:

1. **GTT** is a Training Partner associated with various corporates for providing training to the students as part of their CSR activity.
2. **St. Francis Institute Of Technology** College is an Educational institution affiliated to University of Mumbai. The College offers various Graduate & Post Graduate Courses in Engineering.
3. **St. Francis Institute Of Technology** College is willing to enter into a Memorandum of Understanding (MOU) with **GTT** for the skills enhancement initiative through Career Clap, the technology platform and other face to face initiatives.

NOW IT IS HEREBY AGREED BY AND BETWEEN THE PARTIES HERETO AS UNDER:

1. Objective:

The objective of this MOU is to enable students of **St. Francis Institute Of Technology** College access resources that would enhance their employability.

2. Period of MOU:

This MOU shall come into force and effect from the date of execution and shall remain valid for a period of One year from such date after which the same may be reviewed by either party. However, if the same is not renewed this arrangement will be deemed terminated on the expiry of the said duration period.

3. Roles & Responsibilities of the College:

- a. The College shall be responsible to nominate one person with adequate accountability and responsibility to coordinate the engagement. The person so appointed would act as the single point of contact (SPOC) for the proposed initiative.
- b. The College shall share the details of the students like name, email ID, contact details who are willing to undergo the aforesaid skill enhancement initiative through Career Clap with GTT in the College Letterhead. The College further authorises GTT to share the above information with NASSCOM Foundation/ Barclays to get in touch with the students for updating them about various job fairs, placement drives etc, and to seek feedback of the program.
- c. It would be the responsibility of the College to ensure that proper publicity of the Program is made through College website.
- d. To encourage the Students to register for the Program by informing them about the benefits of the program.
- e. To provide all the support services and facilities to **GTT** during the conduct of the said Training Program.
- f. To coordinate with GTT and facilitate conduct of all the assessments including the assessment to be conducted by the external agency (if any) identified by GTT, as per schedule communicated by GTT.

4. Roles & Responsibilities of GTT:

- a. GTT shall be responsible to provide access to employability enhancement related activities through blended learning model including use of Career Clap.
- b. GTT will arrange for assessment of its own and also arrange external assessment as required.

5. Other Terms & Conditions:

Following are the other terms and conditions of MOU:

- a. The students enrolled should complete the training as scheduled.
- b. The students should register online through Career Clap and appear for Assessments as required.
- c. Program Coordinator to be appointed by college
- d. TPO's active support and participation is required for smooth & efficient conduct of the program
- e. The College shall not write/publish any material or use any logos/names of GTT/ Nasscom Foundation/ Barclays in any of the publications without prior written consent and approval from GTT.

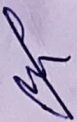

6. Commercial:

This Training Program is free of cost. GTT shall not charge any fees on whatsoever account/name from the students or the College for conducting the aforesaid training program.

7. Certification:

E-Certificates shall be awarded by GTT to the students on successful completion of the training and clearing of the assessment held post completion of the training program.

8. Limitations and Warranties :

Both parties agree that it would be their endeavour to prevent any liability arising out of default or non-compliance of the MOU terms by the other party.

9. Termination:

- a. Both parties can terminate the MOU with a prior written thirty (30) day notice on default of terms of non-adherence to any condition or responsibilities by the other party as outlined in this MOU in case such default is not rectified within such 30 days.
- b. Both parties also agree that it would be their professional endeavour that despite any termination of the MOU, progress would continue, without any prejudice to the ongoing Training Programs, which would be without any hindrance and would be progressed for completion.

10. Entirety & Amendment:

This MOU contains the entire understanding between the Parties in relation to the Training Program. If during the operation of the MOU, circumstances may rise which call for alteration / modification to this MOU, such alteration / modification shall be mutually discussed and agreed upon in writing. Such changes will be formalized in writing as an 'Addendum' to this MOU. Any changes/amendments to this MOU not in conformance to this section shall be deemed to be void-ab-initio.

