1. **Description Role-1:** Participated NPTEL-AICTE 8 Faculty Development Program on “Big data Computing”

The image shows a certificate from the NPTEL-AICTE Faculty Development Programme. The certificate is awarded to Nazneen Ansari for successfully completing the course "Big Data Computing" with a consolidated score of 71%. The certificate is dated Sep-Nov 2020. It features the logos of NPTEL and AICTE, and the signatures of Prof. Andrew Thangaraj (NPTEL Coordinator, IIT Madras) and Prof. Dileep N. Malkhede (Advisor-I, Research, Institute & Faculty Development, All India Council for Technical Education). The certificate also includes the Roll No: NPTEL20CS92S81980804 and a URL to validate and check scores: <http://nptel.ac.in/noc>. A red banner at the bottom states: "The candidate has studied the above course through MOOCs mode, has submitted online assignments and passed proctored exams. This certificate is therefore acceptable for promotions under CAS as per AICTE notifications dated 24th July 2018, similar to other refresher / orientation courses. F.No. AICTE / RIFD / FDP through MOOCs / 2817-18".

The image shows a certificate of completion for a Coursera specialization. On the left, there is a vertical banner with the Coursera logo and the text "4 Courses". Below this, a list of course topics is provided: Blockchain Basics, Smart Contracts, Decentralized Applications (Dapps), and Blockchain Platforms. The main body of the certificate features the University at Buffalo logo (UB) and the name of the learner, Rupesh Shrikant Mishra, dated 04-May-2020. It states that the learner has successfully completed the online, non-credit specialization in Blockchain. A detailed description of the specialization follows, explaining that it covers foundational concepts like encryption, hashing, consensus, transactions, and blocks, and includes hands-on experience with smart contracts and decentralized applications on a private Ethereum blockchain. The certificate also lists two faculty members: Bina Ramamurthy, Teaching Professor of the University at Buffalo, and Timothy Leyh, Executive Director of the University at Buffalo Center for Industrial Effectiveness. At the bottom, there is a verification URL: coursera.org/verify/specialization/XCVLQNWQS424. A small disclaimer at the bottom left notes that the online specialization may draw on material from on-campus courses but is not equivalent to them.

04-May-2020

Rupesh Shrikant Mishra

has successfully completed the online, non-credit Specialization

Blockchain

Through this specialization, learners developed an understanding of foundational concepts that enable a blockchain protocol. The courses covered applying the concepts of encryption, hashing, consensus, transactions, blocks and private-public keys in building a blockchain. Learners designed, developed and tested smart contracts and decentralized applications on a private Ethereum blockchain. The discussions included the architecture of a decentralized application stack, best practices, emerging standards, and many open issues such as scalability and privacy. Learning concluded with a holistic view of the landscape, including decentralized application use cases and other blockchain platforms.

May 19, 2020

Rupesh Shrikant Mishra
has successfully completed the online, non-credit Specialization

Deep Learning

Congratulations! You have completed all 5 courses of the Deep Learning Specialization. In this Specialization, you built neural network architectures such as Convolutional Neural Networks, Recurrent Neural Networks, LSTMs, Transformers, and learned how to make them better with strategies such as Dropout, BatchNorm, and Xavier/He initialization. You mastered these theoretical concepts, learned their industry applications using Python and TensorFlow, and tackled real-world cases such as speech recognition, music synthesis, chatbots, machine translation, natural language processing, and more. You are now familiar with the capabilities and challenges of deep learning. You are ready to take the definitive step in the world of AI and participate in the development of leading-edge technology.