11. Intellectual Proprietary Rights:

All intellectual or proprietary property and information, supplied or developed by either Party shall be and remain the sole and exclusive property of the Party who supplied or developed same. Upon termination of this MOU and upon written request, the Party in receipt of the requesting Party's intellectual or proprietary property and/or information pursuant to this MOU shall return such information to the requesting Party.

12. Confidential Information:

- a. Both parties undertake to each other to keep confidential all information (written or oral) concerning the business and affairs of the other, which has been obtained or received

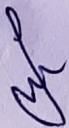

during the course(s) of performance hereunder, save that which is inconsequential or obvious;

- b. Already in its possession other than as a result of a breach of this clause; or in the hands of the public other than as a result of a breach of this clause.
- c. In the event of any of the parties becoming legally compelled to disclose any confidential information, such party shall give sufficient notice to the other party so as to enable the other party to seek a timely protective order or any other appropriate relief. If such an order or other relief cannot be obtained, the party being required to make such a disclosure shall make the disclosure of the Confidential Information only to the extent that is legally required of it and no further.
- d. Both parties agree not to deal directly or enter into any business agreement with any of the partners or associates or customers of either party during the term of the agreement and also after the agreement have been terminated, not earlier than two years from the date of termination.

13. Force Majeure:

- a. Neither party to this MOU shall be liable for any failure or delay on its part in performing any of its obligations under this MOU, if such failure or delay shall be result of or arising out of Force Majeure conditions and, provided that the party claiming Force Majeure shall use its best efforts to avoid or remove such cause of non-performance and shall fulfil and continue performance hereunder with the utmost dispatch whenever and to the extent such cause or causes are removed.
- b. Any extraordinary event, which cannot be controlled by the parties, shall for the purpose of this MOU be considered as a Force Majeure event. Such events include acts of God, acts or omissions of any Government or agency thereof, compliance with rules, regulations or order of any Government Authority. Provided however, if either party claims that existence of any of the aforesaid conditions is delaying or disabling the performance by said party of its obligations under this MOU, such party shall give immediate notice to the other party of the existence of such conditions whose existence are claimed to delay or disable the performance of obligations as aforesaid.

14. Jurisdiction and Arbitration:

- a. In the event of any dispute or difference between the Parties hereto, the courts in Pune alone shall have exclusive jurisdiction to try any matter arising between the Parties here-to and accordingly both the Parties shall submit to the exclusive jurisdiction of courts in Pune, Maharashtra.
- b. Any dispute arising out of, in relation to or in respect to this MOU shall be settled through mutual consultation and agreement, by the Parties to this MOU. In case a settlement is not arrived at within fifteen (15) days of reference, the dispute/s shall be referred to a sole arbitrator to be appointed in accordance to the Arbitration and Conciliation Act, 1996 as amended from time to time. The place of arbitration shall be Pune, India.

IN WITNESS WHEREOF, the Parties hereto have duly executed this Agreement as on the day, month and year first hereinabove written

Letter of Appreciation

To,
Ms. Deepa Panakkal,
Asst. Professor,
Basic Science and Humanities Department,
SFIT.

Dear Ma'am,

Thank you very much for conducting an informative and thought provoking session on '*Resilience is All it Takes*' under RnD Activities of Computer Department of SFIT held on 21st September 2017. It was our pleasure to have you for such a resourceful session for 120 students of second year (S.E.) Computer Engineering. The session was much required to help students focus better on their studies and to manage time effectively.

We truly appreciate the way you covered every topic in detail clearing the doubts on the same. The presentation was splendid and it effectively exposed students to the field practices. Once again, we would like to express our sincere gratitude for such a commendable job and we look forward to more of such resourceful speeches from you in future.

Yours Sincerely,

Dr. Kavita Sonawane
HOD, CMPN

Ethical Hacking Workshop

The Computer Society of India (CSI), SFIT student chapter organized a seminar on Right to do and Right thing to do – Knowing the difference matters which was aimed at developing professional ethics on 23rd August, 2017. The seminar was conducted by Ms Deepa Panakkal. It was free of cost and was attended by 58 CSI members. Ms Amrita Mathur, CSI- SFIT faculty coordinator supervised the seminar. The seminar started at 3:15 pm in the Assembly Hall. It focused on the following points: • Need of professional ethics. • Assertive, Passive and aggressive behavior. • Leadership skills. • Ways to deal with professional issues ethically. At the end of the session, Ms Amrita Mathur thanked Ms Panakkal on behalf of the CSI-SFIT team. The workshop was appreciated by all the attendees. It was concluded at 5:00 pm. About the resource person: Ms Deepa Panakkal Ms Deepa Panakkal is an MH- SET qualified assistant professor at St Francis Institute of Technology with over 8 years of teaching experience. She is an excellent orator skilled in English as a Second Language (ESL), Feasibility Studies, Educational Technology, Creativity Skills, and Public Speaking. Ms Panakkal is an experienced facilitator who has been guiding and motivating students through interactive and effective teaching - learning methods.

Report on Industrial Visit 2016 – 2017

Event Date: 23rd February 2017 & 24th February 2017

No. of students: 252

Industries Visited – Nasik Engineering Cluster and Gargoti Mineral Museum

the evening. The students were allowed to freshen up. The leisure time slot included pool time and the day ended with an entertainment program and dinner.

Day 2:

The students reported for breakfast at 8:30 in the morning and further visited the famous Gargoti museum in Nasik which is a mineral museum. Gargoti Museum displays the personal collection of Connoisseur Mr.K.C.Pandey which is the result of his consistency since past 40 years. Gargoti Museum is India's one & only Gem & Mineral Museum. It is the world's biggest "Private" Gem & Mineral Museum. Gargoti Museum houses the largest & the finest collection of Indian Zeolite Minerals & Crystals in the world. The students were enlightened with how the zeolites are formed and how the minerals are carefully extracted without breaking. The museum was very well organised into different sections namely:

1. Zeolite, Mineral & Crystal Specimens
2. Fossils of Shells Extinct Dinosaurs & Mammoth
3. Finest quality of Statues carved out of Precious/Semi-Precious stones
4. The Florescent Mineral Display

Further the students also visited the Regiment of Artillery museum which is located a few kilometres away from the previous location. Regiment of Artillery Museum, established in 1970 exhibits various information and artifacts pertaining to the Regiment of artillery, historical pieces of genera in use at various periods, and paintings displaying battle scenes.

The students were introduced to the functions and roles played by Artillery, one of the most important sections of the Indian Army, during the various wars fought by India with the neighbouring countries. The students learnt about its rich past and foundation, the mountain artillery's immense hard work of carrying the ammunition to highest elevations, various life size models of artillery guns, ammunition and missiles used during warfare. They also learnt how soldiers attack the enemy in rough and tough terrains.

Further, the students were accompanied back to the hotel for lunch and the baggage was also loaded. Later the students visited Soma Vineyard where the students were explained how the grapes are grown, about the soil and water requirement and also how they are used in the different types of wine making which was followed by a fun session of wine tasting wherein the instructor allotted explained the various elements by which the age and alcohol content of a particular wine can be known. The buses left for Mumbai at around 5 in the evening.

This industrial visit was recognized as an important moment in learning; a shared social experience that provides the opportunity for students to encounter and explore novel things in an authentic setting. Their importance is supported by professional organizations such as the National Science Teacher's Association. The visit was carefully planned by the faculty-St. Francis Institute of Technology which helped to expose students to new experiences and can increase interest and engagement in science regardless of prior interest in a topic.

REPORT: Technical Paper Writing

Event Date: 3rd March 2017

Venue: CAD Lab

Instructor: Dr. Sincy George

Time: 3:00pm - 4pm

No. of Registered Students: 60

Workshop Description:

On 3rd March 2017, CSI organized an informative seminar on 'Technical Paper Writing and Presentation.' The one hour seminar was conducted by Dr. Sincy George (Principal, SFIT).

Following topics were covered:

- Topics such as the prerequisites for writing a technical paper
- the dos and don'ts while drafting
- how the content should be remodeled and presented as per different target audience

Questions and doubts of students regarding this topic were skillfully resolved by Dr. Sincy George. Amrita Mathur (Assistant Professor-SFIT) gave vote of thanks and concluded the workshop.

REPORT: Ethical Hacking

Event Date: 4th October 2016

Venue: Computer Center

Time: 10:00am - 4pm

No. of Registered Students: 56

Instructor : Mr. Sachin Dedhia

Workshop Description:

This workshop was conducted by Mr. Sachin Dedhia from Skynet Secure Solutions. The workshop was held on 4th October 2016 and was a one day workshop. Mr. Sachin Dedhia gave information about various techniques and methods involved in Ethical Hacking. He then later taught the students about various security measures they must undertake while surfing on the Internet and briefed the students about the various opportunities in Ethical Hacking.

Following topics were covered:

- Computer security
- Threats to security
- Types of Attacks
- Techniques and methods of ethical hacking
- Security measures

Questions and doubts of students regarding this topic were skillfully resolved by Mr. Sachin Dedhia. CSI Chairperson gave vote of thanks and concluded the workshop.

Resource Person: 1. Sanil sir. 2. Rahul Yadav sir.	

A. Description:

A total of 51 students attended the workshop. On the first day of workshop students were informed about the history of android and how it was developed over the years. After that the students were given the android workshop folder. Difference between android, mac and other operating systems were taught. Advantages and disadvantages of the same were discussed. After this the students were divided into 9 groups and were asked to come out with different ideas on which an application can be developed. Several ideas were discussed and students were guided on what they can do to make it more better.

After that students were asked to start with Eclipse IDE and create AVD (android virtual device). All the basics needed for development were taught. Attributes like buttons, text field etc were explained. Then the students were taught the concept of toast and then they were taught how to make a text toast. This was the first step in app developing.

On the second day, students revised the important concepts and then began with day-to-day applications development. Students were taught to make different activities and get their outputs on the AVD as they were important for developing an app. Then they were taught to make a calling app, which was capable of making a call. Students were told to test the same app on the mobile phones. The second app was a messaging app, even this app was tested on the android phones.

Event Title: Latex Workshop	Number of Registered Students: 39 students
Resource Person: Mr.Nirav Patel	Event Date: 15 th March 2017.
Event Venue: Computer Centre, Room no. 111	

A. Description:

The workshop was on LaTeX, which is typesetting software for preparing reports, letters and presentations. Students were giving hands-on training on the software. The workshop covered the following areas:

1. Preparing basic documents
2. Inserting figures, tables and equations
3. Left, Right, Centre alignment
4. Formatting the font of the text
5. Vertical and horizontal spacing
6. Creating sections, subsections
7. Creating chapters in a report
8. Adding table of contents, list of figures and list of tables to the report
9. Creating certificate, abstract and cover page for a report
10. Adding bibliography to the report

B. List of registered student participants

The workshop was intended for students of TE EXTC, but since students of other streams were interested in the content of the workshop, they were encouraged to attend the same.

C. Feedback:

Contribution to learning

Skill and responsiveness of the instructor

Course content

What aspects of this course were most useful or valuable? (12 responses)

- The possibility of me making a report on latex is what i personally think will be very useful for me.
- The methodology and the way the seminar was executed helped in better learning.
- I was happy for the first time to learn something and do it practically
- Got to learn something new. Learnt a few formats which were difficult to use in the previous softwares
-
- Wherein it can used for making project reports with ease
- It was useful
- To develop a report with ease as desired.
- The instructor solving all the doubts and teaching it in a step by step method made it easy for us to understand.
- Latex was new for 2nd year people...So was really helpful to us...Which will help in our future project reports !
- Project work /writing results(reports)
- The report making

How would you improve this course? (9 responses)

- More time slot so that more extensive course takes place. However, for the given time provided, the workshop was very satisfactory.
- This helps in efficient documentation and saves time and efforts.
- By practice
- I would improve this course by implementing it in my day to day use
- More punctual, leaving more time to learn.
- By working on more documents on latex
- By carrying out more details of this software in our report so that we can get to know the things for which we are not familiar.this will happen only by guidance through expert in future.
- By increasing time limit /including more students
- Two sessions of two hours

Would you like IETE to organize such workshops in the future? (27 responses)

St. Francis Institute of Technology

Borivali, Mumbai

Department of Electronics and Communication Engineering

Event Title: Raspberry Pi workshop	Number of Registered Students: 22 students
Resource Person: Vikrant Fernandez and Siddesh Gotad	Event Time: 3 p.m. to 5 p.m.
Event Date: 29 th of March 2017	

A. Description:

As the workshop began, the students were informed about the basic working of the Raspberry Pi model. The layout of the same was explained in detail. The pin diagram of the Raspberry Pi was also explained.

The students were made to sit in groups of 4 or 5 and each group was provided with a Raspberry Pi, a webcam, a power bank, connecting wires, voltage divider circuit, a keyboard and a mouse.

The Raspberry pi has Ubuntu as a pre-installed OS. In order to code a Raspberry – Pi, Python is one of the best Programming language which can be used since it is easy to understand and user-friendly. The speaker explained how to program the microcontroller using Python by creating classes, object, calling packets, adding comments, etc.

The students were taught to interface the webcam with the Raspberry Pi and capture images using it. This can further be used for object tracking and various other applications.

The students also learned to interface an ultrasonic sensor to the microcontroller. A detailed description of the pin diagram of the Ultrasonic sensor was given. A voltage divider circuit is to be connected to the output of the ultrasonic sensor as its output is 5V voltage, whereas the Raspberry Pi works at an input voltage of 3.3V.

C. Images:

D. Results/ Impact Analysis

The codes were provided by the speaker but the students were encouraged to take up coding of the Raspberry Pi themselves.

Due to time limitations and some technical difficulties, some further topics were not covered. Since the students are keen to attend further sessions, another continued session might be planned, in association with RadLab-SFIT.

REPORT: Bigdata and Hadoop

Event Date: 11-12th March 2017

Venue: CAD Lab

Instructor: Mr. Anurag Mishra

Time: 10:00am - 5pm

No. of Registered Students: 43

Workshop Description:

Big Data and Hadoop workshop was organised by CSI on the 11th and 12th of March. It was conducted by Mr. Anurag Mishra and Mr Shiv Kumar from Robokart. The first session was taken by Mr Shiv Kumar during which he covered topics ranging from Introduction to Big Data to Hadoop Architecture. On the second day, Mr Anurag Mishra taught Hive and Sqoop which are tools widely used in field of Big Data. Students were given certificates from Robokart and Innovation Cell, IIT Bombay.

Questions and doubts of students regarding this topic were skillfully resolved by **Mr. Anurag Mishra** And Amrita Mathur (Assistant Professor-SFIT) gave vote of thanks and concluded the workshop.

Report on PRAYAS 2016 – 2017

Event Date:

Poster presentation: 2nd February 2017 (7th Floor)

Time: 10:00 am to 2.00 pm

Prayas Exhibition: 1st March 2017(New Auditorium)

Time: 10:00 am to 4.00 pm

Venue: 7th Floor/New Auditorium

No. of Students: 82

Chief Guest: Dr. Sincy George

Description:

A Report on PRAYAS 2017

A third consecutive year of the event, PRAYAS was commenced in 2015 with a view to allow the first year engineering students to implement their knowledge from the FE syllabus into practical applications. The event was divided into two phases which included the poster presentation competition and the project exhibition. The poster presentation competition was held on 2nd February 2017, on the 7th floor and the exhibition took place on 1st March 2017, in the auditorium of new building of the engineering college. An addition to this year's PRAYAS was that parents of participants were invited to visit the exhibition.

The project exhibition was commenced at 10:15 am and participants were distributed their certificates on the same day itself. Collectively, 16 groups had participated in the poster presentation competition and ultimately, 14 groups were able to present their projects for the exhibition. Four Judges were invited to judge the participants for both the poster competition and project exhibition.

There were 2 winners. First place winners were the project group Water Level Indicator. Second place was bagged by the project group Electric Paint.

The inauguration for project exhibition took place at 10.15 am in the college new building auditorium. It was a one day exhibition from 10.15 am to 4.00 pm. The responsibilities were distributed to an organizing committee which included staff members from Basic Sciences & Humanities Department and students from the first and second year. A total of 14 projects were displayed. Each project group had a maximum limit of 5 and minimum 2 students. The organizing committee was available throughout the day aiding every group. A budget of 17900 INR was approved for the event from college management. A feedback form was designed for the visitors to gain access to their input related to the exhibition and their suggestions for further improvement for the next event. Moreover, each and every project group had their own arrangement for feedback from the visitors.

Event Coordinators:

- Mrs. Preethi Colaco (FE Coordinator)
- Mr. Utkal Jadhav
- Mrs. Rekha Ajikumar
- Mrs. Beatrice Lobo.

4 twinkling

Answer number 3. Correct Score: 35%.

LIFE SKILLS

27th December 2016

St. Francis Institute of Technology
Borivali

Dear Sir/Madam,

Sub. : Blood Donation & Thalassaemia Minor Screening Camp

At the outset we would like to thank you for organizing a Blood Donation & Thalassaemia Minor Screening Camp in your college premises on 27th September, 2016. We also thank you for the courtesy extended to our representative during the camp.

The Blood Bank staff and patients attached to Sion Blood Bank & Bhagwati Blood Bank join us in saluting your commitment as a responsible Institution. The units of blood collected during the Drive have immensely benefited our suffering fellow citizens, and we are grateful to all the blood donors for their kind gesture. We are also grateful to those who came forward to donate blood, but could not do so for some reason or the other.

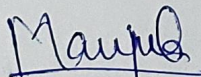

Blood samples of all the donors were tested for Thalassaemia Minor. The test was also offered to the other students who were not in the position to donate blood. We have now received the reports from the Health Solutions, who were responsible for carrying out the screening tests for Thalassaemia Minor. The individual reports along with a Summary of the Reports, are attached to this letter. We request you kindly hand over the individual reports to the concerned persons.

While we are focused on Thalassaemia Minor, the report may throw light on other aspects. The students may be requested to show the report to his/her family doctor.

For any clarification in the matter you may get in touch with us on 6518 1341, 6518 1343 or e-mail to us at 'vinay@thinkfoundation.org'.

Thanking you once again,

Yours sincerely,

Manjula Bhanushali

Report

Donor Registration Drive by MDRI

Date: February 27, 2017

Day: Monday

Time: 9:00 am to 4:30 pm

Venue: Assembly Hall, SFIT

No of Participants: 199

Department	CMPN	IT	EXTC
No. of Donors	56	64	79

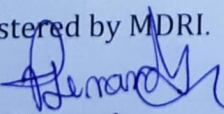

Objectives:

- Provide an opportunity to students of SFIT to register for Bone Marrow Donation.

The marrow donor registration drive was organized by NSS SFIT in collaboration with Marrow Donor Registry of India (MDRI).

The registration preparations started at 9 a.m. The hospital staff arrived at 9.15 a.m. with the required equipment. The registration process consisted of writing the name of the donor on the form provided by MDRI after which a blood sample was taken from the donor to form a database of the blood samples available for future donation. Refreshments were provided to the donors after the blood samples were collected. A total of 199 students were registered by MDRI.

Paul Fernandes
